Aries: The Primal Triad Sara Shipman, What kind of Aries are you? Are you as active, assertive or argumentative as your Sun sign suggests, or do you feel as if, somehow, you don't match up to what an Aries is supposed to be? The good news is, you are

more than just your Sun sign. All human beings are complex and, in astrology, that complexity is largely created by the combination of your Sun sign with your Moon and Rising sign. Think of those words. Motivation. Power. Soul. What inspires you? Why do you express yourself? Why do you behave in particular ways? What animates you? How do you express your emotional energy? In this book, I look at how astrology weaves its magic for Aries by looking at how your Sun sign works in combination with all of the Moon signs and Rising signs. I'll also take a look at how your Sun shines brightest according to its house location in your birth chart. So, if you are a solar Aries, this book will help you to understand your basic Aries character. You will learn how your Aries solar traits can be positively developed. You'll discover how your Sun sign's traits combine with the characteristics of your Moon sign, and you will learn how you can best express your Aries character through the medium of your Rising sign. Understanding how your Sun, Moon and Rising sign work together is a great way of getting to know yourself. When you become familiar with the balance of signs that make up the Primal Triad - and how they interact with each other - you will discover why you approach life in the way that you do; you will understand where your innermost feelings are coming from and, most important of all, you will discover exactly what the universe is trying to teach you. If you're an Aries - or you want to know more about someone who is - this book is a must read for you. Sara Shipman is an astrologer, writer and blogger whose posts can be read on her astrology website, starcrazypie.com.

Aries Sara Shipman, 2020-04-28 How much do you really know about your Zodiac Sign? If you have your Sun in Aries you probably think of yourself as a typical Aries. But what if Aries is your Moon Sign? And what if Aries is your Rising Sign? Sara Shipman looks at Aries in detail, tracking your Aries Sun and Aries Moon through the houses of your natal chart. And if you have Aries rising? Sara looks at how your personality is best expressed through the house and sign of Mars, your chart ruler. We tend to think of the archetypal Aries as follows: If you have the Sun, Moon or Rising Sign in Aries you will have a lot of Aries the Ram in your nature. Ruled by Mars, you are direct, fearless and enthusiastic. You tackle everything head on. When you want something you want it now and you're always first in the queue because guess what? Life is a competition. But, in this book, Sara Shipman tackles Aries head on to give you a deep insight of what it means to be influenced by this, the most dynamic of the Zodiac Signs. Whether you have your Sun, Moon or Rising Sign in Aries, this book gives you an in-depth analysis of your sign, from the myths of pre-history to a full astrological appraisal of your character, emotional needs and public persona. To quote from Sara's introduction to the book: When I started planning this book I realised it would have to be about more than just Aries the Sun sign. So, to make this book about Aries truly relevant to all Aries influenced people out there, I've split the text between Aries Sun, Aries Moon and Aries rising. I've also looked in detail at Mars, Aries' ruling planet which is also the chart ruler for those of you with Aries on the Ascendant. What I've ended up with is I believe unique. This book has become the ultimate 'cook book' for Aries influenced people - and yes, truly, there is something in here for all of you. So, if you're ruled by Mars and want to know how you can make this zodiac sign work for you, this book is a 'must read
