*Principles and Practice of Constraint Programming* Michel Rueher, 2016-08-22 This book constitutes the refereed conference proceedings of the 22nd International Conference on Principles and Practice of Constraint Programming, CP 2016, held in Toulouse, France, in September 2016. The 63 revised regular papers presented together with 4 short papers and the abstracts of 4 invited talks were carefully reviewed and selected from 157 submissions. The scope of CP 2016 includes all aspects of computing with constraints, including theory, algorithms, environments, languages, models, systems, and applications such as decision making, resource allocation, scheduling, configuration, and planning. The papers are grouped into the following tracks: technical track; application track; computational sustainability track; CP and biology track; music track; preference, social choice, and optimization track; testing and verification track; and journal-first and sister conferences track.

*Manifestations of Queerness in Video Games* Gaspard Pelurson, 2022-07-29 Taking the reader on a journey through queer manifestations in games, this book advocates for video games as a rich, political and cultural medium, which provides us with tools to navigate the future of gaming. Situated at the intersection of New Media, Game, Cultural and Queer Studies, the book navigates diverse interspecies relationships, queer villains from the past, Pokémon memes on border politics, flânerie in post-industrial cities and one-sided erotic fights. It provides new critical engagements with the works of Jose Esteban Muñoz, Bonnie Ruberg, Guy Debord and Jack Halberstam, examining queer representation, gaming subcultures and dissident play practices. Making the bold claim that video games might be the queerest medium today, this book provides organic, self-reflective and, ultimately, thought-provoking thinking in which both games and gamers are queered. This book will be of interest to scholars researching game studies, sex, gender and sexuality in new media, but also readers interested in literature, digital media, society, participatory culture and queer studies.

*Dubcon* Milena Popova, 2021-10-05 How the treatment of sexual consent in erotic fanfiction functions as a form of cultural activism. Sexual consent is--at best--a contested topic in Western societies and cultures. The #MeToo movement has brought public attention to issues of sexual consent, revealing the endemic nature of sexual violence. Feminist academic approaches to sexual violence and consent are diverse and multidisciplinary--and yet consent itself is significantly undertheorized. In *Dubcon*, Milena Popova points to a community that has been considering issues of sex, power, and consent for many years: writers and readers of fanfiction. Their nuanced engagement with sexual consent, Popova argues, can shed light on these issues in ways not available to either academia or journalism. Popova explains that the term *dubcon* (short for dubious consent) was coined by the fanfiction community to make visible the gray areas between rape and consent--for example, in situations where the distribution of power may limit an individual's ability to give meaningful consent to sex. Popova offers a close reading of three fanfiction stories in the Omegaverse genre, examines the arranged marriage trope, and discusses the fanfiction community's response when a sports star who was a leading character in RPF (real person fiction) was accused of rape. Proposing that fanfiction offers a powerful discursive resistance on issues of rape and consent that challenges dominant discourses about gender, romance, sexuality, and consent, Popova shows that fanfiction functions as a form of cultural activism.
