

Alien Race

Matthew David Goodwin

Juto Kele D. Gabor,2021-10-28 A wonderful opportunity to read about how a more advanced alien race sees us now: the semi-rational, technologically backward, and politically handicapped humans on Earth. The book is based on information received from a retired colonel on his deathbed. It includes his comments and discussions, and the rest is his and my interpretation of the three secretly taped interviews of aliens. I wrote down what I saw, heard, and was told with my understanding of what the aliens said about the current civilizations and also what should be done if we want humanity to live in peace, flourish, and survive.

Alien Race Scott Robertson,2009 The Galactic Alien Race Federation has overwhelmingly elected to invite Planet Earth to race for the future and join the Alien Race across the galactic universe. So begins the inspiration behind the work of the six designers featured in Alien Race. A full-colour feast for the eyes, Alien Race contains sumptuous original artwork and all the development stages - from sketches to character studies, different techniques and media - involved in creating humans, aliens, strange and wonderful creatures and out of this world landscapes. Packed with useful and fascinating design tips, and with plenty to please the eye, this book is a must for design students, artists and lovers of unique and beautiful artwork.

The Legacy of Pnomos William F. Rayer,2012-05-07 When the Family of Man receives a mysterious message from an unknown brother ship somewhere in the galaxy, a set of actions is set into motion that will lead Earth into a final battle for its own existence. Lisa and John, the original discoverers of the Family of Man discover the message and along with Pnomos, the leader of the Family of Man on Earth, begin setting plans to protect Earth from the eventual arrival of these aliens. John discovers a forgotten mechanism on the obelisk, the communication device of the Family of Man which had been forgotten and never used. The device, the Legacy of Pnomos, was a protector only to be used in a dire emergency if being attacked. As Lisa, John and the Family of Man decipher its use and its significant power, the alien race begins its approach to Earth.

Kethani Eric Brown,2009-03-31 It takes an alien race to show us our humanity When a mysterious alien race known as the Kéthani make contact with the people of Earth they bring with them the dubious gift of eternal life. These enigmatic aliens will change the course of the human race forever but also touch people's lives on a personal level, not least in a small town in the English countryside. But do the Kéthani have a hidden agenda and will the human race choose to evolve or turn in on itself in the face of this momentous revelation? Kéthani is a superbly crafted novel that examines the consequences of first contact with an alien race, and the choices faced by those whose lives are touched by these visitors from the stars. This is moving and powerful science fiction.

Alien Race Peter Chan,Justin Pichetrungsi,Scott Robertson,Thomas Tenery,2009 Gifted concept designers showcase their brilliant imaginations and artistic talents to offer readers this illustrated work of never-before-seen genetically engineered racing creatures.

The Latinx Files Matthew David Goodwin,2021-05-14 In The Latinx Files, Matthew David Goodwin traces how Latinx science fiction writers are reclaiming the space alien from its xenophobic legacy in the science fiction genre. The book argues that the space alien is a vital Latinx figure preserving Latinx cultures by activating the myriad possible constructions of the space alien to represent race and migration in the popular imagination. The works discussed in this book, including those of H.G. Wells, Gloria Anzaldúa, Junot Diaz, André M. Carrington, and many others, often explicitly reject the derogatory correlation of the space alien and Latinxs, while at other times, they contain space aliens that function as a source of either enlightenment or horror for Latinx communities. Throughout this nuanced analysis, The Latinx Files demonstrates how the character of the space alien has been significant to Latinx communities and has great potential for future writers and artists.

The Synchronicity War Part 3 Dietmar Arthur Wehr,2014-03-08 The Synchronicity War is going badly for the Human Race and its loyal A.I. allies. The 11,000+ humans remaining in the Universe are desperately trying to remain undiscovered by their xenophobic alien adversaries while they

attempt to rebuild a viable military defense and discover how they're receiving messages from the future. But Humans have now been contacted by a third alien race that says they want to help and tells the Humans that the xenophobic aliens aren't the REAL enemy. The real enemy is a life form that has a nightmarish biology and is a threat to the entire galaxy. What can 11,000 humans do that two other alien races can't do? How will two very special A.I.s ultimately decide the fate of their creators and who will pay the ultimate price for their loyalty?

Alien Racism G. D. Talbot, 2013-08-27 What if it seemed, that the whole world was telling you, that you were wrong? Would you still do what you know is right? Would you help and protect or would you fear, hate and destroy? *Alien Racism* is a suspenseful, science fiction story of a man named Tom and his family. Their views and understandings of human behavior and why we sometimes hate. I hope that this book will inspire people to discuss the question. What would it take to have no racism in the world?

Almost All Aliens Paul Spickard, 2009-05-07 *Almost All Aliens* offers a unique reinterpretation of immigration in the history of the United States. Leaving behind the traditional melting-pot model of immigrant assimilation, Paul Spickard puts forward a fresh and provocative reconceptualization that embraces the multicultural reality of immigration that has always existed in the United States. His astute study illustrates the complex relationship between ethnic identity and race, slavery, and colonial expansion. Examining not only the lives of those who crossed the Atlantic, but also those who crossed the Pacific, the Caribbean, and the North American Borderlands, *Almost All Aliens* provides a distinct, inclusive analysis of immigration and identity in the United States from 1600 until the present. For additional information and classroom resources please visit the *Almost All Aliens* companion website at www.routledge.com/textbooks/almostallaliens.

Infinity's Edge Ken Lozito, 2024-01-25 Earth's time is running out. Sixty years ago a plan was conceived to help humanity survive its first contact with an alien race. Now it's time to put that plan to the test. No country can stand alone. The world must unite if there is to be any hope of survival. Commander Kaylan Farrow and her crew are investigating an ancient alien signal from beyond the fringes of known space. After months of searching, the *Athena* is starting to wear down. It's only a matter of time before a catastrophic failure destroys their ship, but if they return to Earth now, Kaylan knows that humanity will not survive their first contact with hostile aliens. They must find the source of the signal and with it a means to end this war before it has a chance to reach Earth. *Infinity's Edge* is the fourth book in the *Ascension* space opera series. The crew of the *Athena* will risk everything to unravel the mystery of an ancient alien race whose wars nearly destroyed the galaxy. THE NOAH WARRIORS JW Luff, 2017-10-14 Twenty years ago, Earth was invaded by an alien race. Its once great cities have been reduced to ruins.

Those that didn't die in the initial battles are rounded up for slave labor. A reptilian race known as the Draki, are led by a powerful being that considers itself a god. The most violent place on the planet is the area formally known as the United States. America was the last to fall. Some say the U.S. is gone forever. But deep underground, a nation is rebuilding itself. New weapons, new tactics. The aliens suspect the humans are planning an uprising. But that's not the least of their problems. Five years before the invasion, God removed a remnant of the human race. That remnant is coming home, and they're bringing some friends along with them. And they have a score to settle too.

The Kabrini Message J. R. Egles, 2018-09-07 An alien race. A shocking message. During an archaeological dig in Greece, Jeffrey Driscoll stumbles upon a miraculous find: ancient crystals with celestial coordinates that will connect humankind with the Kabrini, a highly advanced alien civilization. His discovery leads him on a quest from the jungles of Africa to the islands of Greece, from the streets of London to the tombs of Egypt, from Washington, DC, to Los Angeles, Jamaica, Vienna, and finally, to the deepest depths of space and earth's first global space effort, the Legacy mission. When Driscoll Mining and the US Army complete deep space construction of the Kabrini communications network, the Legacy mission is deemed a success. But a dangerous terrorist group hungers for revenge, and Driscoll will stop at nothing to save the project. As his obsession with the Legacy mission spirals out of control, he risks losing everything his company, his grasp on reality, and the one thing he's ever truly loved: his wife. And when mankind finally makes contact, we quickly discover the Kabrini message isn't exactly what we want to hear.

The Synchronicity War Part 2 Dietmar Arthur Wehr, 2013 The unprovoked war with a mysterious alien race is going badly. Minor tactical victories are offset by major strategic setbacks. The aliens know where all Human-occupied worlds are while their own worlds are still unknown. Victor Shiloh's unpredictable precognitive visions are the only thing that is slowing the alien onslaught. Not content with gradually pushing Humanity back, Shiloh's vision reveals a massive attack on Earth, that will have terrible consequences. So far his visions have all come true. Can his A.I. allies make the difference between extermination and survival for the Human Race?

Alien Love Stan Schatt, 2015-04-28 In Stan Schatt's latest Science Fiction novel, a dying astronaut reveals a secret that blows the lid on a government treaty with extraterrestrials while other alien races have come to Earth with their own agendas. Meanwhile an ancient alien race with a base on the Moon makes plans that could spell doom. 25 year old EX-SEAL, Jack Starling, has plenty of his own problems, but he can't help falling in love with the beautiful woman he rescues after she is brutally attacked. He learns how dangerous it can be to fall in love with someone not human who has her own plans for him. Jack finds himself pitted against aliens far stronger and far more cunning than any human enemies. Once he learns what the aliens have planned for him and for Earth, he must race against time before it is too late.

Out of Place Out of Time Eric D. Knapp, 2003 Dr. Stowel made a big mistake: experimenting with unverified theories of time travel. The consequence was his sudden departure from Earth and his introduction to a sentient alien race. When he returns, many years later, he doesn't know how he got back, or why. Injured and suffering from severe memory loss, Stowel can only speculate that the aliens were responsible, that they are on Earth now and that they are up to no good. To the agents of the Temporal Exploration and Advancement project, Stowel's return could mean advancing their research by years. Yet with the risk of instigating an alien conflict as a result of their research, the project is at risk of being terminated instead! What is really going on? Katherine Maya is certain there is more, locked inside the lost memories of Dr. Trenton Stowel. But how can she unlock the memories of a man who keeps disappearing into thin air?--Amazon.com.
