Alfa Romeo 155/156/147 Competition Touring Cars Peter Collins,2012-09-03 After saving Alfa Romeo from oblivion in 1987, it took Fiat nearly five years to debut the first new Alfa produced under its control. This is the story of how the competition versions of the 155/156/147 family of cars were developed and subsequently raced to many championship titles and race wins. Together, these models kept the Alfa Romeo name at the pinnacle of motor sport for many years, from 1992 to 2006, and will become future motorsport classics.

Alfa Romeo 105 Series Spider Jim Talbott,Andrew Brown,2019-10-21 The Alfa Romeo 105 series Spider is one of the most admired drop-head sports cars to come out of Italy. Launched in 1966, its radical new look was not immediately welcomed. As prospective buyers gradually warmed to the model, enhancements were introduced including more powerful engines and higher-spec body and interior fittings. Despite its inauspicious start, production of this much-admired car lasted for twenty-seven years, finally stopping in 1993. Jim Talbott and Andrew Brown pay homage to the 105/115 series Alfa Spider. With over 330 photographs, many specially commissioned, this new book describes the Alfa Romeo company history including its philosophy of incorporating driver appeal into all of its products, resulting in some of the most desirable vehicles of their age; it details the evolution of the 105/115 series through four distinct body styles; lists the technical design specifications and every major version of the Spider and finally, discusses the issues and challenges of finding and owning a classic Spider.

Alfa Romeo Berlinas John Tipler,2016-03-18 There is something special about Alfa Romeo cars which can't be defined precisely but is, perhaps, best described as a vitality that creates a symbiosis between driver and machine: a oneness that no other marque seems to replicate. Alfa's Berlinas have always tended to be overshadowed by their spotlight-grabbing Coupé and Spider siblings, but enthusiasts with family car needs have always known that any saloon/sedan with the famous Alfa Romeo badge would deliver pure driving pleasure in equal measure. Here is the full story of Alfa's quirky but characterful Berlinas, from their beginnings in the early 1900s through to the start of a new millennium. Not only does the book describe and picture every model, it also contains useful information on restoring classic Alfa Romeos and details of marque specialists.

Alfa Romeo 916 GTV and Spider Robert Foskett,2013-03-01 Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916 models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts; Previously unpublished production figures, and chassis numbers for the desirable, limited-edition GTV Cup model. Comprehensively researched guide to the entire lifespan of the 916 series.Will appeal to Alfa Romeo and automotive enthusiasts.The history and design process are examined along with an in-depth guide to each of the model variants produced.The cars' current position in the classic car market is considered.Superbly illustrated with 240 colour photographs.Robert Foskett is a life-long Italian car enthusiast with a special interest in Alfa Romeo.

Alfa Romeo Tipo33 Peter Collins,Ed McDonough,2006-03-18 At the time, little was recorded about the activities of Alfa Romeo's World Championshipwinning Sports Racing car, the Tipo 33. The model had a long career, as a factory car as well as in private hands from 1967 until 1977. Great Italian motorsport engineer Carlo Chiti designed and ran a prolific number of different models of the Tipo. Unfortunately, nothing of the history of these developments was documented at the time, but the author has managed, after intense investigation and numerous personal interviews, to uncover much about this marvelous sports prototype.

Alfa Romeo Alfasud Chris Martin,2021-08-23 Launched in 1971, the Alfasud was an all-new departure for Alfa Romeo, both in its design and its execution and became the best-selling model in the history of Alfa Romeo . Originally it was developed with the dual intentions of launching the company into large volume production and providing a more affordable model than their highly regarded sports cars. However, its story was far from straightforward. Although respected for its technically brilliant design and universally praised for its ride and handling, the model never quite reached its full sales potential and its reputation was marred by problems that could not have been foreseen. With over 240 colour photographs, the book includes a brief history of Alfa Romeo to the end of the 1960s. The development of the Alfasud's design and the political reasons for building a new factory are given along with the car's reception from both the press and owners. The evolution of the model from initial prototypes, to the improvements to build quality and performance, including the Giardinetta and Sprint variations are covered as well as Alfasuds in competition.The political and labour problems, as well as the early quality control issues are discussed. Finally, there are numerous specification tables, performance data, chassis numbers, engine codes and colour charts.

Alfa Romeo 2000 and 2600 Tony Bagnall,2019-11-16 After a period of post-war austerity, in 1957 Alfa Romeo decided it was time to re-enter the market for luxury/executive class cars with a new range designed for the growing number and prosperity of potential customers. Thus, the first models in the new 2000 series emerged, followed by the 2600 series in 1962. That they were not hugely

successful, although some 18,540 were manufactured between 1957 and 1966, can be attributed to a number of factors, principally cost. Largely ignored for many years, these cars are now recognized as a significant element in Alfa Romeo's history and this book is a valuable record of their story. Richly illustrated with over 200 colour and black & white photographs, this book introduces the history of the company and its early designs; describes the early Berlina saloon, Spider convertible and Sprint coupe, and their development into the 2600 series; details the evolution of the 1900-based engine into the 6-cylinder 2600 engine; provides a history of the SZ Sprint Zagato; includes information on prototypes, show specials, specification tables, colour schemes and production numbers and, finally, includes a chapter on owning a 2000 or 2600.
