Margo Donohue

Let Me Off at the Top! Ron Burgundy, 2013-11-19 A shockingly candid and raw autobiography from legendary anchorman, jazz flutist, and host of The Ron Burgundy Podcast, Ron Burgundy. From his humble beginnings in a desolate Iowa coal mining town, his years at Our Lady Queen of Chewbacca High School to his odds-defying climb to the dizzying heights of becoming America's most trusted and beloved television News Anchor, Ron Burgundy pulls no punches in *Let Me Off at the Top!* In his very own words Burgundy reveals his most private thoughts, his triumphs and his disappointments. His life reads like an adventure story complete with knock-down fights, beautiful women and double-fisted excitement on every page. He has hunted jackalopes with Bobby Kennedy and Peter Lawford, had more than his share of his amorous exploits, and formed the greatest on-air team in the history of televised news. Along the way, he hobnobbed with people you wish you knew and some you honestly wish you didn't—celebrities, presidents, presidents' wives, celebrities' wives, dogs, and, of course Veronica Corningstone, the love of his life. Walter Cronkite, Barbra Streisand, Katie Couric, the list goes on. Who didn't Mr. Burgundy, or "Ron" as he is known to his friends, rub elbows with in the course of his colorful and often criminal life? This may well be the most thrilling book ever written, by a man of great physical, moral and spiritual strength and not surprisingly a great literary talent as well. This book deserves a real shot at a Pulitzer Prize. In fact if it doesn't win one then we will finally have proof that the Pulitzer is rigged. Ron Burgundy has taken the time to write a book. We owe it to him, as honest Americans, to read it.

**Blockbusters** Anita Elberse, 2013-10-15 Why the future of popular culture will revolve around ever bigger bets on entertainment products, by one of Harvard Business School's most popular professors What's behind the phenomenal success of entertainment businesses such as Warner Bros., Marvel Entertainment, and the NFL—along with such stars as Jay-Z, Lady Gaga, and LeBron James? Which strategies give leaders in film, television, music, publishing, and sports an edge over their rivals? Anita Elberse, Harvard Business School's expert on the entertainment industry, has done pioneering research on the worlds of media and sports for more than a decade. Now, in this groundbreaking book, she explains a powerful truth about the fiercely competitive world of entertainment: building a business around blockbuster products—the movies, television shows, songs, and books that are hugely expensive to produce and market—is the surest path to long-term success. Along the way, she reveals why entertainment executives often spend outrageous amounts of money in search of the next blockbuster, why superstars are paid unimaginable sums, and how digital technologies are transforming the entertainment landscape. Full of inside stories emerging from Elberse's unprecedented access to some of the world's most successful entertainment brands, *Blockbusters* is destined to become required reading for anyone seeking to understand how the entertainment industry really works—and how to navigate today's high-stakes business world at large.

*Kind of a Big Deal* Saul Austerlitz, 2023-08-22 From the author of *Generation Friends*, featuring brand-new interviews with Will Ferrell and Adam McKay, a surprising, incisive, and often hilarious book about the film that changed comedy, *Anchorman*. It's been nearly twenty years since Ron Burgundy burst into movie fans' lives, reminding San Diego to "stay classy" while lampooning a time gone by—although maybe not as far gone as we might think? In *Kind of a Big Deal*, comedy historian Saul Austerlitz tells the history of how *Anchorman* was developed, written, and cast, and how it launched the careers of future superstars like Will Ferrell, Steve Carell, and Paul Rudd, also setting the stage for a whole decade of comedy to come and influencing films like *The 40-Year-Old Virgin*, *Talladega Nights*, *Knocked Up*, *Superbad*, and so many more. But *Kind of a Big Deal* isn't only a celebration of *Anchorman*—it's also a cultural analysis of the film's significance as a sly commentary on feminism, the media, fragile masculinity, 1970s nostalgia, and more. Featuring brand-new interviews with stars such as Will Ferrell, director Adam McKay, and other key players, the book includes insider commentary alongside updated pop-culture analysis. And it also shares surprising stories and facts: from the film's original conception as a plane crash/cannibal comedy mashup to the surprising, real-life newscaster who inspired the character of Veronica. Overall, this is a celebration of a movie that millions love—but it's also an unsparing look back at what has and hasn't changed, since the 1970s and since 2004. Perfect for fans of the film and anyone who cares about comedy today, *Kind of a Big Deal* proves that the movie was, and is, exactly that.

*A Life of Picasso* John Richardson, 2007 A three-volume study of the life and work of Pablo Picasso captures the artist from his early life in Mâalaga and Barcelona, through his revolutionary Cubist period, to the height of his talent in prewar Europe.

*Anchored* Mort Crim, 2021-03-16 HONORED AS A NOTABLE 100 BOOK IN THE 2021 SHELF UNBOUND BEST INDIE BOOK COMPETITION Mort Crim has reported on major conflicts around the world for more than four decades and was a major inspiration for Will Ferrell's performance in the movie *Anchorman*. Crim's memoir takes readers behind the camera to show what life was like when the local anchorman was as revered as the professional athlete, and just as overpaid. It was a glamorous life, working alongside some of journalism's legends, like Walter Cronkite, David Brinkley, Dan Rather, and Ted Koppel. The son of an evangelical minister in a conservative church, Crim suffered his first crisis of faith at the age of 15. Despite nagging questions, Crim eventually followed his father's path into ministry. But the more he delved into the Bible, the more his faith was shaken. Unable to defend things he wasn't sure of from the pulpit, Crim left the ministry for a career in journalism, determined to pursue truth. After a four-year stint in the Air Force, he earned his master's degree in journalism from Northwestern University, and by the age of 30, had made it to New York—the epicenter of his profession. As a national correspondent for ABC, Crim anchored the network's top-rated morning radio show and covered America's newly-developing manned space program. When Neil Armstrong took that first step on the moon, it was Crim's voice that described the historic event for millions around the world. At the urging of Walter Cronkite, Crim moved from network radio into the heady world of television news. At KYW in Philadelphia, Mort Crim was paired with the late Jessica Savitch, and their anchor team spawned the idea for Will Ferrell's *Anchorman* movies. Crim's journey for truth will resonate with anyone raised in a cocoon of certainty that they felt compelled to question.

**Filmed in Brooklyn** Margo Donohue, 2022-10-17 Shooting in Brooklyn is like opening a time capsule. Nothing has

changed. Everything looks like it did in the eighties. -Freddie Prinze, Jr. Discover the iconic films, legendary personalities and the locations for timeless big screen moments that took place in Brooklyn. The Futurist Rebecca Keegan,2010-10-05 With the release of Avatar in December 2009, James Cameron cements his reputation as king of sci-fi and blockbuster filmmaking. It's a distinction he's long been building, through a directing career that includes such cinematic landmarks as The Terminator, Aliens, The Abyss, and the highest grossing movie of all time, Titanic. The Futurist is the first in-depth look at every aspect of this audacious creative genius—culminating in an exclusive behind-the-scenes glimpse of the making of Avatar, the movie that promises to utterly transform the way motion pictures are created and perceived. As decisive a break with the past as the transition from silents to talkies, Avatar pushes 3-D, live action, and photo-realistic CGI to a new level. It rips through the emotional barrier of the screen to transport the audience to a fabulous new virtual world. With cooperation from the often reclusive Cameron, author Rebecca Keegan has crafted a singularly revealing portrait of the director's life and work. We meet the young truck driver who sees Star Wars and sets out to learn how to make even better movies himself—starting by taking apart the first 35mm camera he rented to see how it works. We observe the neophyte director deciding over lunch with Arnold Schwarzenegger that the ex-body builder turned actor is wrong in every way for the Terminator role as written, but perfect regardless. After the success of The Terminator, Cameron refines his special-effects wizardry with a big-time Hollywood budget in the creation of the relentlessly exciting Aliens. He builds an immense underwater set for The Abyss in the massive containment vessel of an abandoned nuclear power plant—where he pushes his scuba-breathing cast to and sometimes past their physical and emotional breaking points (including a white rat that Cameron saved from drowning by performing CPR). And on the set of Titanic, the director struggles to stay in charge when someone maliciously spikes craft services' mussel chowder with a massive dose of PCP, rendering most of the cast and crew temporarily psychotic. Now, after his movies have earned over \$5 billion at the box office, James Cameron is astounding the world with the most expensive, innovative, and ambitious movie of his career. For decades the moviemaker has been ready to tell the Avatar story but was forced to hold off his ambitions until technology caught up with his vision. Going beyond the technical ingenuity and narrative power that Cameron has long demonstrated, Avatar shatters old cinematic paradigms and ushers in a new era of storytelling. The Futurist is the story of the man who finally brought movies into the twenty-first century.

Television Goes to the Movies Jonathan Gray,Derek Johnson,2021-03-16 Television and film have always been connected, but recent years have seen them overlapping, collaborating, and moving towards each other in ever more ways. Set amidst this moment of unprecedented synergy, this book examines how television and film culture interact in the 21st century. Both media appear side by side in many platforms or venues, stories and storytellers cross between them, they regularly have common owners, and they discuss each other constantly. Jonathan Gray and Derek Johnson examine what happens at these points of interaction, studying the imaginary borderlands between each medium, the boundary maintenance that quickly envelops much discussion of interaction, and ultimately what we allow or require television and film to be. Offering separate chapters on television exhibition at movie theaters, cinematic representations of television, television-to-film and film-to-television adaptations, and television producers crossing over to film, the book explores how each zone of interaction invokes fervid debate of the roles that producers, audiences, and critics want and need each medium to play. From Game of Thrones to The TV Set, Bewitched to the Marvel Cinematic Universe, hundreds of TV shows and films are discussed. Television Goes to the Movies will be of interest to students and scholars of television studies, film studies, media studies, popular culture, adaptation studies, production studies, and media industries.
