Marines Under Armor Kenneth Estes, 2013-04-11 In this story of men, machines and missions, Kenneth Estes tells how the U.S. Marine Corps came to acquire the armored fighting vehicle and what it tried to do with it. The longtime Marine tank officer and noted military historian offers an insider's view of the Corps's acquisition and use of armored fighting vehicles over the course of several generations, a view that illustrates the characteristics of the Corps as a military institution and of the men who have guided its development. His book examines the planning, acquisition, and employment of tanks, amphibian tractors, and armored cars and explores the ideas that led to the fielding of these weapons systems along with the doctrines and tactics intended for them, and their actual use in combat. Drawing on archival resources previously untouched by researchers and interviews of both past and serving crewmen, Estes presents a unique and unheralded story that is filled with new information and analysis of the armored vehicles, their leaders, and the men who drove these steel chariots into battle. Such authoritative detail and documentation of the decisions to acquire, develop, and organize armored units in the U.S. Marine Corps assures the book's acknowledgement as a definitive reference.

The Reign of Man Elbert Lewis Jr, 2021-11-23 The Reign of MAN is the third installment in the Dawn of MAN series. It chronicles Logan's attempts to unite humanity after earth is caught up in an interstellar war for domination of the Milky Way galaxy. While nearly single-handedly holding at bay one alien threat he must convince another alien race that mankind is a worthy ally and should be saved from annihilation and extinction. Logan is forced to undergo numerous enhancements and genetic accelerations in order to prove that he is the long-awaited Mutation Accelerated Nemesis, the ultimate warrior, and that the human race can and

will produce many more Before the human race can be united, Logan must first find a way to deal with rising racial tensions, civil war, wholesale religious strife, a resurgence of communism, battles over strategic resources and nuclear exchanges between several sworn enemies. The situation on Earth is dire and the future of mankind is bleak. The introduction of advanced alien technology has given man the ability to truly destroy the planet. In order to save mankind from self-destruction, Logan must take drastic actions and use his access to quantum energy to assume dictatorial powers over the peoples of Earth and the fledgling human colonies.

Armor John Steakley,1984-12-04 The military sci-fi classic of courage on a dangerous alien planet The planet is called Banshee. The air is unbreathable, the water is poisonous. It is home to the most implacable enemies that humanity, in all its interstellar expansion, has ever encountered. Body armor has been devised for the commando forces that are to be dropped on Banshee—the culmination of ten thousand years of the armorers’ craft. A trooper in this armor is a one-man, atomic powered battle fortress. But he will have to fight a nearly endless horde of berserk, hard-shelled monsters—the fighting arm of a species which uses biological technology to design perfect, mindless war minions. Felix is a scout in A-team Two. Highly competent, he is the sole survivor of mission after mission. Yet he is a man consumed by fear and hatred. And he is protected, not only by his custom-fitted body armor, but by an odd being which seems to live within him, a cold killing machine he calls “The Engine.” This is Felix’s story—a story of the horror, the courage, and the aftermath of combat, and the story, too, of how strength of spirit can be the greatest armor of all.

Ambush Alley Ambush Alley Games,2011-10-20 A miniatures wargame of gritty futuristic combat, Tomorrow's War projects the tactics and technology of today's military conflicts hundred's of

years into the future. While robot drones, anti-gravity vehicles, and advanced battle-suit technology have changed the face of warfare, the essentials of combined-arms tactics have remained constant. The rulebook includes a detailed optional 'future history' and a campaign system so that individual battles can be linked into an ongoing storyline.

The Rise of MAN Elbert Lewis, Jr., 2015-04-30 Biracials, Half-breeds, Mulattos and Mongrels At times they were unwanted, ridiculed and ostracized by society. Many were abandoned at birth and forced to endure rejection and scorn for a circumstance of birth they had no say in. Nearly all of them struggled with the anguish of not being fully accepted by any race. In the second decade of the 21st Century a twist of fate would change all of that and catapult them to the pinnacle of humanity where their heroism and sacrifice will become legendary. After Logan, the first MAN, led the nuclear powers of Earth to a victory over the Hadaran expeditionary force he then set about preparing mankind for the return of the fierce aliens in far greater numbers. Only multi-race humans, those having the prerequisite diverse genetic make-up for enhancement to a super-human genome-adept by the Trans Cerebral Imprinter, will stand in the way of total domination and enslavement of the human race. With the integration of advanced alien technology and Earth's preeminent scientific minds, Logan builds an army of genome-adepts, the most lethal fighting force in human history and leads them in a desperate battle for Earth.

The Dawn of Man Elbert Lewis Jr.,2011-01-21 A clash of galactic empires, An ancient alliance in crisis and defeat, A desperate plan for survival, The Dawn of MAN In 50,000 BC the Reign was an ancient race with a far-flung galactic empire when cave men roamed the earth. Their golden age spanned many millennia and brought their philosophy of peaceful co-existence and technological exchange to many sentient species and solar systems in their spiral arm of the Milky Way galaxy. Their march towards universal self-determination was shattered by an invading menace from the Large Magellanic Cloud. The clash of equally ancient but diametrically opposed cultures left the Reign, a race genetically cleansed of most aggressive tendencies for many thousands of years, facing annihilation. Desperate situations breed desperate measures A group of scientists escaped to the last frontier of the galaxy. In a last ditch attempt to save their empire and culture, they devised a stratagem to defeat the invaders. Their plan, a 50,000 year genetic breeding project, results in the creation of the perfect warrior, a biological construct bred for aggression and genetically optimized for war; a being sociologically conditioned to the shedding of blood on a mass scale, the ultimate killing machine they created MAN!
