**Aphelion** Jeffery Austin Clements,2015-01-14 This is one of the most powerful science fiction mystery thriller's of our time. Readers claim the story is astonishing and eye-opening. The story starts as two GPS satellites mysteriously disappear from orbit just as an earthquake jolts the region. Mysteriously, the same jolt occurred worldwide. In the days to follow destructive environmental events begin to escalate. Spontaneous catastrophic tornadoes and lightning strikes intensify worldwide. A mega tsunami is detected in the Pacific Ocean that threatens to overtake the Hawaii Islands. As pandemonium and chaos spread around the world, the President of the United States engages the United Nations, major scientists and religious leaders in a summit to understand and solve the mystery. Meanwhile Jason, the son of astronauts, utilizes his graduate research at UCLA to become a key scientist who presents the probable cause and best solution for the mysterious Earth wide phenomena. Jason is torn by a dilemma. He struggles with his jealous adversaries as they attempt to discredit his profound research discoveries but he desperately needs to focus on rescuing his fiancée from a devastating fate. His choices could impact life as we know it. This is a must read for ordinary citizens.

**Aphelion** Dan Downey, 2021-03-31 Not all moons are exactly like Lunas which orbits its gas giant, Xeon. Of all the moons that this gas giant has in its company, Lunas is the only one having life. However, this world holds a dark past. At one time, people from Earth found this world and began to colonise it in hope of making a new future for themselves, far removed from the rest of humanity. But mankind now returns to this world with a new objective to fulfil with their return. Buried and hidden within a valley is a power that man wants to exploit, waiting to be unearthed. It has been two years since humanity was defeated by a mysterious alien force. It leaves Earth weakened and in need for replenishing its forces. The interest to unearth this power and obtain it has increased in order to accomplish this task. However, also hidden on Lunas are vicious monsters that desire to stop this from happening at any cost. They stop at nothing to drive humans out. How far will mankind go to prevent this threat and will this be enough to achieve their goal?

**The Rage of the Aphelion** Jeffrey B. Holl, 2011-11-16 The Rage of the Aphelion is a collection of poetic works that typify the world as it is within these trying and ever-changing times of economic disparity, and the very glorification of our presence on Earth as we move into the most advanced stage of economic awareness and technological consciousness since the Age of Enlightenment. Jeffrey B. Holl has captured a certain strength of awareness that does regale yet vilify our culture as we show a pronounced reluctance to

celebrate the human race within a society more driven by equality that moves to secure a place for each and every being on Earth not only the chosen few. While still within a world that struggles to assert its independence from the sources of control that limit future endeavors of the generations that will follow, Jeffrey finds himself transfixed by the very notion of creating works that will compel people to persevere in the struggle to accentuate their own outlook within the notion that life is not a futile endeavor and such an attempt can be a more formidable attempt at constructing a veritable fortress of thought so as to defeat these hidden quantities that disassemble the nature of those that stand for the concerted effort to make this planet a more acceptable place for all that inhabit it. Only through the power of language and its art will this become a possibility as we move forward into an uncertain yet determinate future utilizing the power of free will to outline an outcome that will allow us to survive and enlighten our sense of being with the knowledge necessary to perpetuate a positive outcome for the human race.

**Aphelion** Charles Allen Nall, 2017-01-02 The galaxy is crumbling apart. Planets are disappearing. Many Blood Dynasty ships are strangely missing. One of the Galactic Union's heavy cruisers also cannot be found. Terrorism spreads across the galaxy. Dangerous secrets are uncovered over Mars. They say it's always darkest before the dawn. But what if the dawn never comes?

**Winter in Aphelion** Chris Dixon, 1990

**Aphelion Sky** Phianna Rekab, 2021-01-07 Racing against time, a young woman

must choose between losing herself or losing the one person she values most.

**Aphelion: Stories of the Takamo Universe** Ar Declerck, 2019-02-28 The Year Is 2628 - Billions upon billions of souls call the galaxy known as Estra home. It's a home of unimaginable distance, from the Borthan Empire in the north to the left lung of the Kle vessan Republic. The Boe Republic brushes the southern emptiness of the Ens Gulf and yet, even here, there is life: teeming organics jostling, cooperating, invading, thriving. Dying. Love You Forever - As children, Kellan Kline and a young Terran girl named Rayelle survived horrific experiments at the hands of The Authority, a group hellbent on creating the perfect super-soldier. They were liberated from the lab together, but circumstance tore them apart. Years later Kellan found Rayelle again, married to a Terran politico and pregnant with his son. Happy that Rayelle had found peace, Kellan promised her again that his heart and loyalty belonged only to her. When Rayelle called, begging for his help, Kellan had no choice but to rush to her aid, although his interference might mean all-out galactic war. Dead Man's Drift - Bendine and Myrta Selva found themselves orphaned at an early age, left in the charge of a rascally Kle vessan pirate captain. They grew up in the belly of a ship learning the art of Kle vessan trade: stealing, lying, and cheating. As adults, they kept themselves and their origins a secret until a mistake in the Horvanni trade house left Bendine holding proof of a Naplian plot to assassinate a Terran Admiral. Now, with the help of a Terran agent, the girls and their shipmates must travel to

the desolate area surrounding Dead Man's Drift with the hopes of thwarting the Naplian plot and bringing honor to the Selva name again.

Aphelion Andy Frankham-Allen,

Aphelion L J Higgins, 2019-04-29 Ky isn't your typical seventeen-year-old girl. She's an alien hunter. Ky is one of the youngest and most skilled alien hunters Skywatchers has ever recruited. Lethal and focused, nothing can distract her from riding the world of the vermin who murdered her brother. When she's assigned a new recruit, Reece, she assumes he'll be just like the others. All she needs to do is tolerate his existence until he's paired with another hunter. Just another job. But it's a little hard when he's as stealthy as a drunk elephant. When he screws up their first assignment, the Skywatchers Commander insists they both be taken out of the field. He wants Ky to learn to work in a team. Maybe make a friend. That's not so easy when everyone she's ever cared about is dead. Skywatchers is what held her together when her world fell apart. Could Reece be the reason her life unravels once again?

Aphelion Emily Ballou, 2007 Exiled by love, Hazel Rey moves to the historic town of old Adaminaby. A victim of the Snowy Mountains Hydro-Electric Scheme, the town now lurks, gone but not forgotten, under the waters of Lake Eucumbene. There, on the shore of the lake, Hazel meets four generations of women sharing one house. Eighty-year-old Esme Windle waits patiently for her turn to die - but a daughter is not meant to go before her mother, and Esme's

ancient mother Hortense shows no signs of being finished with living. Esme's niece Byrne and Byrne's daughter, the widowed Lucetta, are succumbing to their own lonely fate. All four seem destined to live in a perpetual aphelion, pulled down by dark regrets and lost love. But when young Rhett Davys returns to his abandoned family home after the death of his mother, he carries within him a fire that will ignite all of their lives.

Aphelion Ascending Christopher Thompson, 2020-10-20 The long awaited fourth book from sci-fi author, Christopher Thompson is an exciting collection of eight mind-blowing stories into the unknown. Previously unpublished works including, *Neutral Ground* in which it is possible for people from anywhere in the world to meet through an ageing stasis system. *The World That Wasn't There*, a mystery planet threatens the safety of Earth and those who go to investigate its sudden and unexplained appearance. *Ghost Ship* finds eighteenth century sailors encountering a vessel seemingly crewed by dead men! Each tale presents an intriguing journey into the realms of science fiction that will appeal to readers of all ages.

*Apsis Fiction Volume 4, Issue 2* Goldeen Ogawa, 2016-07-19 A casual nebula-viewing turns into a critical rescue mission when Professor Odd and her companions happen upon a wayward spaceship lost in an unfriendly universe; Corianne comes to the aid of an old friend only to discover a pathway into a hidden world-a world that harbors a terrifying monster; and the first wheel of *Driving Arcana* comes full circle as Jill, Clara and Selene battle a

monstrous tree and an all-too-human enemy-only to trigger a phenomenon of world-shattering proportions. These are the stories of Apsis Fiction: Aphelion 2016, the seventh issue of Goldeen Ogawa's semi-annual anthology of fantasy and science fiction. Aphelion 2016 includes: Star Walkers (Professor Odd #9) The Hidden Road (Bouragner Felpz, Volume II, #12) Dying to Live (Driving Arcana #8) By Moon and Star (Driving Arcana #9)

**Apsis Fiction Volume 5, Issue 2** Goldeen Ogawa, 2017-09-08 An intercepted message leads Professor Odd and company to a remote research facility, which has become the first target of an old enemy. In Driving Arcana, what appears to be a simple trap laid by mutant cannibals turns out to be a catastrophe of biblical proportions. And Bouragner Felpz undertakes to solve a gruesome murder with a prophetic warning: that he will follow the thread to its bitter end, and the police might not appreciate the tangle he reveals. These are the stories of Apsis Fiction: Aphelion 2017, the ninth issue of Goldeen Ogawa's semiannual anthology of fantasy and science fiction. Aphelion 2017 includes: Davebot (Professor Odd #11) Out of Space (Driving Arcana #11) The Hand of Rishke (Bouragner Felpz, Volume III #2)

*Beltane at Aphelion* John Matthias, 1995 Beltane at Aphelion collects all of John Matthias's longer poems and is published simultaneously with *Swimming at Midnight*, which collects his shorter poems. The volume includes his exuberant experiments from the 1960s, *Poem in Three Parts* and *Bucyrus*, followed by *The Stefan Bathory & Mihail Lermontov Poems*, his comedic diptych from the 1970s

set on a Polish and a Russian ocean liner, and by Northern Summer, his meditation on history and language set in Scotland. It concludes with the three long poems first published in A Gathering of Ways which explore ancient paths and river routes in the East Anglian region of Britain and the American Midwest, and, in the most ambitious poem he has yet written, the famous pilgrim trails to Santiago de Compostela in Spain. About the books in which these poems originally appeared, critics and poets have written with enthusiasm.

**Aphelion** Jenna Butler, 2010 Aphelion is about distances, simultaneously belonging to two countries but being rooted in neither. In her first collection, poet Jenna Butler fluently explores this rift, sounding out the meaning of home from the perspective of a British-born Canadian. Written in experimental free verse and containing a selection of anti ghazals, Aphelion's subject matter, physical appearance on the page, and the way it is read aloud all reflect these elemental distances.
