Arabic Typography Huda Smitshuijzen AbiFarès,2001 In the twenty-first century, the widespread integration of computer technologies has brought text-based information into many facets of everyday life. This has caused an ever-growing interest in typography across many fields of visual communication, where text and letterform play a central role in disseminating social trends and reflecting the spirit of the times. Arabic Typography takes the reader through a comprehensive study of Arabic letterforms, starting with a concise historical overview of their development and styles, and proceeding to the latest design and technological advances. It attempts to establish the foundations for Arabic type-design by drawing lessons from past practices and aesthetic conventions, in order to retain the enduring traits that are of relevance for improvement and innovation in future type-design creations. Going beyond the historical facts to discuss current design issues pertaining to the creation and production of letterforms, it presents Arabic typographic design as an essential communication tool that should marry functionality and legibility to aesthetic delight. This book will serve as a valuable reference on Arabic typography, and as an educational guide for design students, professionals and anyone who uses Arabic type and enjoys the visual appearance of this language and its letterforms.

Arabic Type Design Huda Smitshuijzen AbiFarès,2013 This fully illustrated bilingual guidebook on Arabic type design is the result of a series of workshops organized by the Khatt Foundation, and hosted by Tashkeel in Dubai, in 2011 and 2012. It presents step-by-step instructions on the design principles and tools of Arabic type design, with detailed tutorials by some of the most renown specialists in the field of contemporary Arabic type design and calligraphy. In addition, it showcases the creative process through nine case studies of the fonts produced during these workshops, presenting them as sources of inspiration and examples for new and experimental Arabic typefaces.

Sculpting Type Edo Smitshuijzen,2013 A comprehensive manual on the creation of 3D typography using cnc (computer numerical control) machines, this richly illustrated book addresses the fact that, since moveable type became obsolete, the 3D aspects of production have all but disappeared. Although numerous typefaces exist today, almost none is specifically intended for 3D realisation. Author Edo Smitshuijzen created several 3D typefaces himself, simply because there were no designs available to show possible applications. Striving to make this field of the profession more accessible, he explains basic technologies, discusses production options and problems, and showcases new designs.

Arabic Script Yara Khoury Nammour,2014 Lebanese architect-typographer Nasri Khattar was motivated by the postcolonial project of modernity. As part of the 1930s language and script reform project in Cairo, he focused on the technological and aesthetic reform of Arabic script. With a reduced set of 30 Unified Arabic letters, he strove to democratise knowledge, making reading Arabic easier to learn, and the production and typesetting of Arabic texts more efficient. This monograph presents his life s work, placing it within the context of the Arabic alphabet s history and typographic evolution.

Titanic Václav Králíček,2019-01-01 2. vydání knihy Titanic Temná nedělní noc ze 14. na 15. dubna 1912 před sto lety se stala tragickou pro nejluxusnější parník všech dob postavený společností White Star Line. RMS Titanic se během necelých tří hodin po kolizi s ledovou horou potopil na své panenské plavbě a zároveň s ním zahynuly dvě třetiny všech lidí nacházejících se na palubě. Kniha se zabývá nejen samotnou tragédií, ale podrobně i příběhy, které ji s nejvyšší pravděpodobností způsobily. Zároveň se dáí ve světle nově objevených faktů vyvrátit některé hluboce zakořeněné mýty, neustále se opakující v souvislosti s potopením Titaniku. Ať už jde o osud konstruktéra Andrewse, chování následně glorifikovaného kapitána Smithe v průběhu celé noci či o nešťastné povely prvního palubního důstojníka Murdocha. Stejně tak se pokouší zmapovat a vysvětlit události následující bezprostředně po kolizi. Velmi podrobně se také zabývá možnostmi záchrany cestujících a posádky. Překvapivě se tak při detailnějším rozboru faktů jeví i slavný pokyn „Děny a děti

první“.
