A Distinctive Voice in the Antipodes Kirsty Gillespie,Sally Treloyn,Don Niles,2017-07-17 This volume of essays honours the life and work of Stephen A. Wild, one of Australia’s leading ethnomusicologists. Born in Western Australia, Wild studied at Indiana University in the USA before returning to Australia to pursue a lifelong career with Indigenous Australian music. As researcher, teacher, and administrator, Wild’s work has impacted generations of scholars around the world, leading him to be described as ‘a great facilitator and a scholar who serves humanity through music’ by Andrée Grau, Professor of the Anthropology of Dance at University of Roehampton, London. Focusing on the music of Aboriginal Australia and the Pacific Islands, and the concerns of archiving and academia, the essays within are authored by peers, colleagues, and former students of Wild. Most of the authors are members of the Study Group on Music and Dance of Oceania of the International Council for Traditional Music, an organisation that has also played an important role in Wild’s life and development as a scholar of international standing. Ranging in scope from the musicological to the anthropological—from technical musical analyses to observations of the sociocultural context of music—these essays reflect not only on the varied and cross-disciplinary nature of Wild’s work, but on the many facets of ethnomusicology today.

The Biology of Sea Turtles, Volume I Peter L. Lutz,John A. Musick,2017-12-06 Sea turtles have existed for millions of years, making them fascinating subjects of study. In the last 20 years, the science of sea turtle biology has expanded at an exponential rate, leading to major advances in many areas. This book synthesizes the results of these advances and focuses on how these endangered marine reptiles operate in, adapt to, and are dependent upon particular features of their marine environment. New technology in data gathering, such as DNA analyses, remote sensing, and physiological monitoring techniques, has led to a much greater understanding of the biology of the sea turtle at all stages of their life history.

Legitimacy in International Society I. Miyaoka,2003-11-24 Legitimacy in International Society addresses collective legitimization of emergent norms at international meetings and its effect on state behaviour. Drawing mainly on constructivist approaches in International Relations and social psychology, Isao Miyaoka discusses the international and domestic sources of legitimacy and the basic conditions under which collective legitimization matters for norm adoption. Three case studies examine Japan's responses to wildlife preservationist norms against high seas driftnet fishing, scientific whaling and international trade in African elephant ivory.
