Aston Martin Richard Loveys, 2015-04-10 Aston Martin is now more than a century old – and what a century it has been. Since its birth in London on the eve of the First World War, the company has experienced the highs of racing triumph – most famously in the 1959 Le Mans 24-hour race – and the lows of bankruptcy, yet throughout it all has been in the first rank of British marques. Published in association with the Aston Martin Heritage Trust and written by enthusiast Richard Loveys, *Aston Martin* is a fully illustrated history of the company that has created some of the world's best loved and most widely respected cars, including James Bond's iconic DB5. It covers the cars themselves, the personalities and talents who have shaped Aston Martin from owners to engineers, the drivers who have shared with the company in racing glory, and the centenary celebrations of 2013.

Aston Martin David Dowsey, The Images Publishing Group, 2010 Comprehensive 352-page history with beautiful color photography and detailed illustrations. Includes thorough specification information for each model.

24 Hours Richard Williams, 2023-05-25 Award-winning writer Richard Williams tells the remarkable story of the 24 Hours of Le Mans, one of the world's most iconic motorsports events, which celebrates its centenary in 2023. The event was created by a group of Frenchmen in 1923 and remains uniquely compelling to spectators, to the major motor manufacturers who continue to see it as an opportunity for priceless publicity, as well as to drivers hoping to add their names to its distinguished roll of honour. Between the wars, those manufacturers included Bugatti, Bentley and Alfa Romeo. Subsequently, Ferrari, Jaguar, Mercedes, Aston Martin, Ford, Porsche, Audi and Toyota have all been serial winners, guaranteeing the continuation of ferocious inter-marque rivalry. Over the decades the race acquired a rich folklore, including stories of leaking petrol tanks being sealed with chewing gum, one competitor making his last pit-stop for a fill-up and a glass of champagne, or the woman who drove her MG through the night wearing a fur coat. Competitors have included princes, debutantes, drug smugglers and a Nazi spy. Leading Hollywood film-makers lured to the romance of the race include Steve McQueen, who conceived and starred in *Le Mans* in 1971, and James Mangold, who made *Le Mans '66* in 2019. But in 1955 it had also been the scene of the greatest tragedy ever to befall motor racing, when 82 people were killed by a competing car, an accident that for a while threatened the sport's entire future. From the Bentley Boys of the 1920s, through record-breaking multiple winners Jacky Ickx and Tom Kristensen to modern stars such as Allan McNish, *24 Hours* celebrates the skill, courage and technical brilliance of the men and women who gave the race its worldwide renown.

The Routledge Companion to Automobile Heritage, Culture, and Preservation Barry L. Stiefel, Jennifer Clark, 2019-12-06 The *Routledge Companion to Automobile Heritage, Culture, and Preservation* explores automotive heritage, its place in society, and the ways we might preserve and conserve it. Drawing on contributions from academics and practitioners around the world and comprising six sections, this volume carries the heritage discourse forward by exploring the complex and sometimes intricate place of automobiles within society. Taken as a whole, this book helps to shape how we think about automobile heritage and considers how that heritage explores a range of cultural, intellectual, emotional, and material elements well outside of the automobile body itself. Most importantly, perhaps, it questions how we might better acknowledge the importance of automotive heritage now and in the future. The *Routledge Companion to Automobile Heritage, Culture, and Preservation* is unique in that it juxtaposes theory with practice, academic approaches

with practical experience, and recognizes that issues of preservation and conservation belong in a broad context. As such, this volume should be essential reading for both academics and practitioners with an interest in automobiles, cultural heritage, and preservation.

Aston Martin Matthew Vale,2022-10-11 Aston Martin is a marque that holds a special place in the British motor industry. As a manufacturer of cars for over 100 years, its history is tied up with the British psyche, and the marque holds a special place in the hearts of all motoring enthusiasts. This book charts the history of Aston Martin from its early days in central London, as Banford and Martin, through the Bertelli years in Feltham and the post-war David Brown years at Newport Pagnell to the current day with its purpose-built, state-of-the-art factory in Gaydon, Warwickshire. Now seen as an iconic luxury British sports car manufacturer, Aston Martin has been designing, manufacturing and racing cars for over 100 years, almost continuously. Known for combining quality, style and performance in its products, the company has often struggled to balance these attributes with financial success. Fortunately, over the years generous investors who recognize the potential in the company have always been on hand to rescue and perpetuate the brand. Looking at the engines, the cars, the people, the business and car owners, this book tells the story of a quintessentially British marque.

Carroll Shelby Art Evans, 2016-09-15 Art Evans was a sports car racer in the 1950s on the West Coast who raced against, and became close friends with, Carroll Shelby. Their intense competition on the track became a lifelong friendship off the track. He and Shelby collaborated on many business projects over the years, including books, marketing projects, projects for the Shelby Foundation, and so on. In his later years, Shelby loved the books about his cars and similar topics, but his eyesight was failing to the point where he had difficulty reading, and really preferred the books that were heavy with photos. It was from that realization that Shelby and Evans decided to work on one last book together. They both combed through the Shelby archives and selected Shelby's favorite images from his racing career. That is almost the entirety of this book. It is packed with photos selected by Shelby himself, and the captions are quotes from Shelby's commentary on the action in the photo, as well as his memories. Unfortunately, Carroll Shelby passed away before the book was fully completed, but Evans, following Shelby's instructions, carried this final project through to completion. Filled with images that have never been seen in print, as well as images not published since the 1950s and 1960s, this final work from Shelby is a personally curated collection by the legend himself. If you are a sports car racing fan, Ford fan, Shelby fan, or any combination of the three, this book is a perfect addition to your automotive library.

Cutting Edge Conversations EJ 'Ted' Cutting, Stuart Bailey, 2019-06-13 EJ 'Ted' Cutting was not only Aston Martin's most successful Chief Race Car Design Engineer, but was also an innovator with influential force on the worldwide automotive industry. Originating from a limited edition hardback version, this eBook was produced in celebration of the 60th anniversary of Aston Martin winning the World Sports Car Championship for Britain with the all-conquering DBR1 designed, engineered and created by Ted himself. Rather than a traditional biography of his life, Ted wanted his book to be rather less scripted and informal; it was therefore initially adapted from a number of recorded conversations between himself and Aston Martin Heritage Trust members Stuart Bailey and Brian Joscelyne - the title being an obvious choice considering this! In addition to the in-depth telling of a legendary period in British

motorsport by a man at the centre of it all, the book also sees Ted clarify a number of details which have in the past been incorrectly reported. Unusually it also contains all his published documents and access to a 90 minute video of his unique lecture on 'Racing Astons' to further endorse his story. Although the original hardback edition of this book was produced only in a limited run, Ted's wish was to make the complete book available to a much wider audience, now possible through the internet; as an engineer always working at the cutting edge of technology, he would appreciate the benefits of information sharing in the digital age. As well as being of interest to fans of Aston Martin and of motorsports in general, the book is a compelling read for any student of automotive design and engineering; after all, progress is about standing on the shoulders of giants - and in the field of race car design, few individuals ever reach the colossal heights achieved by Ted Cutting.
