CARL H. MOORE

🔖 **MARTIN B-26 MARAUDER** MARTYN CHORLTON,2013-08-20 One of the most underrated medium bombers of the Second World War, the Martin B-26 Marauder never fully managed to shake off an underserved early reputation as a dangerous aircraft to fly. Deemed superior to all other designs on the table at the time, almost a 1,000 had been ordered before the aircraft first took to the air November 1940. From late 1941 the first B-26s became operational in the Pacific, followed by the Mediterranean, but it is in the European theatre that the type was most prolific. It was particularly during the Normandy Landings and later the advance beyond ‘the bulge’ into Germany, where the B-26s medium level tactical ability shone through. The Marauder also served with the RAF, SAAF and Free French Air Force in the Mediterranean and also as part of the little credited Balkan Air Force in support of Tito’s Partisans in Yugoslavia. Sadly the B-26 was unfairly treated at the beginning of its career and even more so at the end as many of the 5,200+ aircraft built were scrapped only days after the end of the war. A great aircraft in many respects the B-26 deserves to be in a better place.

🔖 **B-26 MARAUDER UNITS OF THE MTO** MARK STYLING,2008-11-18 Osprey’s examination of the B-26 Marauder Units’ participation in World War II (1939-1945). The revolutionary design of the B-26 and its associated flight characteristics initially gained it a reputation as a ‘widow maker’ receiving nicknames such as ‘The Baltimore Whore’ and ‘The Flying Prostitute’ – both a reference to its short wingspan, i.e. no visible means of support! Gradual improvements to the design and the development of effective combat tactics enabled these units to make the B-26 a very effective and safe combat aircraft; it went on to play a major role in the defeat of Axis forces in North Africa, Italy, France and Germany. The bombing accuracy of the B-26s was unrivalled and they were therefore selected to bomb targets such as the Florentine rail network. Lt General Eaker MAAF CO said. ‘When we teach the B-17s to bomb like the B-26s we will have accomplished our job’. Hastily trained on an airplane with a bad reputation and rushed into combat in North Africa, the MTO B-26 groups went on to gain an enviable reputation for bombing accuracy and low combat loss rate. Performing the dangerous close support and interdiction roles, the units played a major role in the defeat of Axis forces in North Africa, Italy and Germany. They proved the B-26 to be a highly reliable, effective medium bomber – indeed, an MTO-based B-26 was the first ever USAAF bomber to reach the 100-mission mark. It was the three MTO Bombardment Groups that established the Marauder as one of the USAAF’s truly great aircraft of World War II.

🔖 **FLYING THE B-26 MARAUDER OVER EUROPE** CARL H. MOORE,2013-05-21 “This is the story of my experiences with the medium bomber designated by the Army as a B-26 and named by the British the Marauder. The book includes a history of the development of the plane. My war experience began with ferrying our Marauder to England, which included a Sahara Desert stretch from Dakar to Marrakesh. Less than a third of the way there we lost the right engine but flew on safely on one engine, making an emergency landing at the oasis village of Tindouf, an old French Foreign Legion base. The Marauders were involved in the tragic, low-level mission over the E-boat pens in Holland where 60 percent of the officers and airmen and all ten aircraft were lost. This mission resulted in a reconsideration of low level operations in Europe (decision: move to medium altitude). My journal entries were created after each mission and offer details (target, date, crew members, their emotions, action narrative) of 50 combat missions (Appendix A). Considerable background on the design and construction of the Marauder is included, as well as a description of the B-26 reconstructed by the Confederate (now: Commemorative) Air Force. The book ends with a description of each of the crew members and their activity since the war if available.”

🔖 **B-26 MARAUDER AT WAR** ROGER ANTHONY FREEMAN,1991

🔖 **B26 MARAUDER** DAVID DOYLE,2019-03 Even today the Martin B-26 Marauder continues to look sleek and streamlined. Although receiving less wartime publicity than America’s other medium of WWII, the B-25, in the European theater the B-26 delivered twice the tonnage of bombs and had a lower loss rate. This volume explores the history of this oft-overlooked but widely used aircraft. The story of this historic medium bomber is told through carefully researched archival photos, as well as photographs of preserved examples, illuminated through detailed captions, thereby illustrating not only the use of the Marauder, but also the details of its construction. Large, clear photos, coupled with descriptive and informative captions, put the reader on the airfield and in the sky with this historic aircraft. Part of the Legends of Warfare series.

🔖 **THE B-26 GOES TO WAR** STAN WALSH,2018-02-16 Steven F. Udvar-Hazy Center Mary Baker Engen Restoration Hangar Chantilly, Virginia Two complete and separate design cycles chronicles our story – The B-26 Goes to War. War fever caused authorities to forego prototype testing – the B-26 went straight from drawing board to battle. The 22nd Bomb Group, with short 65 ft. wingspan B-26s entered combat in the Southwest Pacific. The Army’s Torpedo Challenge chronicles exploits in the realm of pure fantasy. Getting-it-right – Navy torpedoes on Army bombers – is intense, vivid and entertaining. Flying the “straight” uncovered deficiencies. A modified B-26B emerged with a 71 ft. wingspan. These were earmarked for combat in North Africa and Europe. For the Flak-bait story see Appendix H. The ultramodern Martin B-26 prototype medium bomber first flown 25 November 1940 achieved a top speed of 315 mph, fastest of any U.S. bomber and narrowing the gap between its speed and that of existing Army pursuit planes. Innovations include: self-sealing gas tanks, armor plating and a full bomb load of two tons.

🔖 **B-26 MARAUDER UNITS OF THE EIGHTH AND NINTH AIR FORCES** JERRY SCUTTS,1997-05-15 The medium bomber ‘workhorse’ of the Ninth Air Force, Martin’s much-maligned B-26 Marauder recovered from its poor start with the Eighth Air Force to go on and equip no less than eight bomber groups in the ETO. Although initially dubbed ‘the widow maker’, a change of tactics from low- to medium-level bombing for the Marauder soon improved the crews’ chances of survival – indeed, by war’s end it boasted a lower loss-per-sortie ratio than any other twin-engined bomber in the USAAF. This volume covers all aspects of Marauder operations in Western Europe during World War II (1939-1945), featuring first hand accounts from surviving B-26 crews, plus an analysis of the tactics employed.

🔖 **MARTIN B-26 MARAUDER** WILLIAM WOLF,2014 In his fifth book in the Ultimate Look series, Dr. Wolf again brings the same degree of meticulous research to describe this unappreciated and misunderstood B-26 medium bomber. This massive, comprehensive volume is the first to give the reader a definitive description of this neglected bomber, its development, testing, and manufacture. The role of the enigmatic aviation icon Glenn L. Martin is described in the development of the American aviation industry and the Marauder. The author made extensive use of the massive document and photo collections of the Marauder Archives at Akron and Tucson, and the Air Force collection at the NMUSAF. Martin Company design and production information and flight and test evaluations, along with original company flight, parts, and maintenance manuals, and rare archival microfilm of original material were also used. The author was given unprecedented access to the family records of B-26 designer Peyton Magruder. The text is complemented by archival photos and drawings, and new color photos of the Marauders at the NMUSAF, Fantasy of Flight, and MAPS Museum.

🔖 **B-26 MARAUDER WALK AROUND** DAVID DOYLE,2012 From bombardier’s station to the pads for the tail gunner’s knees, this book explores the Marauder up-close and in detail, surveying the intricacies of Martin’s WWII medium bomber. Exclusive photos illustrate the rarely seen inner workings and outer features of the B-26G, with additional coverage of the B-26, B-26B, and B-26C. Initially dubbed the Widowmaker due to its high wing loading and high landing speeds, refinements in the design improved performance and crew training.

🔖 **B-26 INVADER UNITS OVER KOREA** WARREN THOMPSON,2000-09-25 Although a hangover from World War II, the seemingly antiquated B-26 Invader proved to be one of the hardest-worked assets employed by the UN forces in Korea for the duration of the conflict. Indeed, B-26s of the 3rd Bomb Group had the distinction of being the first aircraft to drop ordnance on the North Koreans within hours of the communist invasion of the south. Capable of dropping bombs and napalm, firing off unguided rockets or simply strafing targets with its battery of .50-cal Browning guns, the B-26 was equally as effective during the day or at night. Over 200 bomber and reconnaissance variants saw action in Korea, and many were adorned with some of the most colourful nose art ever carried by American combat aircraft in any war. This volume includes a gallery of this artwork, with text outlining the exploits of the pilots featured, and appendices listing the

UNITS INVOLVED.
