Fiat Giorgio Garuzzo,2014-03-28 This book is an authentic historical document, supported by extensive analytical information, in which former Fiat top manager Giorgio Garuzzo passionately recounts his experience within Fiat between 1976 and 1996. It is a narrative from the inside that sheds new light on events that have remained cloaked in mystery: the arrival and departure of Carlo De Benedetti, the "march of the forty thousand", the sacking of Vittorio Ghidella, the clashes between Umberto Agnelli and Cesare Romiti, the Group's involvement in the "clean hands" scandal, the role of Gianni Agnelli and his relationships with his brother and Cesare Romiti and the intervention of Mediobanca. Garuzzo discusses the issues connected with the range of cars and marques, touching on major themes of national or international relevance that were unrelated to Fiat but nonetheless conditioned its activities: terrorism and the unmanageability of the factories, inflation, the devaluation of the lira, the role of the trade unions and the General Confederation of Italian Industry, Japanese competition and European integration.

Tank DK,2017-04-04 Pivotal to modern warfare, tanks have dominated the battlefield for over a century. Get up close to more than 400 military colossuses with this definitive visual guide to armored vehicles. In 1916, the British built a vehicle that could pound the battlefield impervious to enemy fire, crushing obstacles and barbed wire in its path. The first tank, or Mother as it was known, had arrived. In Tank you can view it in detail, along with other iconic models including the German Panzer, the legendary Tiger, the Vickers Medium Mark II, the Centurion, and the Hellcat – the fastest armored fighting vehicle ever. This comprehensive volume takes you through the most exciting story in recent military history with the development of heavy artillery, anti-tank weaponry, and the men – such as Mikail Koshkin and Sir William Tritton – who designed these awe-inspiring beasts. Produced with The Tank Museum, Tank traces the tank's development in response to two world wars, Korea, Vietnam, the Cold War and many other conflicts. It shows each model in detail, highlighting details such as their performance, specification, armor, weaponry, and much more. If you are interested in modern warfare, Tank is truly unmissable reading.

NATO and Warsaw Pact Armoured Fighting Vehicles of the Cold War Michael Green,2024-01-30 While tanks were the most recognized armored vehicles during the Cold War, NATO and Warsaw Pact (WP) armies fielded a wide array of armored fighting vehicles (AFVs). These included armored cars, armored personnel carriers (APCs), anti-aircraft vehicles and self propelled artillery. Over the Cold War years nations both progressively developed series of AFVs and introduced entirely new ranges. APCs, vital to all frontline units, evolved from machine gun-armed battlefield taxis such as the US M113 and Soviet BTR-60 series into sophisticated infantry fighting vehicles. The Soviet BMP-1, US Bradley M2/M3, West German Marder and

British Warrior and CVR series were classic examples of the latter, with numerous variants. The Soviet BRDM-2 series was the most numerous armored car. The British Army fielded the Saladin, Ferret and Fox and the German Army introduced the eight-wheeled Luchs and tracked SPZ11-2 Kurz. Early anti-aircraft vehicles, such as the American M42 with two 40mm Bofors, were superseded by the formidable Soviet ZSU-23-4 Shilka and the West German Gepard with radar-guided guns. This authoritative and superbly illustrated book covers the full range of AFVs in service with NATO and WP armies over the four decades of the Cold War. It will be an invaluable addition to the libraries of the expert and layman alike.

NATO Towards the Challenges of a Contemporary World 2013 Robert Czulda, Robert Łoś, 2013-12-26 A wide range of contemporary challenges and threats, and their volatility, uncertainty, complexity and ambiguity make it necessary to develop a new, flexible and integrated holistic approach. The modern world requires NATO to build institutional partnerships with a range of actors. This applies not only to the other major international organizations, such as the United Nations and the European Union, but also to non-governmental organizations (NGOs) as well as the private sector, for example the energy and IT sectors. All these players must become partners in the attempt to cope with multi-dimensional security-related problems. Given the vast differences in their goals, mandates, methods and philosophy of action, building trusting and effective relationships between them will be an arduous process. Nevertheless, as the biggest political and military organization in the world, NATO cannot avoid contemporary challenges if it does not want to "go out of business".

ARMAGEDDON's SONG 'THE LONGEST NIGHT' ANDY FARMAN, 2015-02-10 The war in Europe has reached critical mass and it is a race between the Red Army and the newly arrived US and Canadian 4 Corps. The winner owns Europe. Just one last push by the New Warsaw Pact will clear away SACEUR's gambit and the last division standing between the Red Army and the Channel Ports. It is the Longest Night for everyone, and the last night for many.

Italy's Foreign Policy in the Twenty-First Century Bertjan Verbeek, Giampiero Giacomello, 2011-11-16 Italy's Foreign Policy in the Twenty-First Century: The New Assertiveness of an Aspiring Middle Power, edited by Giampiero Giacomello and Bertjan Verbeek, fills a gap in the middle powers literature in general because of its focus on Italy. Relying on insights from foreign policy analysis, it offers an innovative theoretical inroad into Italian foreign policy by linking European and international factors with domestic processes of status making. Finally, this volume focuses on actors, issues, and policy instruments in vital areas of Italy's foreign policy rather than bilateral relations between Italy and other countries or regions.

ARMAGEDDON's SONG 4 'THE LONGEST NIGHT' & 'CROSSING THE RUBICON' Andy Farman, 2015-02-09 Volume 4: Two distinct parts of the story. Book 1 - 'The Longest Night' is set between 8pm and 8am, the critical night battle in Germany between NATO and the New Red Army. The war in Europe has reached critical mass and it is a race between the Red Army and the newly arrived US and Canadian 4 Corps. The winner owns Europe. Just one last push by the New Warsaw Pact will clear away SACEUR's gambit and the last division standing between the Red Army and the Channel Ports. It is the Longest Night for everyone, and the last night for many. Book 2 - 'Crossing the Rubicon' The war in Europe has reached its bloody end and the troops came home to less than gratitude from the politicians. In the Pacific all eyes are on the Spratly Islands as the Allies combat the Chinese 3rd and 6th Armies, but the aftermath in Europe may have left the US and the ANZACs standing alone, or has it? Soldiers have more honour than politicians at the end of the day.
