Bamboo Shoots After the Rain Ann C. Carver, Sung-Sheng Yvonne Chang, 1993-01-01 A short story collection hailed as a “welcome and valuable addition to our growing knowledge about the inner lives and literary talents of Chinese women” (Amy Ling, author of *Between Worlds: Women Writers of Chinese Ancestry*). This remarkable anthology introduces the short fiction of fourteen writers, major figures in the literary movements of three generations, who represent a range of class, ethnic, and political perspectives. It is filled with unexpected gems such as Lin Hai-yin’s story of a woman suffering under the feudal system of Old China, and Chiang Hsiao-yun’s optimistic solutions to problems of the elderly in rapidly changing 1980s Taiwan. And in between, a dozen rich stories of aristocrats, comrades, wives, concubines, children, mothers, sexuality, female initiation, rape, and the tensions between traditional and modern life. “This is not western feminism with an Asian accent”, says *Bloomsbury Review*, “but a description of one culture’s reality. . . . The woman protagonists survive both despite and because of their existence in a changing Taiwan.”

As the Bamboo Shoots Celine Tan Robertson, 2016-04-20 As the *Bamboo Shoots* reveals the author's deep roots, the life and family stories of five generations, and more than a century of Chinese history. It is a collection of the true, the good and the beautiful. It is a life journey of challenges, adventures, dreams, and visions. A dream at the age of 17 to attend graduate school in America and see the world brought a young innocent girl from Taiwan, Celine Yu Hua Tan, to the U.S. Having grown up sheltered and pampered, with limited survival skills, Celine faced many trials in the new land. Celine transplanted her cultivated roots, like bamboo, and became part of a large grove the U.S. where she was forced to grow strong quickly. Although there were lots of tears, her deep roots and the love from her family helped her face obstacles and overcome struggles without fear and without regrets. She learned to be like bamboo, swaying in the blowing wind and surviving vigorous storms. She stands tall with pride and honor. Always! For the author, challenges are opportunities to discover one's hidden talents and potential. She loves to learn new things. To her, learning enriches life and brings joy, excitement, and satisfaction. Celine firmly believes that one person can make a difference. She taught in three vastly different countries Taiwan, the U.S.A., and China, and her students around the world made her path joyful, vibrant, and spiritual. Her passion for teaching and love for her students go far beyond the classroom, time and space. The true, the good, and the beautiful are what the author searches for and treasures in her life. She treats each of her friends as a precious pearl or a gorgeous gem. She strings all of them together and creates an irreplaceable necklace kept close to her heart. Celine's family makes her life more energetic and complete, filled with love, joy, and laughter. She lives and shares the most blessed retired life she has envisioned to be surrounded by her family and precious grandchildren. As the *Bamboo Shoots* is one of Celine's dreams and one of her visions. It is the way she has always lived her life. These are the roots and values she wants to pass on to her descendants. The author wishes to share and spread her positive energy like bamboo growing in the sunshine, inspiring and empowering others to reach their potential.

From the Grass Roots to Bamboo Shoots Bob Schieck, 2015-05-28 Re: ABC (A Business in China) Understand that we, Americans, live in a social and business environment which has very different practices. We are now spreading our business enterprise philosophy around the world, but in order to achieve success, we need to attempt to understand that other cultures have different approaches to conducting business. We need to go into our seeding of worldwide business with an open mind as to what are the foreign philosophy guidelines, so we can bridge these differences. Hence, the analogy, "From our Grass Roots" to their "Bamboo Shoots."

The Magic of Bamboo Xu Bin, 2018-10-02 Is bamboo a food, a grass, or a wood? One little boy knows that it's all three! Told in both English and Chinese, The Magic of Bamboo is the story of a little boy whose house was surrounded by many bamboo forests and streams. He lived with bamboo all year round. In spring, he ate delicate and delicious bamboo shoots; in summer, he crafted pliant bamboo stalks into baskets and brooms that he used as tools for fishing; in fall, he used mature bamboo to build kites that flew high and far; in winter, pork cooked with bamboo shoots was the celebratory dish for his family's New Year's Eve dinner. Even the special gift he received from his grandfather on New Year's Eve was made of bamboo. Winsomely told and delightfully illustrated, The Magic of Bamboo is a tale that will enchant readers of all ages.

Eats, Shoots & Leaves Lynne Truss, 2004-04-12 We all know the basics of punctuation. Or do we? A look at most neighborhood signage tells a different story. Through sloppy usage and low standards on the internet, in email, and now text messages, we have made proper punctuation an endangered species. In Eats, Shoots & Leaves, former editor Lynne Truss dares to say, in her delightfully urbane, witty, and very English way, that it is time to look at our commas and semicolons and see them as the wonderful and necessary things they are. This is a book for people who love punctuation and get upset when it is mishandled. From the invention of the question mark in the time of Charlemagne to George Orwell shunning the semicolon, this lively history makes a powerful case for the preservation of a system of printing conventions that is much too subtle to be mucked about with.

Bamboo Plantation and Utilization Handbook H. Panda, 2011-10-06 Bamboo is an important non wood forest product. In India, bamboo, which is traditionally considered the Poor man wood, and labelled as Green Gold is being considered a major export item by the centre for the global market. Bamboo is perfectly suited to agro forestry as a woody grass. Bamboo has been exploited from natural stands from time immemorial. Bamboo is increasingly being cultivated like other agricultural crops, that is, in professionally managed plantations. The growth of industries utilizing bamboo requires the sustainable cultivation and management of bamboo resources. India is blessed with very rich bamboo resources. Bamboo can play an important role in raising forest cover and a major role in stabilization of the environmental problems. The annual yield in tonnes/ha depends on the environment as well as the species. It is estimated that almost 25% of the biomass in the tropics and 20% in the subtropics, come from bamboo. The cultivation of bamboo as a wood substitute helps to offset depletion of the rain forest. Its rapid growth ensures an effective reconstruction of damaged eco systems. Bamboo is one of many sustainable non wood resources that can generate income for a large forest dependent rural population and it needs to take further steps to realize its full potential. In India, the North East has the largest stock and diversity of bamboos. Though India has the largest area under bamboo, the yield per hectare is very low compared to other countries. Bamboo plantation rising should be encouraged & promoted due to their high value, productivity, uniformity of crop, choice of species linked to peoples' need and industrial need. Bamboo forest constitutes about 13% of the total forest area of the country. About 50% of bamboo produced in India grows in North Eastern region and West Bengal. India has the second largest bamboo reserves in the world after China. This book basically deals with bamboos in India, the bamboo plant harvesting, cultivating, silviculture and management, collection of material and preparation of cuttings treatment for root induction in cuttings, preparation of nursery and planting nursery management transplanting, pattern of biomass allocation in growing bambusa bamboos, biochemical characteristics of plantation bamboo leaf (bambusa bambos) with reference to organic productivity, economic analysis, bamboo plantation, problems and prospects, need for bamboo plantation, consumption pattern of bamboos in India, working and finishing qualities of bamboo, bamboos for structural use, pipe water supply system and drainage, bamboo furniture weaving industry etc. This book provides a complete detail on Bamboo plantation and its utilization. This book contains chapters like types of bamboo in India, taxonomy, cultivation, harvesting, growth management,

bamboo utilization, Bamboo products and many more. This book will be very helpful to all its readers, environmentalists, agronomists, entrepreneurs, industrialists, or anyone with a special interest in bamboo cultivation.

Vietnamese Home Cooking Charles Phan,2012-09-25 In his eagerly awaited first cookbook, award-winning chef Charles Phan from San Francisco's Slanted Door restaurant introduces traditional Vietnamese cooking to home cooks by focusing on fundamental techniques and ingredients. When Charles Phan opened his now-legendary restaurant, The Slanted Door, in 1995, he introduced American diners to a new world of Vietnamese food: robustly flavored, subtly nuanced, authentic yet influenced by local ingredients, and, ultimately, entirely approachable. In this same spirit of tradition and innovation, Phan presents a landmark collection based on the premise that with an understanding of its central techniques and fundamental ingredients, Vietnamese home cooking can be as attainable and understandable as American, French, or Italian. With solid instruction and encouraging guidance, perfectly crispy imperial rolls, tender steamed dumplings, delicately flavored whole fish, and meaty lemongrass beef stew are all deliciously close at hand. Abundant photography detailing techniques and equipment, and vibrant shots taken on location in Vietnam, make for equal parts elucidation and inspiration. And with master recipes for stocks and sauces, a photographic guide to ingredients, and tips on choosing a wok and seasoning a clay pot, this definitive reference will finally secure Vietnamese food in the home cook's repertoire. Infused with the author's stories and experiences, from his early days as a refugee to his current culinary success, *Vietnamese Home Cooking* is a personal and accessible guide to real Vietnamese cuisine from one of its leading voices.

Bamboo Esther Titilayo Akinlabi,Kwame Anane-Fenin,Damenortey Richard Akwada,2017-07-24 This book is intended for use both in the industry and the academia. It introduces the physical, chemical and the mechanical properties as well as the characterization of bamboo. Novel industrial applications in structural, non-structural, reinforcement, afforestation, land reclamation, environmental significance, textile, medical, geotechnical, hydraulic, food, pulp and the paper industries are addressed in detail. Bamboo has been used for centuries as a structural material as well as in diverse engineering applications, food and medicinal purposes, especially in Asia. As a natural fiber composite, bamboo has the potential for many developments in academic and industrial research. Current literature on composites tends to focus on bamboo as a plant or solely as a structural engineering material. This book seeks to bring together these two extremes and provides a holistic resource on the subject.
