Secret Anchorages of Brittany Peter Cumberlidge,2016-10-02 Secret Anchorages of Brittany provides concise pilotage directions for practically all the natural anchorages along the Brittany coast, from the Bay of Mont St Michel round to the great estuary of the Loire. As with the first edition, the anchorages start near Cap de la Hague on the Cotentin Peninsula and include Iles Chausey. The book enters Brittany waters near Cancale and follows the whole 300-mile coastline, with its rivers, estuaries and offshore islands, looking into every nook and cranny on the way. This stylish second edition includes many new anchorages and is lavishly illustrated in colour, while the anchorage charts have been redrawn and verified against the Admiralty or French SHOM charts. The pilotage sections are peppered with short features on the maritime traditions, life and history of this inimitable coast. Peter Cumberlidge is a well known writer and photographer who cruises widely under sail and power. He always returns to Brittany with affection and the new Secret Anchorages reflects his sympathy for this fabulous cruising area, the people who live here and the superlative seafood for which the coast is justly renowned.

[Of Stones and Man](#) Jean Kerisel,2022-09-16 Of Stones and Man explores the many errors of judgement made by civilizations both ancient and modern across the world. Arrogance and a penchant for excess drove mankind to build ever greater and more ambitious edifices. The author analyzes these works from a scientific and historically-sensitive perspective, highlighting the hydro-geological background to repeated infamous disasters, from the faults inherent in the Sphinx to the leaning Tower of Pisa. Beautifully illustrated throughout, Of Stones and Man is a testament to the impermanence of our surroundings. It questions how the earth and its resources have borne the cumulative burden placed upon it over the ages by one civilization after another, and how, in turn, the earth has exacted its inevitable revenge on the great constructions of our ancestors. Of Stones and Man is the final work of Jean Kerisel (1908-2005) who served as President of the International Society for Soil Mechanics and Foundation Engineering from 1973 to 1977, and who worked worldwide as a consultant on many ambitious engineering projects. Driven by his great passion for Ancient Builders and Egyptology, Kerisel here extends his professional knowledge into the realms of historical architecture.

[Within a Diminishing Caricature](#) Samuel Armen,2016-02-18 An increasingly human gust of wind, sixty-five vignettes, and an LSD-influenced suicide note only scratch the surface of the forces that reveal the cause of a young man's suicide. Over the course of three years - drifting across New York, Boston, and the dreamscape of a feral imagination - 'He' pursues psychology at eighteen, writing at nineteen, and then nothingness at twenty. An 'uncoming of age' story, a necrography, and a psycho-social adventure exploring why we do the strange things we do, WITHIN A DIMINISHING CARICATURE is both a melancholy defeat and a quiet celebration of the vast intricacy of life.
