Thirty Years in Wilderness Wood Chris Yarrow,2015-11-28

Keen to avoid a comfortable middle-aged existence, forester Chris Yarrow and his wife Anne dreamed of a countryside venture where they could be their own boss and create their own destiny. *Thirty Years in Wilderness Wood* tells the story of how they bought Wilderness Wood in Sussex and set about earning a living from just 63 acres, without compromising their darkest green credentials. *Thirty Years in Wilderness Wood* follows the couple's search for a wood; achieving planning permission for a house and building it, through to the trials and rewards of pursuing a range of

enterprises over thirty years. Using their professional backgrounds in forestry, countryside recreation and ecology, Chris and Anne transformed their nondescript palette of chestnut coppice and young plantations into a productive and award-winning example of multi-purpose forestry. As a commercial venture, the profitability of every activity was considered and Chris unashamedly makes his case for what he did and how he did it. He outlines the history and declining fortunes of lowland forestry, and shows how, in an era when so many lie neglected, their ancient wood was revitalised. *Thirty Years in Wilderness Wood* is a thought-provoking read that challenges fashionable practices such as clearance of non-native trees. Written with a large dollop of self-deprecation, it is a down-to-earth account by professionals who have actually worked their land. Filled with hard-earned wisdom, this book will appeal to those who own a wood, or dream of ownership, as well as the general reader interested in the countryside, woodlands or forestry.

Robert Walker Haulage Ltd: The History of the UK's Largest Fork Truck Transport Company Carl Jarman,2016-08-05 This book tells the story of Robert Walker Haulage. Established in 1935,

Robert Walker never intended to run a haulage business; he initially bought a lorry to carry the produce from his market garden to the local markets. He then branched out into other types of transport work including carrying prisoners of war! Later, his forward thinking sons Brian and Eric saw a niche market in the transport of fork lift trucks and decided to try converting an old R.A.F. trailer into an early fork lift truck carrier. Today the company is in the hands of the third and fourth generations of the family and despite its humble beginnings, it is now the largest fork truck transporter in the UK. The book details the history of the company's success including anecdotes from people that have worked for or with the company over the years. It details how Walkers carried Donald Campbell's Bluebird around on his exhibition tour of 1965 after setting his land speed records between 1955 and 1964, and shows how ERF played a major role in the expansion of the fork truck transport business. Including 229 previously un-printed pictures of the four wheel basic lorries that Robert used in the early days, to the latest vehicles operated by this specialist haulier, this book will be of interest to truck drivers and other transport enthusiasts.
