**Warriors of Legend** Jay Navok,Sushil K. Rudranath,2005 The book Warriors of Legend is one of the first of its kind, using a specific Japanese anime/manga series- the megahit Sailor Moon- to teach about Japan. Neophytes to Japan studies will find Warriors of Legend an accessible way to learn about this fascinating country. Those who know quite a lot about Japan already will find their understanding enhanced by the way the book analyzes the nuances of Tokyo's history and Japanese society. The book also argues that Sailor Moon is a unique series in that it was both internationally popular and strongly structured by the culture of the city of Tokyo and post-Economic Bubble Japan.

**Islands of Protest** Davinder L. Bhowmik,Steve Rabson,2016-01-31 Literature is an important vehicle to further knowledge of other cultures, and English translations of Okinawan literary works have had a major impact on the field of Okinawan studies. Yet the riches of Okinawa's literature have yet to be adequately mined. Islands of Protest attempts to address this lacuna with this new selection of critically acclaimed modern and contemporary works in English. The anthology includes poetry, fiction, and drama, drawing on Okinawa's distinct culture and subtropical natural environment to convey the emotions and tensions present in everyday life. Tōma Hiroko's poem Backbone juxtaposes the natural environment of aquamarine beaches and subtropical flora and fauna with the built environment of America's military bases. Stories by two of Okinawa's most dynamic contemporary authors display wide breadth, from the preservation of island dances and burial practices in Sakiyama Tami's Island Confinement and Come Swaying, Come Swinging to the bold, disquieting themes of violence and comfort women in Medoruma Shun's Hope, Taiwan Woman, and Tree of Butterflies. The crown jewel of the anthology, Chinen Seishin's play The Human Pavilion, is based on an infamous historical incident in which Okinawans were put on display during a 1903 industrial exhibition in Osaka. In his 1978 masterpiece, Chinen depicts the relentless pressure on Okinawans to become more Japanese. Given the controversial presence of U.S. military forces in Okinawa, this book is particularly timely. Disputes between the United States and Japanese governments over construction of a new marine airbase at Henoko have led to the resignation of Japan's prime minister, the election of an anti-base governor, and repeated protests. Islands of Protest offers a compelling entrée into a complex culture, one marked by wartime decimation, relentless discrimination, and fierce resistance, yet often overshadowed by the clichéd notion of a gentle Okinawa so ceaselessly depicted in Japan's mass media.

**Institutional Racism** Michael Haas,1992-12-10 This book describes how institutional racism arose in Hawaii, why it arose, what kept it going, and how it can be dismantled. The book is unique in describing the history, statistical patterns, ideological disputation, and political underpinnings of institutional racism in a particular state, indeed one often thought to be relatively free from virulent forms of racism. The book specifically focuses on racial problems in regard to education, employment, health care delivery, and public accomodations. The book concludes that White-constructed institutional racist policies, practices, and procedures persisted even when political power shifted after statehood in 1959 to affluent Japanese-Americans, who used the same forms of institutional racism to hold back Whites and poorer non-White ethnic groups. Although affirmative action is often improperly thought to involve quotas and reverse discrimination, the case of Hawaii shows that institutional racism can be dismantled through affirmative action without lowering standards of education, employment qualifications, and health care, instead, standards actually improved the benefit to all.

Summary of Amy Stanley's Stranger in the Shogun's City Everest Media,2022-03-27T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The baby girl, Tsuneno, was born in 1804. She had everything she needed for the first few months of her life. Her family had old clothes and rags to piece together for diapers, so she could be changed whenever she was wet. #2 Tsuneno’s family were investors and planners. They had to be, since even substantial fortunes could be lost quickly through bad harvests and mismanagement. But they also spent money freely on the small things of everyday life. #3 In the house of Tsuneno, which was attached to the temple, some of those everyday things were funded by donations from parishioners. The True Pure Land sect’s scholars taught that raising a child to become a priest or priest’s wife was a gift to the Buddha equal to all the treasures that fill three thousand worlds. #4 Echigo was a region in Japan that was known for its harsh winters. But at least everyone knew what to expect. It would be freezing from equinox to equinox, and sometimes farmers would need to shovel out the fields so that they could plant their rice seedlings.

□□□NOW! NihonGO NOW! Mari Noda,Patricia J. Wetzel,Ginger Marcus,Stephen D. Luft,Shinsuke Tsuchiya,2021-05-20 NihonGO NOW! Level 2 is an intermediate-level courseware package that takes a performed-culture approach to learning Japanese. This approach balances the need for an intellectual understanding of structural elements with multiple opportunities to experience the language within its cultural context. From the outset, learners are presented with samples of authentic language that are context-sensitive and culturally coherent. Instructional time is used primarily to rehearse interactions that learners of Japanese are likely to encounter in the future, whether they involve speaking, listening, writing, or reading. Level 2 comprises two textbooks with accompanying activity books. These four books in combination with audio and video files allow instructors to adapt an intermediate-level course, such as the second or third year of college Japanese, to their students’ needs. They focus on language and modeled behavior, providing opportunities for learners to acquire language through performance templates. Online resources provide additional support for both students and instructors. Audio files, videos, supplementary exercises, and a teachers’ manual are available at [www.routledge.com/9781138305304](http://www.routledge.com/9781138305304). NihonGO NOW! *Survival of the City* Edward Glaeser,David Cutler,2021-09-07 One of our great urbanists and one of our great public health experts join forces to reckon with how cities are changing in the face of existential threats the pandemic has only accelerated Cities can make us sick. They always have—diseases spread more easily when more people are close to one another. And disease is hardly the only ill that accompanies urban density.

Cities have been demonized as breeding grounds for vice and crime from Sodom and Gomorrah on. But cities have flourished nonetheless because they are humanity’s greatest invention, indispensable engines for creativity, innovation, wealth, and connection, the loom on which the fabric of civilization is woven. But cities now stand at a crossroads. During the global COVID crisis, cities grew silent as people worked from home—if they could work at all. The normal forms of socializing ground to a halt. How permanent are these changes? Advances in digital technology mean that many people can opt out of city life as never before. Will they? Are we on the brink of a post-urban world? City life will survive but individual cities face terrible risks, argue Edward Glaeser and David Cutler, and a wave of urban failure would be absolutely disastrous. In terms of intimacy and inspiration, nothing can replace what cities offer. Great cities have always demanded great management, and our current crisis has exposed fearful gaps in our capacity for good governance. It is possible to drive a city into the ground, pandemic or not. Glaeser and Cutler examine the evolution that is already happening, and describe the possible futures that lie before us: What will distinguish the cities that will flourish from the ones that won’t? In America, they argue, deep inequities in health care and education are a particular blight on the future of our cities; solving them will be the difference between our collective good health and a downward spiral to a much darker place.
