The Backpack Tim A. Gardner,2019-05-07 A guide for being fully equipped to succeed on the journey of life The Backpack: How to Understand and Manage Yourself While Loving Others Along the Way tells the story of Jon, Sofia, and Buddy whose pathways merge on a life-changing flight. Written by a senior consultant with the Flippen Group (a world-wide leader in self-awareness training), the book brings together an angry passenger, a wise flight attendant, and a down-home cowboy. Their chance meeting leads to the ride of their lives as they fully grasp the importance and meaning of their backpacks. As this engaging story reveals, self-awareness is like a backpack! If we are to be prepared to succeed on the journey of life, we need to know and accept which backpack is ours, decide what we need to put in it or take out of it, and be fully aware of how our backpacks are affecting all of the other passengers around us. The question is: Are we whacking the other passengers with our backpack as we travel through life. . . or are we helping them? Offers life lessons on self-awareness written in the form of a funny and engaging story Shows how we can lighten, fill and understand our “backpack” in order to lead a more successful life Written by a senior consultant with the Flippen Group The Backpack offers a story that explores the concepts of self-awareness and other-awareness, including the importance of appreciating your personality, living by your core values, mentally preparing for your day, being aware of your impact on others and packing your backpack wisely.

What's Inside Your Backpack? Jessica Sinarski,2021-02-04 All around us, children are carrying backpacks that are heavy with more than just textbooks. Each day, they also bear the weight of difficult life experiences and intense feelings. Zoey Harmon just wants to feel light-hearted and carefree. Unfortunately, she keeps getting weighed down by pesky books in her backpack, like Worry and Shame. Much to her surprise, she's not the only one! Zoey learns that the adults in her life deal with difficult feelings too! Luckily, they have some ideas that can help her set aside the books she's not meant to carry. Will it be enough to help her unload the heaviest book of all? You look a little worried, kiddo, Zoey's mom said, giving her a squeeze. Sometimes I need a bright thought to help me when I'm feeling upset. Here, try this. She slid a bookmark into Zoey's hand. Zoey looked down and read: Imagine with Hope. What's this? asked Zoey. When we don't know what to expect, worry wants us to imagine with fear, to think about all the worst possibilities. This is a little reminder I use to think of the good things that might happen when I imagine with hope instead. While there are no quick fixes for all of life's complex problems, What's Inside Your Backpack? highlights some of the ways we can nurture resilience in body and mind. Using the metaphor of books and bookmarks, author Jessica Sinarski offers gentle, effective strategies to help children impacted by trauma. By sharing their burdens with people they trust, kids can lighten their load and realize just how strong and courageous they really are!

The Professor Is In Karen Kelsky,2015-08-04 The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.’s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more.
