Ships of the High Seas Erik Abranson,1976 History of ships from the Viking longship to the modern supertanker.

SS United States William H. Miller,2022-04-08 The 'SS United States' was a great symbol of post-World War II American genius. She was the most advanced ocean liner of her time—modern, innovative and hugely powerful. Designed to be a commercial liner but easily convertible to wartime troopship, she entered service in July 1952, seventy years ago, to rousing triumph and success. She captured the prized Blue Riband for transatlantic speed, brought glory to America and her owners, and enjoyed great success for a full decade. But after trans-ocean jets arrived, her success slowly faded until fully decommissioned by 1969. Over fifty years of idleness, revival plans and schemes, and neglect and decay followed. To this day, the 'United States' waits silently at a Philadelphia pier. This is the story of a very great and beloved ship—her glory days, but also her days of struggle and indecision.

The Voyage of the Jerle Shannara: Morgawr Terry Brooks,2002-08-27 "The action is fast and furious . . . A fitting conclusion to one trilogy and a promising taking-off point for another."—Booklist Harrowing confrontations with the merciless Ilse Witch and the monstrous Antrax have taken their toll on the intrepid heroes aboard the airship Jerle Shannara. But their darkest adversary now snaps at their heels, in the form of the Morgawr—feeder upon the souls of his enemies and centuries-old sorcerer of unimaginable might with a fleet of airships and a crew of walking dead men at his command. The Morgawr's goal is twofold: find and control the fabled ancient books of magic and destroy the dark disciple who betrayed him—the Ilse Witch. Now at the mercy of those who seek vengeance against her, the Ilse Witch's only protector is her long-lost brother, Bek Ohmsford, who is determined to redeem his beloved sister . . . and to fulfill her destiny. BONUS: This edition contains an excerpt from Terry Brooks's *The Measure of the Magic*. "If you love Terry Brooks, you must have this book."—Statesman Journal "Excellent. . . It lives up to its predecessors, both within this trilogy and outside it."—Contra Costa Times

The Rise & Fall of Harland & Wolff Tom McCluskie,2013-03-01 Harland and Wolff, once acknowledged as the greatest and best-known shipbuilding company in the world, for many years enjoyed a mighty eminence before a gradual descent into near obscurity. This illustrated book, told from the unique perspective of someone who was there at the time, chronicles the history of the organisation from its creation to the present day, from its halcyon days to its present incarnation. Today, the company is no longer involved in

shipbuilding, maintaining only a small ship repair and engineering facility and occupying a fraction of its previously vast complex. At its peak Harland and Wolff directly employed over 45,000 people, with even more in its subsidiary companies. Well-known Harland and Wolff former employee Tom McCluskie, who was a technical consultant to James Cameron on the movie *Titanic*, sheds light on many little-known facts about the business, delves into the human interest stories, and recounts both the mighty zenith and ignominious demise of this great enterprise.

The History of the Sailing Ship Rosemary Mudie, Colin Mudie, 1975

RMS Aquitania Mark Chirnside, 2008 She entered service two months before the start of World War I, was scrapped six years after World War II ended, and was the longest lasting of all four funnelled liners. For two wars, she spent much time transporting troops but for the rest of her career she traveled the North Atlantic as one of the most famous liners afloat. Holding many records, Aquitania was built for the Cunard Line, not for speed but for luxury, at which she excelled, being called the Ship Magnificent from her entry into service. Mark Chirnside writes with a passion about this most beautiful of ships, a ship that was the epitome of the four-funnelled liner.

SS France/Norway William H. Miller, 2009 Completed in the early 1960s, the France was the last of the great French Line passenger ships on the celebrated run to and from New York. She was not only the national flagship, but the longest liner yet built, and a ship with fantastic interiors, superb service, and the most exquisite food. Highly successful, she did lose out in the end to the unsurpassable speed of jet aircraft, was laid-up, and lingered for five years before becoming a hugely successful cruise ship. In 1979-80, the indoor France was converted to the outdoor Norway. She became the largest cruise ship in the world, an innovator, a great prelude to today's mega-liners. She endured until 2005 and has since ended her days at the hands of

scrappers in far-off India. Indeed, she was one of the greatest, grandest, most beloved of all 20th-century ocean liners.

Ships of Splendour William H. Miller, 2023-06 Celebrating passenger ships in color, large and small, from the 1940s onwards The great passenger liners of the twentieth century make for iconic images of maritime history and design. This beautiful, full-color book presents the development of passenger ships across the twentieth century, from the 1920s, through the 1940s, and the heyday of the 1950s and '60s, until the onset of the jet age. The fleet includes the famous passenger ships such as the great Cunarders, titans of the North Atlantic like the United States, France and Michelangelo, and other icons including the Southern Cross, Windsor Castle, Canberra and Oriana. Homage is also paid to the smaller liners who were just as important in shaping the history of modern seafaring, ships such as the Aureol, Batory, Guglielmo Marconi, Hanseatic, Queen of Bermuda and Willem Ruys. Replete with notes, facts and anecdotes about these ships, the history of the passenger liner is broken down ship-by-ship and decade-by-decade. These ships return to the high seas once again in superb detail and vibrant colour.

Abandon Ship! Richard F. Newcomb, 2002-11-12 Originally published in 1958, Abandon Ship! was the first book to describe how the survivors of the U.S.S. Indianapolis sinking watched their shipmates fall prey to shark attacks, dehydration and death, and the first to question why the captain, Charles McVay, was court martialed.

Sailing Ship Elissa Patricia Bellis Bixel, 2011-03 Originally published in hardcover in 1998.

The History of the Ship Richard Woodman, 2005 Richard Woodman's 'The History of the Ship' is re-worked and updated for the first time in an accessible paperback format. The author presents a comprehensive examination of the technical and cultural development of the ship, from the earliest dugout canoe to the nuclear submarine.
