New International Dictionary of New Testament Theology Zondervan,2017-10-17 This abridgment of Colin Brown's original four volume work is arranged with its entries in Greek alphabet order, which makes it easy to find the discussion of a particular word. All Greek words are transliterated into English and linked with their Goodrick/Kohlenberger numbers. This book was formerly titled The NIV Theological Dictionary of New Testament Words. Now it has been reset in double columns and wider margins.

Etymologicon Universale, Or Universal Etymological Dictionary on a New Plan Walter Whiter,1811

Thucydides and the Ancient Simplicity Gregory Crane, 2023-12-22 Thucydides' History of the Peloponnesian War is the earliest surviving realist text in the European tradition. As an account of the Peloponnesian War, it is famous both as an analysis of power politics and as a classic of political realism. From the opening speeches, Thucydides' Athenians emerge as a new and frightening source of power, motivated by self-interest and oblivious to the rules and shared values under which the Greeks had operated for centuries. Gregory Crane demonstrates how Thucydides' history brilliantly analyzes both the power and the dramatic weaknesses of realist thought. The tragedy of Thucydides' history emerges from the ultimate failure of the Athenian project. The new morality of the imperialists proved as conflicted as the old; history shows that their values were unstable and self-destructive. Thucydides' history ends with the recounting of an intellectual stalemate that, a century later, motivated Plato's greatest work. *Thucydides and the Ancient Simplicity* includes a thought-provoking discussion questioning currently held ideas of political realism and its limits. Crane's sophisticated claim for the continuing usefulness of the political examples of the classical past will appeal to anyone interested in

the conflict between the exercise of political power and the preservation of human freedom and dignity.
