**An Anthology of Philosophy in Persia, Vol. 2** S. H. Nasr, Mehdi Aminrazavi, 2008-09-30 The tradition of philosophy in the Persian-speaking world is extraordinarily rich, creative and diverse. This anthology, which is divided into three volumes, aims to communicate something of that richness and diversity. The term 'philosophy' is understood to in its widest sense to include theological debate, philosophical Sufism and philosophical hermeneutics (ta'wil). Extending over a period of more than two millennia, and showcasing translations by well-established scholars, the anthology offers full bibliographical references throughout. For anyone interested in exploring, in all their varied manifestations, the fascinating philosophical traditions of Persia, such a wide-ranging and ambitious work will be an indispensable resource. Volume 2 covers five centuries of Ismaili philosophy, and includes extracts from outstanding Ismaili works including the *Rasa'il Ikhwan al-Safa* (Treatises of the Brethren of Purity) and the philosophical odes of Nasir Khusraw. It is of great significance that, in the early centuries of Islam, philosophers were influenced by Pythagorean and Hermetic ideas, which are usually associated with Shi'i thought in general and Ismailism in particular. Ismaili philosophy at this time was able to integrate strands of Greco-Alexandrian thought such as Hermeticism and Neo-Pythagoreanism, as well as aspects of Mazdaeism and Manichaeism. It also showed marked interest in Neo-platonism.

**Psychological Foundation of the Qur'an** II Muhammad Shoaib Shahid, 2016-02-05 My goal is to introduce logical and scientific results and analysis of the observation of the deteriorated state of the Muslim Ummah, which has been dependant over semi-educated, non-Arabic speaking Imams/Mullahs presenting Islam with personal agendas and misinterpretation of the Qur'an due to a foreign language or lack of insight to find solutions to all human issues presented by the Creator for His beloved creature. My sole reference in all the presentation is only the Qur'an to unite the Muslims who have split into various sectarian, political and social divisions through issues like terrorism, Bidaha, misconceptions over human and women's rights, and power struggles, under one umbrella of the Ummah based on One God, one Last Prophet (Muhammad PBUH) with one Holy Book (the Qur'an) for guidance in individual affairs and social justification. Outdated preaching practices (with projection of fear of punishment), mishandling of adolescent anxieties and concerns, intolerant attitudes, and indulging in rituals instead of religious obligations have confused the laypersons and those ignorant of Islam about the original Islamic intention presented in the Qur'an. I have presented the data for all English-speaking populations settled globally, with logic and observation on scientific tools, at the layperson's mental level to answer the

misunderstandings or objection about Islam and the Qur'an. This present publication is a solution to meet this noble mission of Allah for preaching His message to the derailed population, particularly among the Muslims.

**Northrop Grumman B-2 Spirit** Bill Holder,William G. Holder,1998 It has been called the most amazing and unbelievable aircraft of the 20th century. One look at the bat-like lines of the USAF's stealthy B-2 Spirit bomber quickly confirms this. But that futuristic shape has lineage back to the 1940s when the Northrop Company designed and built the B-35 and B-49 models - aircraft that closely resembled this 1990s flying wing version. Granted, the B-2 development program has had to endure a rocky road, but it is now here, and even though in smaller numbers than many desired, it will still present a formidable presence in the 21st century.
