A.P.C. Transmission Jean Touitou, 2017-09-07 The fascinating inside story behind the cult French fashion label A.P.C. A.P.C. (Atelier de Production et de Création) was created as a reaction to the excesses of the 1980s, and the minimalist designs of founder Jean Touitou now have a cult following. This compelling book, published on the occasion of A.P.C.'s 30th anniversary, carries the same minimal aesthetic - yet it's packed with never-before-seen illustrations and ephemera. Part retrospective of the brand and part personal scrapbook and visual diary, the book includes invitations, postcards, ad campaigns, images of their stores, and collaborations with other designers.

APC-48 - Combined Edition... Ben Young, 2017-12-06 Combining the full text and illustrations of the revised editions of... APC-48... and APC-48 Journeys... into one volume, celebrating the return of calmer seas, and honoring the service of all who stepped forward in the defense of freedom... With a foreword by Neal Ash, and additional text not found in the original volumes...

APC-48 Journeys Ben Young, 2017-11-30 Imagine your nation has suddenly been thrown into an unwanted war, and you are told that, as a reservist, you will join the brigade of your fellow citizen-soldiers/sailors who are already in place aboard giant steel behemoths, bristling with enormous guns, sailing in company with many other armed warships... Others are in speedy, but thin-skinned aircraft with little chance of returning alive from each harrowing mission... Still others climb inside armored, tracked monsters which clank inexorably toward a final clash with those who brought war and destruction to your friends and family... But docked among the enormous steel warships, all stretching nearly a thousand feet long, and taller than many of the buildings in your hometown, is a wooden ship, barely a hundred feet long, and covered with a material that not only wouldn't stop a .22 caliber bullet from the rifle with which you've hunted squirrels, it will even ignite when flame is applied... This is your home until peace is declared...

The author highlights the essentials, showing you how to approach the presentation and interview, providing a bank of examples of real APC questions, together with illustrative responses to demonstrate how the interview process works. In a clear, practical way the book covers the public, private and corporate sectors and enables graduates to understand the roles of the various participants in the property industry. Subjects covered include investment valuation, development valuation/appraisal, profits valuation, the Red Book, lettings, sales, rent reviews, lease renewals, estate management, ratings, planning, development, regeneration, compulsory purchase, telecoms and insolvency. The hands-on style of the candidates' critical analysis, clearly shows the detailed reasoning behind the initial strategies and decisions throughout a case. The examples of APC interview questions and tasks for study are invaluable in encouraging graduates to consider further issues - including the many practical problems which graduates need to understand in order to succeed in practice and with their APC interview. Professional ethics are also represented within the cases featured. The APC Casebook is an essential tool in preparing for the final assessment stage of the APC, as well as being an important reference source for candidates throughout their APC training.

SCF and APC E3 Ubiquitin Ligases in Tumorigenesis Hiroyuki Inuzuka, Wenyi Wei, 2014-03-28 This SpringerBrief explores the physiological roles of Skp1-Cullin1-F-box Complex (SCF) and Anaphase Promoting Complex (APC) in normal cells and in tumor formation. These two related, multi-subunit E3 ubiquitin ligase enzymes, APC and SCF are thought to be the major driving forces governing proper cell cycle progression. Defective cell cycle regulation leads to genomic instability and ultimately, cancer development. Selective degradation of key cell cycle regulators by the ubiquitin-proteasome system has been proven to be a major regulatory mechanism for ensuring ordered and coordinated cell cycle progression. The SCF and APC E3 ligases have been characterized to play pivotal roles in regulating the cell cycle progression by timely degrading various critical cell cycle regulators. This Brief reviews recent studies that have shown that deregulation of signaling pathways in which the two ubiquitin ligases are involved causes aberrant cell cycle regulation, in turn leading to tumorigenesis. The text also discusses how SCF and APC may present promising therapeutic targets to treat various cancers.

M113 APC 1960-75 Jamie Prenatt, 2017-11-30 The M113 is the most widely used and versatile armoured vehicle in the world. Fielded in 1960 as a simple 'battlefield taxi', over 80,000 M113s would see service with 50 nations around the world and 55 years later, many thousands are still in use. In addition to its original role of transporting troops across the battlefield, specialized versions perform a multitude of other functions including command and control, fire support, anti-tank and anti-aircraft defence, and casualty evacuation. This new fully illustrated study examines the service record of the M113 from its initial fielding through to the end of the Vietnam War. It will also describe the many US, South Vietnamese, and Australian variants of the M113 used in the Vietnam War as well as information on tactics, unit tables of organization and equipment, and a selection of engagements in which the M113 played a decisive role.

APC-48... Ben Young, 2017-08-02 An investigation into the whereabouts and purpose of a US Navy Small Coastal Transport during the Pacific War, and a discussion of supply and logistics during a time of conflict... This third edition contains revised text for clarity... Other than within these pages, and those of several books covering this specialized subject matter, plus some dedicated online sources containing not much more than the official data releases from the Department of the Navy, little information is available concerning the hazards faced by the men who went to sea in these tiny ships to supply those others entrenched on foreign beaches risking their all to preserve freedom at home...
