Build Your Own AK/AKM Tooling Kit Lou Patrick,Rob Reaser,2018-03-03 Build your own AK tooling kit? YES! Ever since AK/AKM component kits have been imported into the U.S., enthusiasts and small-volume manufacturers have struggled to find an efficient, accurate, and safe AK-building solution, relying on multiple tools and homemade work-arounds to assemble rifles that are only almost there. The tooling components illustrated in this book eliminate the guesswork to offer safe, accurate solutions that new and experienced AKM builders have asked for. Build Your Own AK/AKM Tooling Kit provides all the specifications needed to create your own kit thanks to detailed, easy-to-read blueprints. The AK Tooling System allows individuals, gunsmiths, and small-volume custom manufacturers to correctly and safely perform the pressing, pinning, and riveting operations involved in the construction of AK/AKM-pattern 7.62x39mm semi-automatic rifles featuring stamped steel receivers and fixed stock rear trunnions while utilizing a common tooling platform. It also simplifies the installation of the front sight block, gas block, rear sight block, and barrel trunnion/receiver assembly onto an AK/AKM barrel while ensuring Top Dead Center alignment. The unique design of the press fixture assembly allows all components to be installed in a controlled, safe manner in a single press setup by using a standard 12-ton hydraulic home shop press. With the AK Tooling System you can: * Press the front sight block, gas block, and rear sight block onto an AKM barrel in a single pressing operation or individual pressing operations while ensuring top-dead-center alignment of these components to the barrel. * Install the barrel pin and all pins associated with the front sight block, gas block, and rear sight block. * Achieve correct headspace dimension while pressing the riveted barrel trunnion and receiver assembly onto a populated AKM barrel. * Install trigger guard, center support, and fixed stock trunnion rivets. * Disassemble a demilitarized AKM kit.

Islamic Da'wah Organization Prof. A K M Nazir Ahmed / ইসলামীক দাব্বাওয়াহ সংগঠন, 2010-03-01 A group of people who are devoted to this noble calling and who aim to foil all external threats to their organization have to maintain strict organizational norms and values, which Professor A K M Nazir Ahmad highlights in this book. Since the aims and objectives and the nature of Islamic da'wah organizations all over the world are largely the same, his ideas will be useful to those who take calling people to Allah's way seriously, no matter where they are geographically located. And this is what inspired me to translate this important Bangla work into English for the benefit of the global readership.

The Unheard Stories of the Rohingyas AKM Ahsan Ullah, Diotima Chattoraj, 2023-07-27 The 2017 persecution of the Rohingyas resulted in around a million Rohingyas fleeing to Bangladesh, India and Malaysia. This book investigates the complex challenges of managing the large-scale refugee exodus in Bangladesh and how best to resolve these challenges in the future. Using a mixed-method approach that includes a survey, key informant interviews and numerous short case studies of persecution, the authors also examine the problematic influence of the media, as local depictions of Rohingya refugees often caused further tension and division in the midst of the refugee crisis. The book's analysis offers a deeper understanding of the causes and drivers of identity-based politics among Myanmar's Rohingyas.

Bought and Paid For AKM Miles, 2009-07-27 Wait until Dr. Parker Easton finds out it's his former lover, Deacon, who has bought him for a date at the bachelor auction in which he was forced to take part. Dr. Parker Easton has used his work as an oncologist to try and forget the pain of losing his lover, Deacon Wagoner. Parker had thought they'd be together forever, and he would never understand how Deacon could have cheated on him. It had been two years and Parker was still too hurt to even think of seeing anyone else. Now he was forced to participate in a fundraiser for the new hospital wing, a ridiculous bachelor auction. He'd planned on donating only, but now found he had to strut out there and try to raise money for the cause. Stunned, barely covered the way he felt when he found out it was Deacon who had arranged to pay an exorbitant amount for the date. What the hell?

Rationalizing Migration Decisions A K M Ahsan Ullah, 2016-04-08 While decisions for working overseas are often based on expectations and promises of better jobs, opportunities, economic gains and, eventually, a better future, such assumptions may not always be realized. Focusing on the question of why migrants, despite not realizing their earlier aspirations, continue to remain as migrants rather than return home, this book provides a unified understanding of the rationalization of the migration decision making. It does so by empirically situating the study in the experiences of Bangladeshi migrant workers in Hong Kong and Malaysia.

Asian Immigrants in North America with HIV/AIDS AKM Ahsan Ullah, Ahmed Shafiqul Huque, 2014-08-31 This book explores a number of issues related to the stigma arising from HIV/AIDS infection, perceived or actual discrimination from the community and society and the extent of vulnerabilities for infected Asian refugees and immigrants. It assesses the health care and treatment regimen for HIV/AIDS accessed by immigrants and refugee claimants in North America, including treatments offered by the health-care system and ethnic communities and their perceptions and biases relating to HIV/AIDS issues. On another level, the book identifies the ways in which HIV-sufferer immigrants and refugees/refugee claimants from Asia are vulnerable to discrimination due to 1) lack of information about HIV/AIDS incidence in the community; 2) inability of the health system to respond appropriately; and 3) the community's need for introspection on their own health issues. This book reveals the dynamics that influence choice, behavior and lifestyle of HIV sufferer immigrants, adds to the existing knowledge about refugees and migrants and proposes a unified theory of discrimination and stigmatization within the context of human rights. In addition, the book presents a number of policy recommendations based on empirical findings with a view to helping reshape policies regarding refugee HIV sufferers and their social ramifications. This book will be of interest to researchers and students in any field from social sciences, health and psychology, as well as practitioners in the field of development and public policy. The book will be beneficial to policy formulators and implementers engaged in addressing the serious threat emanating from the HIV/AIDS pandemic.

A Compendious History of the Old and New Testament J. Hazard, 2017-04-19 Joseph Hazard's Compendious History, the earliest English-language example of a Children's Bible, provides a valuable glimpse into what a common English reader of the early 18th century might suppose the Bible taught. This popular book is based on a French original by Nicolas Fontaine, and the illustrations on engravings by Matthaus Merian. The second edition is reproduced here in a presentation very close to a facsimile, preserving many of the idiosyncrasies of typesetting and presentation (since these contribute significantly to the way the book conveys its interpretation of the Bible). With numerous omissions, some repetition, and surprising selection of incidents, the Compendious History opens a window into the state of biblical literacy in early Georgian England. It will interest general readers, parents of literary-minded children, scholars of children's literature, of 18th-century literature, of church history, of rewritten Bible and of the reception history of the Bible, and all who relish the peculiar cultural history of the English Bible.

Making Sense of New Testament Theology A K M Adam, 2005-01-07 Critics have tried to revitalize the discipline of New Testament theology. The results of their labors are often disappointing. A. K. M. Adam suggests the problems many sense in New Testament theology arise from a mismatch of method and goals. That mismatch stems from a preoccupation with modernity as resident in the hallowed halls of regnant historical criticism. We need a hermeneutics of theology, a hermeneutics of hermeneutics. Adam here helps us understand what to keep of the historical-critical perspective when the realization hits that we have been sold a bill of goods that no longer makes good on its promises. In that sense, Adam's book is far more friendly to the historical-critical method as such than unfriendly (editor's preface).

The Migration Myth in Policy and Practice AKM Ahsan Ullah, Md Shahidul Haque, 2020-01-01 This book investigates the long-term impact of migration on development, engaging in a thorough analysis of the pertinent factors in migration. Migration scholars and stakeholders have long placed emphasis on the necessity of migration for development. At the heart of this book is the question: Has migration made development necessary, or is it the other way around? While existing literature is predominantly occupied with positive impressions about the migration-development nexus, this book challenges associated pervasive generalizations about the impact of migration, indicating that migration has not impacted all regions equally. This volume thus grapples with the different extents to which migration has impacted development by delving into the social costs that migrants often pay in the long run. With empirical support, this book proffers that some countries are becoming over-dependent on migration. An excellent resource for both policymakers working on migration policy, and scholars in international relations, migration and development studies, this book presents a range of innovative ideas in relation to the remittance-development nexus.

Implementation of Basel Accords in Bangladesh A K M Kamrul Hasan,Yasushi Suzuki,2021-07-29 This book analyzes the impact of Basel Accord in Bangladesh. More specifically, it focuses on the credit risk homogenization under standardized approach of Basel Accord where External Credit Rating Agencies (ECAIs) are allowed to rate the exposures, the potential risk of allowing sub-ordinated debt (Sub-debt) as Tier 2 capital, and multiple bank distress cases as a real-world scenarios. In doing so, the book explores why the ECAIs rating fail to capture the real credit risk of exposure and to what extent sub-debt is reliable as regulatory capital. With that, the book's scope is categorized into three tracts (i) analyzes the ECAIs incentive and sanction issues from institutional economics perspective (ii) discusses the ill-impact of Naïve adoption of sub-ordinated debt as regulatory capital and its associated risk on financial system, and (iii) providing readers an empirical illustrations of bank distress when an economy tapped into institutional failures in the above-mentioned tracts (i) and (ii).

Flesh and Bones-Sermons A K M Adam,2001-09-24 The Gospel comes to us in an inexhaustible variety of ways: in reading Scripture and praying together, in thinking hard and arguing in faithful community, in the Holy Spirit and in flesh and bone. These sermons engage heart and mind, all of the senses (including our senses of humor and tragedy), and the real lives of real congregations, to proclaim a thoughtful, embodied vision of the gospel of Jesus Christ.

Titanium Alloys A.K.M. Nurul Amin,2012-03-16 The first section of the book includes the following topics: fusion-based additive manufacturing (AM) processes of titanium alloys and their numerical modelling, mechanism of α -case formation mechanism during investment casting of titanium, genesis of gas-containing defects in cast titanium products. Second section includes topics on behavior of the $(\alpha + \beta)$ titanium alloys under extreme pressure and temperature conditions, hot and super plasticity of titanium $(\alpha + \beta)$ alloys and some machinability aspects of titanium alloys in drilling. Finally, the third section includes topics on different surface treatment methods including nanotube-anodic layer formation on two phase titanium alloys in phosphoric acid for biomedical applications, chemico-thermal treatment of titanium alloys applying nitriding process for improving corrosion resistance of titanium alloys.

Covid-19 Pandemic And The Migrant Population In Southeast Asia: Vaccine, Diplomacy And Disparity Akm Ahsan Ullah,Diotima Chatteraj,2022-10-21 The COVID-19 pandemic has impacted about 1 billion migrants (both international and domestic) in a variety of ways, and this book demonstrates how COVID-19 has widened the gaps between citizens, non-migrant and migrant populations in terms of income, job retention, freedom of movement, vaccine etc.While there is an emerging literature studying the impacts of COVID-19 on migration, the situation in Southeast Asia has not received much scholarly attention. This book fills the literature gap by studying the experiences of migrants and citizens in Brunei, Malaysia and Singapore and highlighting how the pandemic has exacerbated inequalities between and within the groups. These three countries are studied due to their high reliance of migrants in key economic sectors. Findings in this volume are derived from a qualitative approach, complemented by secondary data sources.This book is appropriate for undergraduate and postgraduate students of population studies, epidemiology, political science, public policy and administration, international relations, anthropology, psychology, sociology, and migration and refugee studies. Migration and labour scholars benefit from the nuanced comprehension about how a pandemic could cause a schism between migrants and the population at large. Policymakers may consider the proposed recommendations in the book to improve the migration situation.
