Peter J. Ling

The Automobile ,1907

*Automotive Industries, the Automobile* ,1918

**Facts and Figures of the Automobile Industry** ,1920

**Driving Around the USA** Martin W. Sandler,2003-12-04 Capturing the excitement of a nation as it became a driving force -- in more ways than one -- Driving Around America is the story of how America's romantic, restless spirit found its counterpart in the automobile. With Henry Ford's assembly lines lowering the price of cars, ordinary people began to travel where and when they pleased with a freedom never before known -- and the nation would never be the same. People moved farther from their work, creating suburbs; the demand for gasoline increased, spurring the growth of the petroleum industry; and individual members of families moved far from each other, changing the social fabric of the nation. From the auto's early beginnings to the commonplace use of cars in all aspects of life today, Driving Around America is a fascinating portrait of how America transformed as its citizens were on the move more and more.

*Automobile Journal* ,1919

*The Automobile Industry and Its Impact Upon the Nation's Economy* United States. Congress. House. Committee on Banking, Currency, and Housing. Automobile Industry Task Force,1975

**America and the Automobile** Peter J. Ling,1992 This interdisciplinary study of the early history of the automobile in the USA explores how the motorcar was accepted by an affluent class of society and interpreted as a means of achieving progressive, middle-class objectives.

**The U.S. Automobile Industry** ,1983-03

My Dad Had That Car Tad Burness,2017-05-09 This one-of-a-kind, massive illustrated history of more than 10,000 American automobiles is perfect for the millions of classic car enthusiasts. With more than 1,300 pages and 12,500 illustrations covering 70 years, this may be the most complete visual history of the American automobile ever published. Nowhere else are there so many collector, luxury, sporting and every day cars assembled with fascinating information about original prices, engine sizes, horsepower, and other specifications. The pages are packed with genuine, factory-fresh photographs and drawings taken from contemporary advertisements, catalogs, and brochures. More than 250 manufacturers and hundreds of individual models trace the evolution of the American automobile, from the millions of Model Ts that rolled off Ford's assembly line through the art deco streamliners of the '30s, to the tail-finned land yachts of the '50s and muscle cars of the '60s and '70s up to the early SUVs of the '90s. Throughout author Tad Burness adds handwritten details not found anywhere else, including pointing out unusual options and differences found within a model. Automotive journalist Matt Stone provides a new general introduction and one to each era within the book.

Motordom ,1917

*Current Problems of the U.S. Automobile Industry and Policies to Address Them* ,1980

**Chilton Automobile Directory** ,1915

**Official Automobile Directory of the State of New York** ,1914

**Hand Book of Automobiles** National Automobile Chamber of Commerce,1911

*Horseless Age* ,1917

**The Automobile Trade Directory** ,1909

**The Small Independents** Michael J Kollins,2002-02-01 Pioneers of the U.S. Automobile Industry uses four separate volumes to explore the essential components that helped build the American automobile industry - the people, the companies and the designs. This volume uses more than 450 photos to help weave the story of the risk-takers who helped shape the automotive industry from the very beginning. Pioneers and companies covered in this edition include: Charles and Frank Duryea Studebaker The Pratt Family and the Elcar Motor Care Company Joseph Moon Russell Gardner Louis Clarke George Pierce and Charles Clifton Packard/Joy/Macauley and the Packard Motor Car Company Edwin Thomas Ransom Olds Peerless Fred and August Duesenberg Kissel Brothers Hupp / Drake / Hastings / Young and the Hupp Motor Car Corporation Walter Flanders Chapin / Coffin / Bezner / Jackson / Hudson / McAneeny and The Hudson Motor Car Company Harry Stutz Harry Ford Graham Brothers Charles Nash

**Great Cars of the Great Plains** Curt McConnell,1995-01-01 Chronicles the development of midwestern community automobile manufacture prior to the Great Depression and identifies five early car makers and their contributions to the automobile industry

**The Automobile** Clay McShane,1997-11-25 Chronologies can be very useful reference sources, showing the progression of events in relation to time. This chronology on the automobile provides a listing of events related to the automobile from c.8000 B.C.E. (the domestication of animals) to 1994, when Volvo introduced the side impact air bag. Between these two dates are listed all the expected automobile events covering inventions, manufacturing, and production as well as many events related to other vehicles, such as bicycles, trains, buses, military vehicles, and airplanes. Also included are events that have influenced or been influenced by the automobile, such as the appearance of the first U.S. golf course in 1889; the construction of the earliest example of a theriomorphic building (animal-shaped) in 1882, which later influenced the design of American roadside strips; the opening of the first shopping center mall in Raleigh, North Carolina, in 1949; and the peak year for drive-in movie theaters (1958). Even things that are only marginal to automotive history, such as 'Kenneth Grahame's novel, The Wind in the Willows, parodies the car culture for children' (1908), help put the automobile in a larger social and cultural context. The book is divided into seven chapters, from 'Prelude to 1885' to 'Revival: 1981-1994.' Entries, which are arranged year by year, are concise but informative. One appendix contains 14 tables that provide such information as Ford and Cadillac prices for the years 1900-1990; U.S. gasoline prices for the years 1925-88; and persons per car in the U.S. for the years 1925-90. A second appendix is a directory of North American car museums. The index provides name and subject access. All in all, this is a useful book that will provide some quick answers to questions about automobiles at the reference desk in high-school, public, and academic libraries. It is also an interesting book to browse. The only failings are the lack of a general bibliography and citations to source material where readers could find more detailed information.

Unveiling the Power of Verbal Artistry: An Psychological Sojourn through **Automobile**

In a global inundated with displays and the cacophony of immediate communication, the profound energy and mental resonance of verbal art often disappear into obscurity, eclipsed by the constant assault of sound and distractions. However, located within the lyrical pages of **Automobile**, a interesting perform of literary splendor that pulses with natural thoughts, lies an wonderful journey waiting to be embarked upon. Composed with a virtuoso wordsmith, this mesmerizing opus instructions visitors on a mental odyssey, delicately exposing the latent possible and profound influence embedded within the intricate internet of language. Within the heart-wrenching expanse of the evocative analysis, we shall embark upon an introspective exploration of the book is main styles, dissect their charming publishing style, and immerse ourselves in the indelible impact it leaves upon the depths of readers souls.
