

Bac 111

Isabelle Tombs, Richard Smith

BAC One-Eleven Stephen Skinner,2013-07-01 In August 1963, one of the best-selling aircraft of British civil aviation, the BAC One-Eleven, took to the skies for the first time. With an order book for sixty aircraft, more than half were from the United States, which was an unprecedented situation for a British civil aircraft. The first project for the newly formed British Aircraft Corporation, the One-Eleven was wholly designed and built by BAC, and remained in production throughout the entire seventeen-year history of the organisation, performing strongly even when profits were at a low. After flying commercially in Europe for the last time in March 2002, here the One-Eleven is celebrated in style.

BAC One-Eleven Key Publishing,2022-11-30 On 20 August 1963, the British Aircraft Corporation (BAC) One-Eleven flew for the first time. There was a lot riding on this new aircraft. For BAC, which was a result of the consolidation of the nation's aircraft industry that turned 27 companies into just three major airframe builders, the new jet promised salvation. The One-Eleven was the first major airliner to be launched by an order from an independent airline - in this case, British United Airways, a young company that had, like BAC, been formed in 1960. It was also the first British jet to be ordered off the drawing board by a US airline. Soon the One-Eleven was operating around the world, and in Britain it formed the backbone of the short-haul fleet. During the 1970s and early '80s, it was the staple of the inclusive tour holiday business operated by airlines such as Dan-Air, Laker Airways, British Caledonian Airways, Monarch Airlines, Autair/Court Line and British Island Airways. However, despite this, it was never as successful as many of its contemporaries, such as the Boeing 737 and Douglas DC-9. This new book edition of *Aeroplane Classic Airliner: BAC One-Eleven* covers the full story of its concept and design against the troubled background of the industry's consolidation, and of its entry into service.

BAC One-Eleven Malcolm L. Hill,1999 British Aircraft Corporation's BAC 111 short-medium haul airliner started life as Hunting Percival H-107. Designed for European operations, it was suitable for charter work and scheduled services, and soon began to sell worldwide. It was rugged and reliable, and well suited for short field operations. Experienced writer and civil aviation enthusiast Malcolm Hill delivers the complete story of the BAC 111 including the design, development, and operations use of this often overlooked but important little airliner.

More Testing Times Mike Brooke,Tom Morgenfeld,2017-01-09 Following his first three successful books, describing his long career as a military pilot, Mike Brooke completes the story with more tales of test flying during the 1980s and 1990s. During this period his career changed to see him take control of flying at Farnborough and then at Boscombe Down. This often hilarious memoir gives a revealing insight into military and civilian test flying of a wide range of aircraft, weapons and systems. Following on from his previous books, Brooke continues to use his personal experiences to give the reader a unique view of flight trials of the times, successes and failures, and his memoirs make fascinating reading for any aviation enthusiast.

The Polish Crisis and Relations with Eastern Europe, 1979-1982 Isabelle Tombs,Richard Smith,2017-03-16 This volume presents a collection of diplomatic documents describing Britain's relations with Eastern Europe from 1979 to 1982, with special focus on the crisis in Poland. After coming to power in 1979, the Conservative Government of Margaret Thatcher reaffirmed a policy of 'differentiation' between the Soviet Union and the rest of Eastern Europe, and between individual countries; concurrently it encouraged states to exercise a limited amount of independence. This policy was soon put to the test when in 1980 Solidarność, the Solidarity trade union led by Lech Wałęsa, challenged the power of the Party state in Poland. Political demands, social unrest and economic crisis culminated in the imposition of martial law in December 1981, finally suspended in December 1982. The volume maps the UK response, in consultation with Western partners, to the unfolding crisis in Poland, the threat of Soviet intervention and the impact on other Communist states in Europe. The volume also provides a flavour of bilateral UK relations with Albania, Bulgaria, Czechoslovakia, the German Democratic Republic, Hungary, Romania and Yugoslavia; highlighting themes such as human rights and trade. This volume will be of great interest to students of British Politics, Eastern European Politics, Cold War History, Diplomacy Studies and International Relations in general.

This complete book traces the airline's early beginnings up through its contemporary modernization plan, including the recent acquisition of craft such as the Boeing 777, Boeing 747, and the retirement of earlier models like the BAC-111 and the Lockheed TriStar.
