27: Brian Jones Chris Salewicz,2012-08-01 Brian Jones, multi-instrumentalist, visionary and the 'golden boy of the '60s', was, at the age of 27, the first rock casualty of his generation. A strange, somewhat impenetrable character, Brian Jones was a founding member and guiding spirit of The Rolling Stones. Adored and misunderstood in equal measure, Jones was perhaps the most creatively ambitious cultural force of his time, an artist whose commitment to the experimental and exotic remains profoundly influential. Always unconventional, Jones's voracious appetite for life's extremes led to unparalleled debauchery, drug and alcohol fuelled paranoia, and ultimately personal ruin. 27: Brian Jones is the third in a series of exclusive music ebooks, an ambitious project examining the perils of genius, celebrity and excess. Other titles in the series include 27: Amy Winehouse, 27: Jimi Hendrix, 27: Jim Morrison and 27: Kurt Cobain.

Jagdgeschwader 27 'Afrika' John Weal,2012-10-20 Synonymous with the Afrika Korps and the campaign in North Africa, JG 27 provided Rommel's army with fighter protection for virtually the whole 'roller coaster ride that was the war in the Western Desert from 1941-43. Formed in Germany on 1 October 1939 (with Adolf Galland as CO of I.Gruppe), JG 27 saw considerable action both during the Battles of France and Britain, downing 146 aircraft in the latter campaign alone. Sent to North Africa in April 1941, the geschwader had an immediate impact on the campaign, which had up until then been dominated by the Allies. The third volume in the Aviation Elite series on a German fighter geschwader, this book will once again prove popular with Luftwaffe enthusiasts and hobbyists alike.

Matthew 27:25: "His Blood Be on Us." Dr. Todd D. Baker,2008-10-07 This book is an exegetical study of Matthew 27:25 conducted within the context of the Gospel of Matthew and the broader contexts of the Old and New Testaments. The purpose for this study is to dispel and disprove the traditional anti-Semitic meaning of Matthew 27:25 that has tragically led to the unwarranted condemnation of the Jewish people for the death of Jesus Christ. Hence, the particular focus of this book will directly address and answer the perennial, theological question that asks, Does Matthew 27:25 mean and teach the Jews are altogether condemned by God for the crucifixion of Christ? While it is true the Jewish nation, by and large, tragically rejected Jesus at His first coming, this in no way gives Christians theological license for the wholesale hatred, persecution, and destruction of the Jews, or for holding an anti-Semitic bias against them. No where in the New Testament Scriptures is it taught that the Jewish race--past, present, and future are condemned and morally indicted as Christ killers for the crucifixion of Jesus Christ. This study is necessary to expose and correct the flawed interpretation of Matthew 27:25 that has historically persisted in Christendom and leads a person to build and develop an anti-Jewish theology. Factoring all this together, in a careful exegesis of Matthew 27, will manifestly demonstrate that the Jewish people are not guilty of deicide and therefore arbitrarily condemned by God as a race of Christ killers. Quite the contrary.

The 1926/27 Soviet Polar Census Expeditions David G. Anderson,2011-05-01 In 1926/27 the Soviet Central Statistical Administration initiated several yearlong expeditions to gather primary data on the whereabouts, economy and living conditions of all rural peoples living in the Arctic and sub-Arctic at the end of the Russian

civil war. Due partly to the enthusiasm of local geographers and ethnographers, the Polar Census grew into a massive ethnological exercise, gathering not only basic demographic and economic data on every household but also a rich archive of photographs, maps, kinship charts, narrative transcripts and museum artifacts. To this day, it remains one of the most comprehensive surveys of a rural population anywhere. The contributors to this volume – all noted scholars in their region – have conducted long-term fieldwork with the descendants of the people surveyed in 1926/27. This volume is the culmination of eight years' work with the primary record cards and was supported by a number of national scholarly funding agencies in the UK, Canada and Norway. It is a unique historical, ethnographical analysis and of immense value to scholars familiar with these communities' contemporary cultural dynamics and legacy.

Simplicius: On Epictetus Handbook 27-53 Charles Brittain, Tad Brennan, 2014-04-10 The Enchiridion or Handbook of the first-century AD Stoic Epictetus was used as an ethical treatise both in Christian monasteries and by the sixth-century pagan Neoplatonist Simplicius. Simplicius chose it for beginners, rather than Aristotle's Ethics, because it presupposed no knowledge of logic. We thus get a fascinating chance to see how a pagan Neoplatonist transformed Stoic ideas. The text was relevant to Simplicius because he too, like Epictetus, was teaching beginners how to take the first steps towards eradicating emotion, although he is unlike Epictetus in thinking that they should give up public life rather than acquiesce, if public office is denied them. Simplicius starts from a Platonic definition of the person as rational soul, not body, ignoring Epictetus' further whittling down of himself to just his will or policy decisions. He selects certain topics for special attention in chapters 1, 8, 27 and 31. Things are up to us, despite Fate. Our sufferings are not evil, but providential attempts to turn us from the body. Evil is found only in the human soul. But evil is parasitic (Proclus' term) on good. The gods exist, are provident, and cannot be bought off. With nearly all of this the Stoics would agree, but for quite different reasons, and their own distinctions and definitions are to a large extent ignored. This translation of the Handbook is published in two volumes. This is the second volume, covering chapters 27-53; the first covers chapters 1-26.

27 Howard Sounes, 2013-11-12 When singer Amy Winehouse was found dead at her London home in 2011, the press inducted her into what Kurt Cobain's mother named the 27 Club. "Now he's gone and joined that stupid club," she said in 1994, after being told that her son, the front man of Nirvana, had committed suicide. "I told him not to..." Kurt's mom was referring to the extraordinary roll call of iconic stars who died at the same young age. The Big Six are Brian Jones of the Rolling Stones, Jimi Hendrix, Janis Joplin, Jim Morrison of the Doors, Kurt Cobain and, now, Amy Winehouse. All were talented. All were dissipated. All were 27. Journalists write about "the curse of the 27 Club" as if there is a supernatural reason for this series of deaths. Others invoke astrology, numerology, and conspiracy theories to explain what has become a modern mystery. In this haunting book, author Howard Sounes conducts the definitive forensic investigation into the lives and deaths of the six most iconic members of the Club, plus another forty-four music industry figures who died at 27, to discover what, apart from coincidence, this phenomenon signifies. In a grimly fascinating journey through the dark side of the music business over six decades, Sounes uncovers a common story of excess, madness, and self-destruction. The fantasies, half-truths, and mythologies that have become associated with Jones, Hendrix, Joplin, Morrison, Cobain, and Winehouse are debunked. Instead a clear and compelling narrative emerges, one based on hard facts, that unites these lost souls in both life and death.
