Michael J. Bennett

Community, Class and Careers Michael J. Bennett, 1983-02-03 This study of Cheshire and Lancashire society in the late fourteenth and early fifteenth centuries is a unique attempt to reconstruct the social life of an English region in the later Middle Ages. Drawing on the voluminous archives of the two palatinates and the extensive muniment collections of local families, it offers an unusually rich and wide-ranging analysis of a dynamic regional society at a dramatic stage in its history.

Seaforth World Naval Review 2015 Conrad Waters, 2014-11-05 Now in its seventh year, this annual has established an international reputation as an authoritative but affordable summary of all that has happened in the naval world in the previous twelve months. It combines regional surveys with one-off major articles on noteworthy new ships and other important developments. Besides the latest warship projects, it also looks at wider issues of importance to navies, such as aviation and electronics, and calls on expertise from around the globe to give a balanced picture of what is going on and to interpret its significance. The 2015 edition looks in detail at the French Navy and the Bangladesh and Myanmar navies, while significant ships include the Montford Point class mobile landing platforms, the Samuel Becket offshore patrol vessels, and the Skjold class fast attack craft. There are technological reviews dealing with naval aviation by David Hobbs, and current mine warfare developments by Norman Friedman, while warship recycling is discussed by Ian Buxton. Intended to make interesting reading as well as providing authoritative reference, there is a strong visual emphasis, including specially commissioned drawings and the most up-to-date photographs and artists' impressions. For anyone with an interest in contemporary naval affairs, whether an enthusiast or a defence professional, this annual has become required reading.

International Order at Sea Jo Inge Bekkevold,Geoffrey Till,2016-10-15 This book examines how international order at sea is challenged, changed and maintained. The book surveys challenges to the international order at sea in the Asia-Pacific, the Indian Ocean Region, the Atlantic Ocean and the Arctic Ocean. It explores the interaction between and cooperation among leading, emerging and smaller naval powers, both naval and coastguard responses, required for the maintenance of good order at sea. Six broad and interlinked issues are identified that will influence the future international order at sea: the balance between the maritime and the continental domains; the balance between great power rivalry and cooperation; the contest between access and denial; the operational balance between preparing; building and training for warfighting as opposed to operations other than war;

how to manage 'disorder' security challenges that very often transcends territorial waters and national boundaries, and finally, the balance between safeguarding national interests and contributing to collective efforts preserving the international order at sea.

The Armed Forces of the European Union, 2012-2013 Charles Heyman, 2011-01-01 The European Union's 25 member states have defence forces that include over 1.6 million personnel and inventories that include over 35,000 armoured vehicles, 2,000 combat aircraft, 60 submarines and over 140 major surface vessels. This text includes other vital facts and figures related to European defence issues.

World War in Syria A.B. Abrams, 2021-07-01 World War in Syria answers questions that will have continued relevance beyond the country's borders for years to come. Impressive in its scholarship, pondered in its judgements, above all searing in its dissection of Western powers' war on Syria waged over many decades, the book is a must-have on the bookshelves of any serious fair-minded student of Syria. --Peter Ford, British Ambassador to Syria from 2003 to 2006 The most detailed history of the war in Syria so far, providing a richness of highly interesting details, as well as a critical analysis of its complex international and domestic dimensions, rarely encountered in other Western publications. -- Nikolaos van Dam, former Special Envoy for Syria, 2015-16. Ambassador of the Netherlands to Iraq, Egypt, Turkey, Germany and Indonesia, Author of Destroying a Nation. The civil war in Syria. A. B. Abrams explores the widening scope of the Syrian conflict in his important book. Solving Syria's civil war will require a regional approach engaging stakeholders whose interests are fundamentally opposed. --David L. Phillips, Director, Program on Peace-building and Rights, Columbia University Institute for the Study of Human Rights. Abrams is a meticulous guide to the labyrinth of Syria's

modern political history. --Richard W. Murphy. U.S. Ambassador to Syria, 1974 to 1978. Consul in Aleppo, Syria, 1960 to 1963 A. B. Abrams has written an extremely informative and illuminating account on the international dimension of the origins, outbreak and evolution of the Syrian conflict. His empirically rich analysis in this nuanced and comprehensive study make it one of the best books, if not the best book, written about the Syrian crisis. This book is a MUST read for anyone who wants to understand the Syrian conflict, the Middle East, and the role of the great powers in the region. --Jubin Goodarzi, Professor and Deputy Head of International Relations, Webster University, Geneva. Former consultant and political adviser on Middle Eastern affairs for the UNHCR. An insightful and dispassionate record of the Syrian Maelstrom and the West's role as the Sorcerer's Apprentice. --John Holmes, Major General and Director Special Forces (ret.), British Army.

Seaforth World Naval Review 2013 Conrad Waters, 2015-10-31 *Seaforth World Naval Review 2013*??Launched in 2009, this annual has rapidly established a reputation as an authoritative but affordable summary of all that has happened in the naval world in the previous twelve months. It combines the standing features of regional surveys with one-off major articles on noteworthy new ships and other important developments. Besides the latest warship projects, it also looks at wider issues of importance to navies, such as aviation and electronics, and calls on expertise from around the globe to give a balanced picture of what is going on and to interpret its significance. ??Planned special features for this year include in-depth studies of the navies of Italy and Ireland, plus analyses of significant new warship classes: the French Aquitaine class frigates, Indian Shivalik class Project 17 frigates, and US Bertholf class national security cutters.??Intended to make interesting reading as well as providing authoritative reference, there is a strong visual emphasis, including specially commissioned drawings and the most recently released photographs and artists' impressions.??For

anyone with an interest in contemporary naval affairs, whether an enthusiast or a defence professional, this annual has become required reading.

The Military Balance 2023 The International Institute for Strategic Studies (IISS), 2023-02-15
The Military Balance has been published annually since 1959. The 2023 edition provides an open-source assessment of the armed forces and equipment inventories of 173 countries, with accompanying defence economics data. Alongside detailed country data, The Military Balance assesses important military issues, region-by-region, and includes graphics to illustrate these as well as noteworthy equipment developments. Maps this year include a focus on Russia's full-scale invasion of Ukraine and select China-Russia military cooperation activities. The book draws on the range of data carried in the Military Balance+ online database, particularly the procurement features in each regional section. The accompanying wallchart explores the military use of outer space, an increasingly important element of defence capabilities, focusing on China, Russia and the United States. For those involved in defence and security policymaking, analysis and research, The Military Balance is an indispensable source.

Warship 2022 ,2022-05-26 A celebrated annual publication featuring the latest research on history, development, and service of the world's warships. For 45 years, Warship has been the leading annual resource on the design, development, and deployment of the world's combat ships. Featuring a broad range of articles from a select panel of distinguished international contributors, this latest volume combines original research, new book reviews, warship notes, an image gallery, and much more, maintaining the impressive standards of scholarship and research with which Warship has become synonymous. Detailed and accurate information is the keynote of all the articles, which are fully supported by plans, data tables, and stunning photographs. The varied topics in this year's

annual includes articles on the Imperial Japanese Navy carriers Soryu and Hiryu, post-war radar development in the Royal Navy, gunboats in the Imperial German Navy, Soviet battleship designs of the early Second World War, modern European frigates, and the origins of the Yokosuka naval yard.

Navies in the 21st Century Conrad Waters,2016-09-30 “A range of naval experts . . . build[s] a diverse and deeply-thought out picture of where maritime warfare is now and where it is likely to go.”—Army Rumour Service What is the purpose of navies in the modern world, and what types of warship does this require? This book tackles these questions by looking at naval developments, both technological and operational, in the quarter century since the end of the Cold War. It provides the overall political and economic context, assesses significant naval operations from the first Gulf War to Russia’s annexation of Crimea, reviews changes in the objectives and composition of the principal fleets, describes major design developments amongst the main warship types, and examines wider technological and operational developments, including naval aviation, shipbuilding and manning. “A high quality publication with a great many superb photographs. For those wishing to keep fully informed on world naval affairs, it is excellent value and strongly recommended.”—Scuttlebutt “This new book follows the successful approach and format of the very popular naval annual Seaforth’s World Naval Review. Under the same editor, a new team of specialists have been assembled to write authoritative articles in their particular fields of expertise. The absorbing text is fully supported by many outstanding images—Most Recommended.”—Firetrench “Provides a most useful contextual analysis of the post-Cold War period, explaining how technological developments and a range of world events have variously shaped the fleets of today.”—Warship

Warship 2020 ,2020-05-28 For over 40 years, Warship has been the leading annual resource on

the design, development, and deployment of the world's combat ships. Featuring a broad range of articles from a select panel of distinguished international contributors, this latest volume combines original research, new book reviews, warship notes, an image gallery, and much more, maintaining the impressive standards of scholarship and research with which Warship has become synonymous. Detailed and accurate information is the keynote of all the articles, which are fully supported by plans, data tables, and stunning photographs.

The Decline of European Naval Forces Jeremy Stohs, 2018-04-15 The Decline of European Naval Forces aims to provide insight into the evolution of Europe's naval forces since the end of the Cold War. To illuminate the drastic changes many European navies have undergone over the last twenty-five years, Jeremy Stöhs analyzes the defense policies and naval strategies of eleven

European states as well as the evolution, deployment, and capabilities of their respective naval forces. In these case studies, the development of Europe's most important naval forces is assessed per the respective strategic framework in which they have operated over the past two decades. Stöhs describes not only the general composition of each force but also the range of their capabilities and their important technical features. His study shows that since the end of the Cold War, all but a few European navies have significantly decreased in size and, thus, have ceded important capabilities along the way. Based on the understanding of sea power as a prerequisite for political influence and economic health, the consequences of the geopolitical shift toward the Asian-Pacific region, and most importantly the general decline of Europe's traditional naval capabilities, the author concludes that the ability of European states to influence events near and abroad by means of their naval forces has atrophied and will continue to be called into question in the future.

Lynx Henri-Pierre Grolleau, 2022-06-30 When introduced in 1978, the Westland Lynx constituted a massive improvement over the helicopters then in service with the French Navy for antisubmarine duties and quickly became a highly popular rotorcraft. From an asset specializing in antisubmarine warfare, it was soon turned into a multirole platform that proved incredibly versatile, performing an extremely wide range of roles. However, after more than 40 years in service, the Lynx was an aging design, and in August 2020, it was withdrawn from Aéronautique Navale service. Containing over 200 full-color images, this book charts the final year in French service of this much-loved machine.

Indian Defence Review Vol 29.4 (Oct-Dec 2014) Air Chief Marshal PV Naik, Claude Arpi, Col Danvir Singh, Gp Capt B Menon, Gp Capt AK Sachdev, Rear Admiral AP Revi, 2014-11-26 There was a change of Government in India in May 2014 which galvanised a rather insipid Foreign Policy. The Prime

Minister's (PM) visit to the neighbouring countries and the Foreign Minister covering those where he was not able to go created a new dynamic in the neighbourly relations. However, Pakistan due to its Army shadowing the Civilian Government presents a unique dilemma in progressing bilateral relations. China surprisingly put across contradictory signals due to the actions of the Peoples Liberation Army on the Line of Actual Control during the visit of the President to India. These present a dilemma to the Indian Government and are covered in the Comment by Lt Gen Jiti Bajwa. Gp Capt Joseph Noronha looks at the future of Unmanned Aerial Vehicles followed by Gp Capt B Menon presenting the need for developing weapon systems for the Air Force in the near future. Air Marshal PV Naik views National security in a holistic perspective. The visit of the PM to Japan has been succulently analysed in the strategic dimension by Dr S Roy Chaudhary. The Chinese President's visit in the first year of his term coinciding with that of the Indian PM was looked at with much anticipation, the nuances of the visit has been persuasively covered by Claude Arpi. Lt Gen Gautam Banerjee interprets the Pakistan nuclear rhetoric in a realistic geopolitical setting. Consequent to Boeing of USA successfully test flying a retired F 16 fighter aircraft in an unmanned mode Sqn Ldr Vijendra Thakur studied the possibility of Chinese Air Force utilising similar modification to their hordes of retired Migs. The outcome is a surreal scenario. Maj Gen AK Chadha has ventured in to Cyberspace and looks at the military possibilities in this 'No Man's Land' most comprehensively. Our Special Correspondent has looked at two connected issues Revolution in Military Affairs (RMA) and India's Defence Industrial complex. Rear Adm AP Revi analyses the consequences of a depleting submarine fleet of the Indian Navy. Priya Tyagi covers the latest defence news and Col Danvir Singh reports of his visit to France presenting the FREMM multi-mission Frigate by DCNS.
