Expositions of the Psalms 1-32 (Vol. 1) Saint Augustine (of Hippo),1990 As the psalms are a microcosm of the Old Testament, so the Expositions of the Psalms can be seen as a microcosm of Augustinian thought. In the Book of Psalms are to be found the history of the people of Israel, the theology and spirituality of the Old Covenant, and a treasury of human experience expressed in prayer and poetry. So too does the work of expounding the psalms recapitulate and focus the experiences of Augustine's personal life, his theological reflections and his pastoral concerns as Bishop of Hippo.--Publisher's website.

Imperial Leather Anne McClintock,2013-10-01 Imperial Leather chronicles the dangerous liaisons between gender, race and class that shaped British imperialism and its bloody dismantling. Spanning the century between Victorian Britain and the current struggle for power in South Africa, the book takes up the complex relationships between race and sexuality, fetishism and money, gender and violence, domesticity and the imperial market, and the gendering of nationalism within the zones of imperial and anti-imperial power.

The Renewal of Pagan Antiquity Aby Warburg,1999 A collection of essays by the art historian Aby Warburg, these essays look beyond iconography to more psychological aspects of artistic creation: the conditions under which art was practised; its social and cultural contexts; and its conceivable historical meaning.

A Thesaurus of English Word Roots Horace Gerald Danner,2014-03-27 Horace G. Danner's A Thesaurus of English Word Roots is a compendium of the most-used word roots of the English language. As Timothy B. Noone notes in his foreword: "Dr. Danner's book allows you not only to build up your passive English vocabulary, resulting in word recognition knowledge, but also gives you the rudiments for developing your active English vocabulary, making it possible to infer the meaning of words with which you are not yet acquainted. Your knowledge can now expand and will do so exponentially as your awareness of the roots in English words and your corresponding ability to decode unfamiliar words grows apace. This is the beginning of a fine mental linguistic library: so enjoy!" In A Thesaurus of English Word Roots, all word roots are listed alphabetically, along with the Greek or Latin words from which they derive, together with the roots' original meanings. If the current meaning of an individual root differs from the original meaning, that is listed in a separate column. In the examples column, the words which contain the root are then listed, starting with their prefixes, for example, dysacusia, hyperacusia. These root-starting terms then are followed by terms where the root falls behind the word, e.g., acouesthesia and acoumeter. These words are followed by words where the root falls in the middle or the end, as in such terms as bradyacusia and odyacusis.. In this manner, A Thesaurus of English Word Roots places the word in as many word families as there are elements in the word. This work will interest linguists and philologists and anyone interested in the etymological aspects of English language.

The World, the Text, and the Critic Edward W. Said,1983 Said demonstrates that critical discourse has been strengthened by the writings of Derrida and Foucault and by influences like Marxism, structuralism, linguistics, and psychoanalysis. But, he argues, these forces have compelled literature to meet the requirements of a theory or system, ignoring complex affiliations binding the texts to the world.

The Trinity Saint Augustine (of Hippo),1990 In 1990, New City Press, in conjunction with the Augustinian Heritage Institute, began the project known as: The Works of Saint Augustine, A Translation for the 21st Century. The plan is to translate and publish all 132 works of Saint Augustine, his entire corpus into modern English. This represents the first time in which The Works of Saint Augustine will all be translated into English. Many existing translations were often archaic or faulty, and the scholarship was outdated. New City Press is proud to offer the best modern translations available. The Works of Saint Augustine, A Translation for the 21st Century will be translated into 49 published books. To date, 41 books have been published by NCP containing 93 of The Works of Saint Augustine, A Translation for the 21st Century. Augustine's writings are useful to anyone interested in patristics, church history, theology and Western civilization. -- Publisher.

Separate Reality Carlos Castaneda,2013-03-26 Carlos Castaneda takes the reader into the very heart of sorcery, challenging both imagination and reason, shaking the very foundations of our belief in what is natural and logical. In 1961, a young anthropologist subjected himself to an extraordinary apprenticeship with Yaqui Indian spiritual leader don Juan Matus to bring back a fascinating glimpse of a Yaqui Indian's world of non-ordinary reality and the difficult and dangerous road a man must travel to become a man of knowledge. Yet on the bring of that world, challenging to all that we believe, he drew back. Then in 1968, Carlos Castaneda returned to Mexico, to don Juan and his hallucinogenic drugs, and to a world of experience no man from our Western civilization had ever entered before.

The Flying Saucers are Real Donald E. Keyhoe,2022-05-28 The Flying Saucers Are Real by Donald Keyhoe, printed in 1950, is one of the first books investigating numerous encounters between the United States Air Force fighters, personnel, and other aircraft and UFOs between 1947 and 1950. The author contended that the Air Force was
