Rcaf War Prize Flights, German and Japanese Warbird Survivors Harold A. Skaarup,2006-05-23 This handbook concerns the collection of Air Technical Intelligence, and the test flying of war prizes carried out by two RCAF bomber pilots who were posted to the Royal Aircraft Establishment's Foreign Aircraft Flight, Farnborough, in the United Kingdom in May 1945. Their primary task was to visit former Luftwaffe airfields, and to find and fly back any aircraft they deemed worthy of evaluation. The list of aircraft found here does not include every German combat aircraft of the Second World War, as it focuses on those warbirds captured and flown by members of the RCAF, or sent to Canada as war prizes. Very few of these rare aircraft exist today, and therefore, information on known locations where German, Japanese and Italian warbird survivors may be found is included. As a member of the Canadian Aviation Preservation Association and the Canadian Aviation Artists Association, the author strongly supports the preservation of Canada's aviation heritage. The primary intent of this handbook is to provide information for aviation artists and enthusiasts looking for that unusual never before painted military aviation subject, and to support the efforts of those engaged in the search for those missing warbirds for which no examples currently exist.

The Air Forces of the World William Green,John Fricker,1958 Every country possessing an air force at the date of publication is represented with a map, detailed history and quantitative survey of equipment and the individual aircraft types held by each country. A special section on National Insignia includes color illustrations of wing and tail insignia.

Air War on the Edge Bill Norton,2004 Never before has there been a book published on the aircraft, units and exploits of the Israel Air Force in such depth. Interest in the IAF has always been high and seldom are its aircrew and aircraft out of the world's headlines. Previous books have failed to satisfy, either being sensationalist and low on factual content, or lacking in fundamental research. Bill Norton has trawled through thousands of documents, reports, and illustrations to produce a work that is staggering in its depth and knowledge. Those that think they know the IAF will find a wealth of new material and countless previously published 'facts' re-evaluated and righted. Detailed type-by-type coverage supported by a barrage of photographs of the IAF from the mixed bag of aircraft of its formative days, through the Suez Campaign, the Six Day War, Yom Kippur and on to be a sophisticated, well-equipped force, arguably the most experienced in the world. Included for the first time are all of the badges and heraldry of the units of the IAF, in full color.
