**Alienation** Rahel Jaeggi, 2014-08-26 The Hegelian-Marxist idea of alienation fell out of favor after the postmetaphysical rejection of humanism and essentialist views of human nature. In this book Rahel Jaeggi draws on the Hegelian philosophical tradition, phenomenological analyses grounded in modern conceptions of agency, and recent work in the analytical tradition to reconceive alienation as the absence of a meaningful relationship to oneself and others, which manifests in feelings of helplessness and the despondent acceptance of ossified social roles and expectations. A revived approach to alienation helps critical social theory engage with phenomena such as meaninglessness, isolation, and indifference. By severing alienation's link to a problematic conception of human essence while retaining its social-philosophical content, Jaeggi provides resources for a renewed critique of social pathologies, a much-neglected concern in contemporary liberal political philosophy. Her work revisits the arguments of Rousseau, Hegel, Kierkegaard, and Heidegger, placing them in dialogue with Thomas Nagel, Bernard Williams, and Charles Taylor.

**Alienation** Richard Schacht, 2015-06-19 First published in 1970, original blurb: 'Alienation' is the catchword of our time. It has been applied to everything from the new politics to the anti-heroes of today's films. But what does it mean to say that someone is alienated? Is alienation a state of mind, or a relationship? If modern man is indeed alienated, is it from his work, his government, his society, or himself - or from all of these? Richard Schacht, in this intelligent analysis, gets to the root of these questions. Examining the concept of alienation in the works of Hegel and Marx, he gives a clear account of the origins of the modern usage of the term. Among the many insights to be gained from this analysis is a clear understanding of Hegel's influence on Marx in this most crucial area. Mr Schacht goes on to discuss the concept of alienation in recent philosophical and sociological literature, particularly in the writings of Erich Fromm. Here he finds a great deal of confusion, which has resulted in a series of almost universally unquestioned misconceptions. This, then, is a book for all of us who use - and mis-use - the term 'alienation', and who are interested in the concepts it brings to mind. The arguments of Professor Walter Kaufmann's introductory essay provide a useful background for Mr Schacht's analysis. In this essay, Professor Kaufmann states that 'henceforth nobody should write about alienation without first reading Schacht's book.'

**Adult Children of Parental Alienation Syndrome: Breaking the Ties That Bind** Amy J. L. Baker, 2010-03-01 An examination of adults who have been manipulated by divorcing parents. Parental Alienation Syndrome (PAS) occurs when divorcing parents use children as pawns, trying to turn the child against the other parent. This book examines the impact of PAS on adults and offers strategies and hope for dealing with the long-term effects.

**Alienation** Rahel Jaeggi, 2014-07-15 The Hegelian-Marxist idea of alienation fell out of favor during the post-metaphysical rejection of humanism and essentialist views of human nature. In this book Jaeggi draws on phenomenological analyses grounded in modern conceptions of agency, along with recent work in the analytical tradition, to reconceive of alienation as the absence of a meaningful relationship to oneself and others, which manifests itself in feelings of helplessness and the despondent acceptance of ossified social roles and expectations. A revived approach to alienation helps critical social theory engage with phenomena, such as meaninglessness, isolation, and indifference, which have broad implications for issues of justice. By severing alienation's link to a problematic conception of human essence while retaining its social-philosophical content, Jaeggi provides resources for a renewed critique of social pathologies, a much-neglected concern in contemporary liberal political philosophy. Her work revisits the arguments of Rousseau, Hegel, Kierkegaard, and Heidegger,

placing them in dialogue with Thomas Nagel, Bernard Williams, and Charles Taylor.

**Escaping Alienation** Warren Frederick Morris, 2002 Relying nearly exclusively on Hegel's ontological conception of the authentic self, the author seeks to explicate the causes of alienation and offer a method for overcoming it. Hegel's idea that human history is the quest through rational freedom towards spirit is advanced as the fundamental truth for overcoming alienation. **Alienation** Ines Estrada, 2019-04-10 Drawn in hazy gray pencil and printed in blue pantone ink, this book is about Elizabeth, an exotic dancer in cyberspace, and Carlos, who was just fired from the last human-staffed oil rig, attempting to keep their romance alive. When they realize that their bodies are full of artificial organs and they live almost entirely online, they begin to question what being human actually means. Do our ancestral, or even animal, instincts eventually kick in, or are we transcending the limits of our bodies? When an unplanned pregnancy is caused by an AI hack, Elizabeth must decide if the child is the next step in evolution – or a glitch that will wipe out humanity once and for all.

Alienation Ronald V. Urick, 1977 A high school textbook defining alienation with a discussion of its causes and possible methods of coping with this problem.

**Alienation: Plight of Modern Man?** William Christian Bier, 1972 His estrangement, not only from the world, but from himself as well, has become one of the more pervasive characteristics of modern man. Youth with its subculture and counterculture, minorities, alienated from society and from other minorities, generations driven apart by conflicts in lifestyles-all are manifestations of this contemporary problem. Such a topic, addressed by the 1971 Institute of Pastoral Psychology, lends itself to, and indeed requires, an interdisciplinary approach. As in previous Institutes and their published proceedings, invaluable contributions have been made by the behavioral and social sciences, theology, philosophy, and the law to an understanding of the problems encountered, not only in pastoral work, but also in the broader areas of human life and its associations. The present volume views alienation as a many-faceted malaise, having its remote roots in philosophy and religion, and more recently in the writings of political and social theorists. This general historical background is followed by an exploration of contemporary influences, such as war and international tension. Next, three focal points are given extended treatment-alienation in the political and social order, the alienation of youth, and religious alienation. Not ignored are selected manifestations of alienation affecting the aged, the poor, and those set apart by their homosexuality. Finally, representatives from four differing disciplines suggest what might be modern man's responses to his sense of estrangement. This volume, Number Seven in the Pastoral Psychology Series, will undoubtedly appeal to a wider readership than that which the Institute originally intended.

**Alienation and Affect** Warren D. TenHouten, 2016-12-01 Alienation has objective, social-structural determinants, yet is experienced subjectively as a psychological state involving both emotion and cognition. Part I considers conceptualizations of alienation and affect in historical context, emphasizing Rousseau, Hegel, Marx, Simmel, and Weber. Part II develops a theory of the affective bases of Seeman's original five varieties of alienation – normlessness, meaninglessness, self-estrangement, cultural estrangement, and powerlessness. The book argues that both normlessness and cultural estrangement manifest in two distinct forms and involve distinct emotions. Thus it develops the affective bases of seven distinct varieties of alienation. This work synthesizes classical and contemporary alienation theory and the sociology of emotions. It contributes to political sociology, and finds application in social psychiatry and related health and social-service fields that treat traumatized and highly alienated individuals.

**Alienation** Nathan Rotenstreich, 2022-07-04

Theories of Alienation R.F. Geyer, D.R. Schweitzer, 2012-12-06 The original papers which appear in this volume were initially presented in a series of sessions of the Ad Hoc Group on Alienation Theory and Research at the 1974 World Congress of Sociology in Toronto, Canada. This group was organized by the editors as a result of their longstanding research and teaching interest in the field. The purpose of the Toronto sessions was to provide an international forum where scholars and researchers could come together for a personal exchange of ideas and research findings. To our knowledge this was the first forum of its kind concerned specifically with alienation theory and research. More than fifty theoretical and empirical papers from thirteen countries and several overlapping disciplines were organized into panels and workshops during the span of four days. The response to these sessions indicates that interest in the study of alienation by philosophers and social scientists continues unabated. The Toronto sessions were organized largely around a fundamental concern for further theoretical development and conceptual clarification in the alienation field. The papers selected for this volume reflect this thematic concern. Although many excellent empirical papers were presented, it was generally felt that meaningful empirical research would benefit from a continued elaboration and refinement of alienation theory. The present collection is consequently geared to problems of meaning, theory, and method. Considerable emphasis is also placed on a critical evaluation of the alienation theme as it has evolved from social philosophy to empirical social research.

Three Authors of Alienation M. Ian Adams, 2014-01-09 As a philosophical and social concept, alienation covers a broad range of mental states, both normal and abnormal. Correspondingly, a wide range of literary forms has been employed to deal with this important theme. In Three Authors of Alienation, an exploration of the literary expression of alienation, M. Ian Adams discusses the works of three contemporary Latin American authors. The fiction of María Luisa Bombal, Juan Carlos Onetti, and Alejo Carpentier reflects alienation, disgust with life, and a feeling of nothingness arising from the conditions of modern society. However, each author treats the theme differently. In *La última niebla*, María Luisa Bombal uses poetic imagery to create the emotional life of the protagonist. Juan Carlos Onetti portrays the schizoid extreme of alienation with a complex of symbols based on changes of vision caused by the mental states of his characters. In *Los pasos perdidos*, Alejo Carpentier presents the problem of the modern alienated artist who attempts to rid himself of his social alienation by changing times and cultures. In his close analysis of the works discussed, Adams considers each literary element in its context and also in terms of its relation to the larger artistic vision of the author. In addition, he places the works of the three authors in the greater perspective of modern social problems by discussing the concepts of social alienation proposed by Erich Fromm and Erich Kahler. His conclusion is that, although disgust with life and feelings of meaninglessness are at the heart of the experiences of the characters of all three authors, only in Alejo Carpentier's *Los pasos perdidos* are social conditions the major cause of alienation. In the works of Bombal and Onetti, alienation is a result not of social conditions, but of factors unique to the characters' personalities and circumstances. Three Authors of Alienation is a solid contribution to criticism of contemporary Latin American narrative. Adams's projection of a social problem into the realm of aesthetic experience yields intriguing interpretations of both the problem and the literature.

Social Aspects of Alienation Mary H. Lystad, 1969 225 references to books, journals, and unpublished Ph. D. dissertations during the period 1959-1968. Arranged alphabetically by authors under broad topics. Author index.

**Alienation And Freedom** Richard Schmitt, 2018-05-15 This book provides detailed descriptions of how lives are

narrowed by alienation. It also provides some alternative views on alienation. The book shows that the deformation of personality, characteristic of alienation, takes many different forms.

Karl Marx's Writings on Alienation Marcello Musto, 2021-05-07 The theory of alienation occupies a significant place in the work of Marx and has long been considered one of his main contributions to the critique of bourgeois society. Many authors who have written on this concept over the 20th century have erroneously based their interpretations on Marx's early writings. In this anthology, by contrast, Marcello Musto has concentrated his selection on the most relevant pages of Marx's later economic works, in which his thoughts on alienation were far more extensive and detailed than those of the early philosophical manuscripts. Additionally, the writings collated in this volume are unique in their presentation of not only Marx's critique of capitalism, but also his description of communist society. This comprehensive rediscovery of Marx's ideas on alienation provides an indispensable critical tool for both understanding the past and the critique of contemporary society.

**Alienation Modern Man** Fritz Pappenheim, 1959 This intriguing work deals with the plight of the alienated individual, estranged from humanity and the surrounding world. It examines such questions as: Why do writers like Kafka, Thomas Wolfe, Rilke, and the existential philosophers, who portray the individual as a stranger in the world, have such a strong appeal? Is estrangement limited to individual cases or has it become a universal fate? Is alienation a consequence of the triumph of the machine? Is it characteristic of the human condition, or is it a specific development of modern society? Should humanity resign itself to alienation, or can it be overcome, conquered?

*Alienation and Class* Richard Schmitt, 1983

The Evolution of Alienation Lauren Langman, Devorah Kalekin-Fishman, 2006 Building on the Marxian view of alienation as the inevitable consequence of wage labor that divests human beings of control over their life forces, The Evolution of Alienation provides new insights into contemporary conditions. Contributors explore how alienation is fostered not only by television freak shows and shock music, but also by programmed schooling and even by some scientific theories. Others show that the contradictory relationships possible in some domains, among them, new technologies and domestic work, disclose niches of fulfillment that belie alienation.

**Alienation and Social Criticism** Richard Schmitt, Thomas E. Moody, 1994 Individuals trying to understand their alienation and to think about how to overcome it are ill served by such abstract discussions because the connection to their particular specific experience is often difficult to draw.
