Akizuki-Class Destroyers Lars Ahlberg, Hans Lengerer, 2022-11-28 The destroyers of the Akizuki Autumn Moon class were very different from the standard fleet type of Imperial Japanese Navy destroyers inaugurated with the Fubuki class. They were designed for the protection of the Imperial Japanese Navy's carrier task forces, and in order to achieve this they carried a particularly powerful antiaircraft armament and had an extremely long radius of action. However, only 12 out of a planned number of 39 entered service, and they arrived too late to play a crucial role in the decisive carrier battles of World War II. Despite this, their history is of particular interest since the Akizuki class foreshadowed the postwar fleet escort. This is the history of their design and construction, and it relies heavily on Japanese source material and includes numerous photos and drawings.

Akizuki the Japanese Destroyer Mariusz Motyka, 2017-03-19 Akizuki was the lead ship of her class of destroyers in the Japanese Imperial Navy considered by many to be among the best Japanese warships of that type in service during World War II. Those long-range vessels were fast, heavily armed and featured surprisingly good electronics (at least by Japanese standards of the time). Add to that the exceptionally graceful lines and the result is one of the most capable large destroyers in service with the IJN.

The Japanese Destroyer Akizuki Mariusz Motyka, Łukasz Stach, 2013 The book is primarily focused on the development history, technical data, design features, and the battle record of the Akizuki class destroyers, including their combat trail and the fate awaited that them.

New Mahāyāna Ryōmin Akizuki, 1990 In 1959 Newsweek reported that a young Zen monk and scholar threatened to shake Japanese Buddhism by publishing the secret answers to the koan. Though he never took that step, Akizuki Ryomin did make good on his promise to devote himself to breaking the formalism that constricts Zen and exposing the fake masters. Here, he brings his ideas on reform together into a proclamation of a New Mahayana.

The Sifted Vol. 11: Episode 095-110 Ryosuke Akizuki, 2023-04-30 This book, the eleventh installment of The Sifted, contains 16 episodes, the largest number ever. In 2020, the Japanese government's request for people to refrain from leaving their homes due to the spread of COVID-19 has made it difficult for the author Akizuki to cross prefectural borders to visit restaurants. The restaurants he introduces in this book are naturally those that he covered before the coronavirus pandemic. And now the series has finally reached Episode 100, a special article titled The dishes we may never eat again. All the characters come together to discuss several phantom dishes, carefully selected from the author's treasured collection, that for various reasons are difficult to eat again. In 2021, the pandemic shows no sign of abating, and the stock of restaurants Akizuki covered is finally dwindling. The cornered author has no choice but to decide on the Odawara series Part 2, which introduces restaurants in his hometown. In addition, at the end of this work, a special manuscript exclusively written for this eBook introduces a full course of monkfish, an exquisite dish at The restaurant which must not be named, which even the characters cannot visit. The serial articles of The Sifted, posted on The BBB Facebook page, last for more than 420 weeks without a break. Still, the author Akizuki continues his free, willful wandering for attractive dishes ...

The Miso Book John Belleme,Jan Belleme,2004 In Japan, the preparation of miso has been considered an art form for centuries. Through a unique double-fermentation process, soybeans and grains are transformed into this wondrous food. As a food, miso can be used in a wide variety of savory and satisfying dishes. As a folk remedy, it has been used to treat poor digestion, cancer, radiation sickness, tobacco poisoning, and even low libido--and its healing properties have been confirmed by modern science. The Miso Book begins with miso basics--the different types, the various manufacturing methods, and miso's role in maintaining good health. Also presented are directions for making miso at home. The recipe section provides information on the cooking and blending qualities of different types of miso, on which types of miso work best with various foods, and on how to use different misos as dairy and meat substitutes, plus over 100 recipes.--From publisher description.

Shadows of Nagasaki Chad R. Diehl,2024-01-02 A critical introduction to how the Nagasaki atomic bombing has been remembered, especially in contrast to that of Hiroshima. In the decades following the atomic bombing of Nagasaki on August 9, 1945, the city's residents processed their trauma and formed narratives of the destruction and reconstruction in ways that reflected their regional history and social makeup. In doing so, they created a multi-layered urban identity as an atomic-bombed city that differed markedly from Hiroshima's image. *Shadows of Nagasaki* traces how Nagasaki's trauma, history, and memory of the bombing manifested through some of the city's many post-atomic memoryscapes, such as literature, religious discourse, art, historical landmarks, commemorative spaces, and architecture. In addition, the book pays particular attention to how the city's history of international culture, exemplified best perhaps by the region's Christian (especially Catholic) past, informed its response to the atomic trauma and shaped its postwar urban identity. Key historical actors in the volume's chapters include writers, Japanese- Catholic leaders, atomic-bombing survivors (known as hibakusha), municipal officials, American occupation personnel, peace activists, artists, and architects. The story of how these diverse groups of people processed and participated in the discourse surrounding the legacies of Nagasaki's bombing shows how regional history, culture, and politics--rather than national ones--become the most influential factors shaping narratives of destruction and reconstruction after mass trauma. In turn, and especially in the case of urban destruction, new identities emerge and old ones are rekindled, not to serve national politics or social interests but to bolster narratives that reflect local circumstances.
