The Fearless Eye Aizen Malki,2018-07-19 The world is ending. Samuel Kaine and his brother anxiously await their demise. There's only one way out. A machine that scans the mind of its user, and beams them to a place aligned with the nature of their consciousness. After clearing his mind, Samuel goes through, only to find himself on an unfamiliar planet. He's shocked to

discover that the human-like inhabitants are emotionless and can only communicate telepathically. Through a perilous first encounter, the being feels Samuel's fear; which causes the newfound emotion to infect its blank-slated mind. The fear of powerlessness and lack of control overwhelms it, warping the being's motivations. Samuel has created a monster, and fear is spreading like a virus. Can he undo what he's done? Or will he be stuck on a hostile planet with tyrannical rule?

**Sacred Gardens and Landscapes** Michel Conan, 2007 Studies of rituals in sacred gardens and landscapes offer tantalizing insights into the significance of gardens and landscapes in the societies of India, ancient Greece, Pre-Columbian Mexico, medieval Japan, post-Renaissance Europe, and America. Sacred gardens and landscapes engaged their visitors into three specific modes of agency: as anterooms spurring encounters with the netherworld; as journeys through mystical lands; and as a means of establishing a sense of locality, metaphorically rooting the dweller's own identity in a well-defined part of the material world. Each section of this book is devoted to one of these forms of agency. Together the essays reveal a profound cultural significance of gardens previously overlooked by studies of garden styles.

*The Fluid Pantheon* Bernard Faure, 2015-12-31 Written by one of the leading scholars of Japanese religion, *The Fluid Pantheon* is the first installment of a multivolume project that promises to be a milestone in our understanding of

the mythico-ritual system of esoteric Buddhism—specifically the nature and roles of deities in the religious world of medieval Japan and beyond. Bernard Faure introduces readers to medieval Japanese religiosity and shows the centrality of the gods in religious discourse and ritual; in doing so he moves away from the usual textual, historical, and sociological approaches that constitute the “method” of current religious studies. The approach considers the gods (including buddhas and demons) as meaningful and powerful interlocutors and not merely as cyphers for social groups or projections of the human mind. Throughout he engages insights drawn from structuralism, post-structuralism, and Actor-network theory to retrieve the “implicit pantheon” (as opposed to the “explicit orthodox pantheon”) of esoteric Japanese Buddhism (Mikkyō). Through a number of case studies, Faure describes and analyzes the impressive mythological and ritual efflorescence that marked the medieval period, not only in the religious domain, but also in the political, artistic, and literary spheres. He displays vast knowledge of his subject and presents his research—much of it in largely unstudied material—with theoretical sophistication. His arguments and analyses assume the centrality of the iconographic record, and so he has brought together in this volume a rich and rare collection of more than 180 color and black-and-white images. This emphasis on iconography and the ways in which it complements, supplements, or deconstructs textual orthodoxy is critical to a fuller comprehension of a set of medieval Japanese beliefs and practices. It

also offers a corrective to the traditional division of the field into religious studies, which typically ignores the images, and art history, which oftentimes overlooks their ritual and religious meaning. The Fluid Pantheon and its companion volumes should persuade readers that the gods constituted a central part of medieval Japanese religion and that the latter cannot be reduced to a simplistic confrontation, parallelism, or complementarity between some monolithic teachings known as “Buddhism” and “Shinto.” Once these reductionist labels and categories are discarded, a new and fascinating religious landscape begins to unfold.

Modernization In Asia: The Environment/resources, Social Mobilization, And Traditional Landscapes Across Time And Space In Asia Satoshi Abe,Tai Wei Lim,Saeed Rezaei,Yoshihisa Godo,Ka Shing Ng,Elim Yee Lam Wong,Koki Shimizu,Kenneth Wong,2021-12-10 This book explores the unfolding of modernity in the greater Asia that uniquely takes shape at different times and places, with a particular attention to a common thread that has been at heart of the development: religion. The status of religion has been relegated in the Western modernity to such that its effects be restricted within the private realm and not be exerted in the public or one's rationality. This edited volume sheds light on the multifarious forces of religion both in the past and present that have impacted on the essential aspects of modern society – aspects in which one does not usually have recourse to religion in the West – from science and technology, politics, and to identity in Asia.

Interdisciplinary approaches in the volume allow one to broadly examine religious practices within Asian contexts, thus enabling to reevaluate the concept, scope, and gamut of so-called religion.

Japanese Mandalas Elizabeth ten Grotenhuis,1998-11-01 The first broad study of Japanese mandalas to appear in a Western language, this volume interprets mandalas as sanctified realms where identification between the human and the sacred occurs. The author investigates eighth- to seventeenth-century paintings from three traditions: Esoteric Buddhism, Pure Land Buddhism, and the kami-worshipping (Shinto) tradition. It is generally recognized that many of these mandalas are connected with texts and images from India and the Himalayas. A pioneering theme of this study is that, in addition to the South Asian connections, certain paradigmatic Japanese mandalas reflect pre-Buddhist Chinese concepts, including geographical concepts. In convincing and lucid prose, ten Grotenhuis chronicles an intermingling of visual, doctrinal, ritual, and literary elements in these mandalas that has come to be seen as characteristic of the Japanese religious tradition as a whole. This beautifully illustrated work begins in the first millennium B.C.E. in China with an introduction to the Book of Documents and ends in present-day Japan at the sacred site of Kumano. Ten Grotenhuis focuses on the Diamond and Womb

World mandalas of Esoteric Buddhist tradition, on the Taima mandala and other related mandalas from the Pure Land Buddhist tradition, and on mandalas associated with the kami-worshipping sites of Kasuga and Kumano. She identifies specific sacred places in Japan with sacred places in India and with Buddhist cosmic diagrams. Through these identifications, the realm of the buddhas is identified with the realms of the kami and of human beings, and Japanese geographical areas are identified with Buddhist sacred geography. Explaining why certain fundamental Japanese mandalas look the way they do and how certain visual forms came to embody the sacred, ten Grotenhuis presents works that show a complex mixture of Indian Buddhist elements, pre-Buddhist Chinese elements, Chinese Buddhist elements, and indigenous Japanese elements.
