Starship Spotter Adam 'mojo' Lebowitz, Robert Bonchune, 2012-09-17 The Starship Spotter was created more than two centuries ago in the early years of deep space travel to serve as a reference guide to assorted space-going vessels. Captains of the spaceships of the United Earth Space Probe Agency used this invaluable tool to help their crews to distinguish friend from foe in the unexplored reaches of the cosmos. When the services were merged to form Starfleet, the Spotter as a paper book disappeared from use. Only recently rediscovered, the newest editions of this historic volume have until now been the sole purview of the students of Starfleet Academy. Each year a new class of Starfleet cadets carefully reviews and revises the contents. The ships displayed in the Starship Spotter are chosen as a tribute to the crews who have served on them and the valour shown, regardless of the ship's affiliation. Although only thirty ships could be selected, the cadets feel that these ships reflect the noble history of space exploration and travel. We proudly present to you the Class of 2383 edition of Starship Spotter.

The Savage Wars of Peace A. Macfarlane,2002-11-19 This book aims to solve the problem of how parts of mankind escaped from an apparently inevitable trap of war, famine and disease in the last three hundred years. Through a detailed comparative analysis of English and Japanese history it explores such matters as the destruction of war, decline of famine, importance of certain drinks (especially tea), the use of human excrement and the effects of housing, clothing and bathing on human health. It also shows how the English and Japanese controlled fertility through marriage and sexual patterns, biological and contraceptive factors, abortion and infanticide.

The Tokyo Trial Jeanie Maxine Welch,2001-11-30 Overshadowed for many years by the Nuremberg trials, the Tokyo Trial--one of the major events in the aftermath of World War II--has elicited renewed interest since the 50th anniversary of the war's end. Revelations of

previously hidden war crimes, including comfort women and biological warfare, and the establishment of international courts to try Yugoslav and Rwandan war criminals have added to the interest. This bibliography addressees the renewed interest in the Tokyo Trial, providing over 700 citations to official publications, scholarly monographs and journal articles, contemporaneous accounts, manuscript collections, and Web sites. Also included are sources on the Trial's influence on international law and military law and unresolved issues being debated to this day. Defining war crimes after the fact, practicing victor's justice to punish enemies, holding military commanders accountable for their troops' actions--these were issues confronted in the Tokyo Trial and other Asia-Pacific war crimes trials. They are still being investigated, researched, and debated today. This bibliography helps to illuminate these issues from different perspectives, providing a variety of ways to locate relevant English-language sources. The volume also includes citations to contemporary issues stemming from the Asia-Pacific war crimes trials--comfort women, biological warfare, and unresolved issues of reparations and official apologies. The book is a useful guide to sources on all aspects of the Tokyo Trial.

Star Trek: Myriad Universes #2: Echoes and Refractions Keith R. A. DeCandido, Chris Roberson, Geoff Trowbridge, 2008-08-12 It's been said that for any event,

there are an infinite number of possible outcomes. Our choices determine which outcome will follow, and therefore all possibilities that could happen do happen across countless alternate realities. In these divergent realms, known history is bent, like white light through a prism -- broken into a boundless spectrum of what-might-have-beens. But in those myriad universes, what might have been...is what actually happened. **THE CHIMES AT MIDNIGHT:** In a continuum where Spock died during childhood, an Andorian named Thelin became Captain Kirk's stalwart friend and first officer. But at the moment of Khan's final defeat, history takes an even stranger turn, and the emerging potential of Project Genesis is revealed as the galaxy's greatest hope...and its most ominous threat. **A GUTTED WORLD:** Terrorist Kira Nerys -- from a Bajor that was never liberated -- may hold the key to winning a war that has engulfed half the galaxy. But with the Romulans and the Klingons at each other's throats, and the Federation pulled into the conflict, even victory may not bring salvation. **BRAVE NEW WORLD:** Dr. Noonien Soong's dream has been realized: androids are now woven inextricably into the fabric of the Federation, revolutionizing Starfleet and transforming the quality of humanoid life. But when Soong's long-missing breakthrough creation, Data, mysteriously resurfaces, civilization reaches a crossroads that could lead to a bright new future, or to ruin.
