Lucian (Of Samosata).

History of Sigma Pi Phi, First of the Negro-American Greek-letter Fraternities Charles Harris Wesley,1954

The Malevolent Seven Sebastien de Castell,2023-05-11 From the bestselling author of THE GREATCOATS: seven war mages with dark pasts and special powers must come together to fight an unknown enemy - but the stakes are higher than anyone can imagine . . . and someone's setting the seven up for a fall. Picture a wizard. Go ahead, close your eyes. There he is, see? Skinny old guy with a long straggly beard. No doubt he's wearing iridescent silk robes that couldn't protect his frail body from a light breeze. The hat's a must, too, right? Big, floppy thing, covered in esoteric symbols that would instantly show every other mage where this gets his magic? Wouldn't want a simple steel helmet or something that might, you know, protect the part of him most needed for conjuring magical forces from being bashed in with a mace (or pretty much any household object). Yep. Behold the mighty wizard. Now open your eyes and let me show you what a real war mage looks like . . . but be warned: you're probably not going to like it, because we're violent, angry, dangerously broken people who sell our skills to the highest bidder and be damned to any moral or ethical considerations. At least, until such irritating concepts as friendship and the end of the world get in the way. My name is Cade Ombra, and though I currently make my living as a mercenary wonderist, I used to have a far more noble-sounding job title - until I discovered the people I worked for weren't quite as noble as I'd believed. Now I'm on the run and my only friend, a homicidal thunder mage, has invited me to join him on a suicide mission against the seven deadliest mages on the continent. Time to recruit some very bad people to help us on this job . . .

North Africa, Revised Edition Phillip C. Naylor,2015-01-15 Now with a new afterword that surveys the North African Spring uprisings that roiled the region from 2011 to 2013, this is the most comprehensive history of North Africa to date, with accessible, in-depth chapters covering the pre-Islamic period through colonization and independence. Now with a new afterword that surveys the North African Spring uprisings that roiled the region from 2011 to 2013, this is the most comprehensive history of North Africa to date, with accessible, in-depth chapters covering the pre-Islamic period through colonization and independence.

North Africa Phillip C. Naylor,2009-12-03 North Africa has been a vital crossroads throughout history, serving as a connection between Africa, Asia, and Europe. Paradoxically, however, the region's historical significance has been chronically underestimated. In a book that may lead scholars to reimagine the concept of Western civilization, incorporating the role North African peoples played in shaping the West, Phillip Naylor describes a locale whose transcultural heritage serves as a crucial hinge, politically, economically, and socially. Ideal for novices and specialists alike, North Africa begins with an acknowledgment that defining this area has presented challenges throughout history. Naylor's survey encompasses the Paleolithic period and early Egyptian cultures, leading readers through the pharonic dynasties, the conflicts with Rome and Carthage, the rise of Islam, the growth of the Ottoman Empire, European incursions, and the postcolonial prospects for Egypt, Libya, Tunisia,

Algeria, Morocco, and Western Sahara. Emphasizing the importance of encounters and interactions among civilizations, North Africa maps a prominent future for scholarship about this pivotal region.

White Skins/Black Masks Gail Ching-Liang Low, 2003-09-02 In this exciting re-reading of the classic work of Haggard and Kipling, Gail Ching-Liang Low examines the representational dynamics of colonizer versus colonized. Exploring the interface between the native 'other' as a reflection and as a point of address, the author asserts that this 'other' is a mirror reflecting the image of the colonizer - a 'cultural cross-dressing'. Employing psychoanalysis, anthropology and postcolonial theory, Low analyzes the way in which fantasy and fabulation are caught up in networks of desire and power. White Skins/Black Masks is a fascinating entry into the current debate of post-colonial theory.

True History Lucian, 2018-01-01 True History, Lucian's best-known and most entertaining work, is a parody of the tall stories of fantastic journeys narrated by famous poets and historians. With his trademark wit and humour, Lucian informs his readers that he means to tell nothing but lies and impossibilities, and warns them not to believe a word he says. The result is a comical masterpiece that influenced Western literature throughout the centuries, and works such as Gulliver's Travels and The Surprising Adventures of Baron Munchausen. Lucius, or the Ass, a satirical novel charting the adventures of a young man who has been transformed into a donkey, is usually attributed to Lucian and is thought to be a source of Apuleius's Golden Ass.
