Bamboo Shoots After the Rain Ann C. Carver,Sung-Sheng Yvonne Chang,1993-01-01 A short story collection hailed as a “welcome and valuable addition to our growing knowledge about the inner lives and literary talents of Chinese women” (Amy Ling, author of *Between Worlds: Women Writers of Chinese Ancestry*). This remarkable anthology introduces the short fiction of fourteen writers, major figures in the literary movements of three generations, who represent a range of class, ethnic, and political perspectives. It is filled with unexpected gems such as Lin Hai-yin’s story of a woman suffering under the feudal system of Old China, and Chiang Hsiao-yun’s optimistic

solutions to problems of the elderly in rapidly changing 1980s Taiwan. And in between, a dozen rich stories of aristocrats, comrades, wives, concubines, children, mothers, sexuality, female initiation, rape, and the tensions between traditional and modern life. "This is not western feminism with an Asian accent", says Bloomsbury Review, "but a description of one culture's reality. . . . The woman protagonists survive both despite and because of their existence in a changing Taiwan."

The Bamboo Shoot James Parker Wollner, 2004-09 In 1967 a new and unique unit was formed using airboats. This was a first for a regular Army Division. The Army asked for volunteers. These volunteers were draftees and regular army personnel. They were from all over the country and from all walks of life. This story is about how they coalesced into a fighting unit that did their very best in a war that was waged with the best intentions. The book is written on a timeline and through the use of vignettes describing life, events, people, flora and fauna and personal feelings. -- BOOK JACKET

Eats, Shoots & Leaves Lynne Truss, 2004-04-12 We all know the basics of punctuation. Or do we? A look at most neighborhood signage tells a different story. Through sloppy usage and low standards on the internet, in email, and now text messages, we have made proper punctuation an endangered species. In *Eats, Shoots & Leaves*, former editor Lynne Truss dares to say, in her delightfully urbane, witty, and very English way, that it is time to look at our commas and semicolons and see them as the wonderful and necessary things they are. This is a book for people who love punctuation and get upset when it is mishandled. From the invention of the question mark in the time of

Charlemagne to George Orwell shunning the semicolon, this lively history makes a powerful case for the preservation of a system of printing conventions that is much too subtle to be mucked about with.

Bamboo William Boyd, 2011-01-15 Plant one bamboo shoot-cut bamboo for the rest of your life. William Boyd's prolific, fruitful career is a testament to this old Chinese saying. Boyd penned his first book review in 1978-the proverbial bamboo shoot-and we've been reaping the rewards ever since. Beginning with the Whitbread Award-winning *A Good Man in Africa*, William Boyd has written consistently artful, intelligent fiction and firmly established himself as an international man of letters. He has done nearly thirty years of research and writing for projects as diverse as a novel about an ecologist studying chimpanzees (*Brazzaville Beach*), an adapted screenplay about the emotional lives of soldiers (*The Trench*, which he also directed), and a fictional biography of an American painter (*Nat Tate*). All the while, Boyd has been accruing facts and wisdom-and publishing it in the form of articles, essays, and reviews. Now available for the first time in the United States, *Bamboo* gathers together Boyd's writing on literature, art, the movie business, television, and autobiographical reflections on his African childhood, his years at boarding school, and the writing life. From Kurt Vonnegut to the Cannes Film Festival, from Charles Dickens to Catherine Deneuve, from mini-cabs to Cecil Rhodes, this collection is a fascinating and surprisingly revealing companion to the work of one of Britain's leading novelists.

Food Plants of China Shiu-ying Hu, 2005 The food plants of an area provide the material basis for the survival

of its population, and furnish inspiring stimuli for cultural development. There are two parts in this book. Part 1 introduces the cultural aspects of Chinese food plants and the spread of Chinese culinary culture to the world. It also describes how the botanical and cultural information was acquired; what plants have been selected by the Chinese people for food; how these foodstuffs are produced, preserved, and prepared; and what the western societies can learn from Chinese practices. Part 2 provides the botanical identification of the plant kingdom for the esculents used in China as food and/or as beverage. The plants are illustrated with line drawings or composite photographic plates. This book is useful not only as a text for general reading, but also as a work reference. Naturally, it would be a useful addition to the general collection of any library.

As the Bamboo Shoots Celine Tan

Robertson,2016-04-20 As the Bamboo Shoots reveals the author's deep roots, the life and family stories of five generations, and more than a century of Chinese history. It is a collection of the true, the good and the beautiful. It is a life journey of challenges, adventures, dreams, and visions. A dream at the age of 17 to attend graduate school in America and see the world brought a young innocent girl

from Taiwan, Celine Yu Hua Tan, to the U.S. Having grown up sheltered and pampered, with limited survival skills, Celine faced many trials in the new land. Celine transplanted her cultivated roots, like bamboo, and became part of a large grove the U.S. where she was forced to grow strong quickly. Although there were lots of tears, her deep roots and the love from her family helped her face obstacles and overcome struggles without fear and without regrets. She learned to be like bamboo, swaying in the blowing wind and surviving vigorous storms. She stands tall with pride and honor. Always! For the author, challenges are opportunities to discover one's hidden talents and potential. She loves to learn new things. To her, learning enriches life and brings joy, excitement, and satisfaction. Celine firmly believes that one person can make a difference. She taught in three vastly different countries Taiwan, the U.S.A., and China, and her students around the world made her path joyful, vibrant, and spiritual. Her passion for teaching and love for her students go far beyond the classroom, time and space. The true, the good, and the beautiful are what the author searches for and treasures in her life. She treats each of her friends as a precious pearl or a gorgeous gem. She strings all of them together and creates an irreplaceable necklace kept close to her heart. Celine's family makes her life more energetic and complete, filled with love, joy, and laughter. She lives and shares the most blessed retired life she has envisioned to be surrounded by her family and precious grandchildren. As the Bamboo Shoots is one of Celine's dreams and one of her visions. It is the way she has always lived her life. These are the roots and values she wants to pass on to her descendants. The author wishes to share and spread her positive energy like bamboo growing in the sunshine, inspiring and empowering others to reach their potential.

The book is completed by a comprehensive presentation of the properties of bamboo, its utilization and its preservation. Bamboo is the fastest-growing and most versatile plant on Earth. For centuries it has played an indispensable part in the daily life of millions of people in tropical countries. In recent decades it has gained increasing importance as a substitute for timber. The book was developed as a reference text for scientists, professionals, and graduate students with a strong interest in this unique plant.
