The End of the Ancient World Ferdinand Lot, 2013-11-05 Originally published between 1920-70, *The History of Civilization* was a landmark in early twentieth century publishing. It was published at a formative time within the social sciences, and during a period of decisive historical discovery. The aim of the general editor, C.K. Ogden, was to summarize the most up to date findings and theories of historians, anthropologists, archaeologists and sociologists. Lord of Souls: An Elder Scrolls Novel Greg Keyes, 2011-09-27 Forty years after the Oblivion crisis, the empire of Tamriel is threatened by a mysterious floating city, Umbriel, whose shadow spawns a terrifying undead army. Reeling from a devastating discovery, Prince Attrebus continues on his seemingly doomed quest to obtain a magic sword that holds the key to destroying the deadly invaders. Meanwhile, in the Imperial City, the spy Colin finds evidence of betrayal at the heart of the empire—if his own heart doesn't betray him first. And Annaïg, trapped in Umbriel itself, has become a slave to its dark lord and his insatiable hunger for souls. How can these three unlikely heroes save Tamriel when they cannot even save themselves? Based on the award-winning Elder Scrolls® series, *Lord of Souls* is the second of two exhilarating novels that continue the story from *The Elder Scrolls IV: Oblivion*, named 2006 Game of the Year by numerous outlets, including Spike TV, the Golden Joystick Awards, and the Associated Press.

Medieval Military Medicine Brian Burfield,2022-03-24 A study of how doctors and surgeons treated the brutal injuries and illnesses suffered by medieval combatants. Soldiers of the Middle Ages faced razor-sharp swords and axes that could slice through flesh with gruesome ease, while spears and arrows were made to puncture both armor and the wearer, and even more sinister means of causing harm produced burns and crush injuries. These casualties of war during the 500-year period between the ninth and thirteenth centuries in Northern and Western Europe are the focus of Brian Burfield's study, but they represent just a portion of the story--disease, disability, disfigurement, and damaged minds all played their roles in this awful reality. Surgical methods are described in the book, as are the fixes for fractured skulls, broken bones, and damaged teeth. Disfiguring scars and disabling injuries are examined alongside the contemporary attitudes toward them. Also investigated are illnesses like dysentery and St. Anthony's Fire, plus infected wounds which were often deadlier than the weapons of the age. A final chapter on the psychological trauma caused by war is included and contains a significant focus on the world of the Vikings. Burfield's account features many individual cases, extracting their stories of wounds, sickness, and death from chronicles, miracle collections, surgeries, government records, and other documents. The prose, poetry, and literature of the period are also of great value in bringing these cases to life, as is the evidence provided by modern archaeological and historical scholarship.

The Ancient World ,1984

To ÕJoy My Freedom Tera W. Hunter,1998-09-15 As the Civil War drew to a close, newly emancipated black women workers made their way to Atlanta--the economic hub of the newly emerging urban and industrial south--in order to build an independent and free life on the rubble of their enslaved past. In an original and dramatic work of scholarship, Tera Hunter traces their lives in the postbellum era and reveals the centrality of their labors to the African-American struggle for freedom and justice. Household laborers and washerwomen were constrained by their employers' domestic worlds but constructed their own world of work, play, negotiation, resistance, and community organization. Hunter follows African-American working women from their newfound optimism and hope at the end of the Civil War to their struggles as free domestic laborers in the homes of their former masters. We witness their drive as they build neighborhoods and networks and their energy as they enjoy leisure hours in dance halls and clubs. We learn of their militance and the way they resisted efforts to keep them economically depressed and medically victimized. Finally, we understand the despair and defeat provoked by Jim Crow laws and segregation and how they spurred large numbers of black laboring women to migrate north. Hunter weaves a rich and

diverse tapestry of the culture and experience of black women workers in the post-Civil War south. Through anecdote and data, analysis and interpretation, she manages to penetrate African-American life and labor and to reveal the centrality of women at the inception--and at the heart--of the new south.
