Altair L. J. Black,2021-11-25 Guardians, Protectors, Witches. The titles vary species to species, but they all mean the same thing: an individual with a Spark of power and a purpose. Every Spark has an ignition point where their power goes from everyday useful to world-changing strength. Some Witches die in their spark-point. Penelope Williams is angry. A daughter of conservative parents, her Witch power coming to light reveals a hidden family history of a Salem survivor and power buried for generations. Disowned by her family, she lives as a ward of the Witches, studying and working far from Earth. She ignores the pain of her family's abuse, shoving aside the trauma of rejection and betrayal. Penelope throws herself into her work and her power, her abrasive attitude pushing anyone but demons away. Even in the midst of her pain and outcast life, people from several species choose to make friends with her. The one that surprises her the most is the demon Ikthiel. At the Edge of reality, a threat looms twisting the nature of space and time, encroaching from the space beyond the universe. Despite warnings from Ikthiel, she cannot focus on the coming threat, instead focusing on her studies and striving to find her power's purpose. But threats cannot be ignored forever. And Penelope faces what could be the answer to all her questions.

The Winds of Altair Ben Bova,1988-01-15 Earth is an old planet, and her teeming masses are running out of resources . . . and time. It is up to men such as Jeff Holman to discover a haven for Earth's millions. Altair VI is one such planet, and Holman is determined to transform this world into one where the human race can survive. Star probes had long before informed Earth that Altair VI had a flourishing ecology with one very tough beast at the top of the food chain, a beast that will have to be dealt with before the human colony ships arrive. The beast is not only tough, it is as smart as a man. Holman is faced with a soul-wrenching decision—for to make Altair VI habitable for humans, all native life must die.

Mr Altair's Simple Guide to a Complicated Universe Octaeivus Altair,2014-09-12 Our Universe is in truth a series of overlapping energetic grids that connect from the microcosmic Quantum Universe and its set of laws, to our Macrocosmic Universe with its laws and beyond even that. Like a vast interconnected series of webs, in a grand intelligence, like a brain. This Universe is a single Spiritual expression, of which physical manifestation is only a small part. The physical Universal expression is the same throughout the varying spatial densities. Even the Celestial Realms without time, where all Souls co-exist within an eternal moment (eternity means having no beginning) is merely a world where each unique soul generates their own physical space in harmony with the Creator which resides within their Heart Chakra. Eventually we will gain an insight into yet a greater spiritual scope, where our Creator is yet a small part of. Together we are on a journey to Source and all mysteries will be revealed.
