Shifting Reality Patty Jansen,2012-12-06 A few years ago, a military doctor walking the corridors of New Jakarta Station saved Melati's life. She signed up for the International Space Force to pay back her moral debt to him. But her family thinks she has betrayed her people. It was ISF who forcefully removed their grandmothers and grandfathers from the crowded slums of Jakarta to work in interstellar space stations. It is Melati's job to teach six-year old construct soldiers, artificial humans grown in labs and activated with programmed minds. Her latest cohort has one student who claims that he is not a little boy, but a mindbase traveller whose swap partner took off with his body. It soon becomes clear that a lot of people are scouring the station for this fugitive, a scientist with dangerous knowledge. The best place to hide in the station is amongst the many cultures and subcultures of the expat Indonesian B-sector. Looking for him brings Melati into direct conflict with her people. She does not want to be seen as one of the enemy, but if the scientist's knowledge falls in the wrong hands, war will come to the station.

The Battle of Allion Fall Chloe Garner,2024-02-16 The crew of

the Kingfisher just want to get back to their normal life in the import/export business. Yes, they should have been heroes twice over, now, but no smuggler is looking for that sort of attention. Unfortunately, once you've fixed one impossible problem, people get the impression you can do any of them. So instead, Avery's getting chased by a dude with a spoon and Monte seems to be the go-to whenever the self-appointed galactic police have a suicide mission. The crew of the Kingfisher is on another not-entirely-voluntary mission, and this time the goal is rescuing peace. What can a hacker, an ex-soldier, an assassin, and a surfer do in the name of peace? Well, that's certainly going to be interesting to find out. Get ready to ship out, because there are no lazy days ahead. The crew of the Kingfisher is on the job.

Shifting Infinity Patty Jansen, 2015-07-15 Melati escaped New Jakarta space station when it fell into Allion's hands. Her family was left behind the enemy lines. She signed up for active duty with the International Space Force in the hope they would liberate the station. Instead, they chose to maintain a crippling siege that has lasted for ten months. A small ship escapes from the station with on board a single male occupant whose mind appears to have been wiped. With her skills in artificial mindbases, Melati is part of the team that tries to get information out of him. He could be a human Trojan horse sent by Allion and his calls for help nothing more than a trap to get ISF to send people to the station. Or he could be a genuine escapee from the station where the recycling processes have collapsed and ten thousand civilians have mere weeks until they die of asphyxiation. Either way, the time for watching and waiting is over. War is about to begin. Science fiction, military science fiction, space opera,

Juno Rising Patty Jansen, 2018-06-04 A prisoner, a secret he can't remember, and the military force that will destroy planets to get their hands on it. When Fabio Velazquez arrives on the secretive military base on Jupiter's moon Io, he knows two things: one, that he's had his memories erased and two, that he has a secret. Except because of point one, he can't remember what point two is. The portents aren't good: he's hated by his fellow soldiers, responsible for the greatest f***-up in

military history, traitor and human guinea pig. Yet, he managed to be trusted with a secret so big that the military has almost killed him and still haven't gotten their hands on it. Where is it, and who does it belong to? His nickname might be Escape Artist, but in the hostile environment of Io there is no escaping punishment. Or so the military thinks, but they're not the only ones interested in him. A secret base lurks in the cloud tops of Jupiter. They watch. They wait. They will strike.

A History of the "Meister-Allion" Families Henry Daniel Meister, 2016-10-03 Excerpt from A History of the Meister-Allion

Families: Their Emigration to and Settlement in America It has long been an accepted truism that breeding counts in the human family as well as in animal. In the families more especially considered in this chronological history, there are mingled the blood of the fiery, decisive French (the Allions) with the grim stickto itive of the Tuton (the Deningers, Vollmers, and Haags) and the, rustic sympathetic integrity of the Swiss (the Meisters, Kellers and Warners,) all commingled into the sturdy, patriotic, loyal true American, Who loves his home, loves his country, loves his fellowman and believes in the Golden Rule and puts his belief into practice. It is well enough to love the' land of our fathers but first of all, above all and all in all is the land that gives us our sustenance, that gives us our liberties, that protects our homes and our loved ones and makes possible our being What we are, our valorous, majestic grand U. S. A. May the descendants of the families herein concerned ever stand, in the future as in the past, for the valor, purity and integrity, of the old Red, White and Blue.
