Austin-Healey 100 In Detail Bill Piggott,2005-08-26 When Donald Healey displayed a new sports two-seater on his firms stand at the 1952 motor show he could not possibly have envisioned the extraordinary success that it was to enjoy. There are many who would say that the looks of the early 100 were never matched by the later six-cylinder Healeys. Perhaps it is true that the first of the line is the purest expression of its designers intentions. Includes a detailed technical analysis of the 100, covering all aspects of the chassis, running gear, engine and transmission. This sets the scene for subsequent chapters on the BN2, the 100M and the 100S, each of which receives comprehensive treatment. The author also provides information on the cars participation in racing competition, draws comparisons with rival models and gives advice on the practicalities of owning a 100 today. This book opens with an exposition of the background to Donald Healeys creation of the 100 and with an account of his career to that time. This is followed by a description of the successive stages of design and development and of the eventual manufacturing agreement with Austin. Seven outstanding examples of the four-cylinder 100 - including an unrestored Le Mans car - have been specially

photographed for this book and are featured in 90 color images. There are also more than 140 black-and-white illustrations drawn from archives and from sales and publicity material.

Austin Healey 100-6 & 3000 Graham Robson, 2016-01-12 In nine eventful years - 1957 to 1965 - the six-cylinder-engined Austin Healey evolved into a formidable and increasingly specialised rally car. By any standards, it was the first of the homologation specials - a type made progressively stronger, faster, more versatile, and more suitable for the world's toughest International rallies. Though the motorsport foundations had been laid by the Healey Motor Co. Ltd, the work needed to turn these cars into rock-solid 210bhp projectiles was almost all completed by the world-famous works BMC Competitions Department at Abingdon. It was because of their vast experience that the Big Healeys as they were always affectionately known - became fast and tough, nimble yet durable, so that they were capable of winning major events wherever traction could be assured. Not only did the works Austin Healeys win some of the world's most famous events - including Liege-Sofia-Liege, Spa-Sofia-Liege and the French and Austrian Alpine rallies, but they were also supremely fast on events like the Tulip, and came so close, so often, to winning their home event, the British RAC Rally, which traditionally ended the season. Not only did these cars turn their drivers - Pat Moss, Donald Morley, Rauno Aaltonen, Timo Makinen and Paddy Hopkirk among them - into heroes, but individual cars seemed to take on a character and reputation of their own. This book lists each and every success, each and every notable car, and traces exactly how the machinery developed, and improved, from one season to the next. Over time, the works cars not only adopted aluminium cylinder heads and body panels, much-modified chassis, transmission and exhaust systems, but they also became supremely strong and could withstand a true battering on the world's toughest events. This book relates how the cars were improved by the engineers, how the drivers came to love their heavy and sometimes self-willed steeds, and how the management team got the most out of everything - machinery, personnel, drivers, and regulations. . Heavily illustrated and packed with technical detail this book will make a welcome addition to any motorsport fans library.

Northeast American Sports Car Races 1950-1959 Terry O'Neil, 2010-10-15 This book focuses on the different aspects that contributed to the development of Northeast American sports car racing during the 1950s. The evolution from amateur drivers racing on public roads in 1950, to both professional and amateur drivers racing at private, purpose-built tracks in 1959, demanded huge leaps

of faith, trust and understanding. The transition was neither easy nor uneventful for drivers, clubs or track owners, and the tragedy, politics and intrigue that came to characterize the period are covered here in fascinating detail.

Austin Healey Geoffrey Healey,1978

Inside Shelby American John Morton,2013-11-18 In the late 1950s, a young John Morton was transfixed with sports car racing. His dreams of competition eventually led him to enroll, in 1962, in the Shelby School of High Performance Driving. In a bold moment after the last class, Morton asked Carroll Shelby if he might come to work for the newly formed Shelby American. The answer was “Yes, here's a broom.” Thus ended Morton's college career and began his long racing career. Over the next three years, Morton would be a firsthand witness to the evolution of one of the most iconic sports car builders and racing teams of the 1960s. Inside Shelby American is his personal account of a company overflowing with talent, from designer Pete Brock to fabricator extraordinaire Phil Remington to drivers like Dan Gurney, Ken Miles, Bob Bondurant, and Phil Hill. The cars were equally captivating: AC Cobra, Mustang GT350, Ford GT, Daytona Coupe. In this book, Morton's story is intertwined with the memories of other Shelby staffers of the period, revealing through historic photography and an untold perspective the rousing story of America's most legendary racer and car builder.

Cuba's Car Culture Tom Cotter,Bill Warner,2016-10-01 Cuba's Car Culture drives through Cuba's

love of American cars of the '40s and '50s, and the ingenuity that keeps them running despite the U.S. embargo. 2017 Silver Medal Winner of the International Automotive Media Competition! The story of how Cuba came to be trapped in automotive time is a fascinating one. For decades, the island country had enjoyed healthy tourism trade and American outpost status, and by the 1950s it had the highest per capita automotive purchasing of any Latin American country. But when Cuba fell to communist rebels in 1959, so ended the inflow of new cars. Since then, trade embargo forced Cuba's car enthusiasts to develop a unique and insular culture, one marked by great creativity, such as: -Keeping a car alive with no opportunity to acquire replacement parts -Customizing a car with no access to aftermarket parts -Drag racing with no drag strip In many ways, Cuba is an automotive time warp, where the newest car is a 1959 Chevy or perhaps one of the Soviet Ladas. Cuba's Car Culture offers an inside look at a unique car culture, populated with cars that have been cut off from the world so long that they've morphed into something else in the spirit of automotive survival. Authors Tom Cotter and Bill Warner (founder of the Amelia Island Concours) take readers on a whirlwind tour of all things automotive, beginning with Cuba's pre-Castro car and racing history, up to today's lost collector cars, street racing, and the challenges of keeping decades-old cars on the road. Cuba's Car Culture is illustrated throughout with rare historical photos as well as contemporary photos of Cuba's current car scene. For anyone who enjoys classic cars, whether they're old Chevy Bel-Airs, Studebakers, or Ford Fairlanes, a cruise around Cuba will make you feel like a kid in a candy store.

Factory-Original Austin-Healey 100/6 & 3000 Bill Piggott, 2015-03-01 The four-cylinder Austin-Healey 100 sports car had already made a big name for itself by the time the 2.6-litre six-cylinder 100/6 arrived in 1956. This came as a 2+2 seater, joined in 1958 by a two-seat version, and both were replaced by the more powerful 3000 model in 1959, again offered as a two-seater or 2+2, and available with disc brakes. The Mk II 3000, launched in 1961, could be had either as the limited-production 132bhp two-seater with triple carburettors and side screens, or as the less spartan 2+2 convertible with wind-up windows, and the final version was the 2+2-only 1964 Mk III, now with 150bhp, a wooden dash and better appointments. All these Big Healeys are as much admired today as when they were new, and here marque expert Bill Piggott gives full details of correct specification and equipment for all these cars, backed up by in-depth colour photography of outstanding examples of all models and variants. Body panels, external trim and badging, paint colours, interior trim, dashboard, instruments and controls, under-bonnet components, engine and transmission, lamps, and other features right down to the tool kit, are all covered.

Keith Martin on Collecting Austin-Healey, MG, and Triumph ,2006 With his monthly Sports Car Market Magazine, Keith Martin made official what the world of car collecting already knew: He was the ultimate authority on collector cars, his columns in AutoWeek and Automobile, and his appearances on Speed Channel and at major auctions a natural extension of his longtime passion and expertise. An essential reference for anyone with an interest in these collector cars. The book is a gold mine of pithy comments and straight talk about the pros and cons of ownership, the merits of particular makes and models, and what to look for (and avoid) when indulging a passion for collecting British sports cars.
