Photography as a Social Research Method Sten Langmann, David Pick, 2017-12-12

This book focuses on photography within the social research field, building a solid foundation for photography as a social research method and describing different techniques and applications of photo research. It provides a comprehensive approach to research photography, from preparation and the ethical considerations that need to be understood prior to going into the field, to collecting data, analysis and preparing research for publication. It also introduces artistic genres of photography to help readers with the choices they make when pursuing photographic research and as a reminder that when collecting photographs that they are in fact producing art. The ethical issues examined place a new focus on dignity and considerations of participant anonymity and recognition, informed consent, working with vulnerable groups, unequal power relationships and possible intervention. Combining preparation and ethics, it examines how best to collect and take good photographs, and explores the practical issues of stigma and introduces *Verständnis* (German: understanding) to aid researchers in the field. Subsequently, the book discusses the different photo-analytical approaches for researchers and provides examples of how to analyse photographs using the different techniques. Lastly, it offers guidelines, with examples, for researchers wanting to publish their work.

Experimental Slips and Human Error Bernard J. Baars, 2013-06-29 Whereas most humans spend their time trying to get things right, psychologists are perversely dedicated to error. Errors are extensively used to investigate perception, memory, and performance; some clinicians study errors like tea leaves for clues to unconscious motives; and this volume presents the work of researchers who, in an excess of perversity, actually cause people to make predictable errors in speech and action. Some reasons for this oddity are clear. Errors seem to stand at the nexus of many deep-psychological questions. The very concept of error presupposes a goal or criterion by comparison to which an error is an error; and goals bring in the foundation issues of control, motivation, and volition (Baars, 1987, 1988; Wiener, 1961). Errors serve to measure the quality of performance in learning, in expert knowledge, and in brain damage and other dysfunctional states; and by surprising us, they often call attention to phenomena we might otherwise take for granted. Errors also seem to reveal the natural joints in perception, language, memory, and problem solving-revealing units that may otherwise be invisible (e. g. , MacKay, 1981; Miller, 1956; Newell & Simon, 1972; Treisman & Gelade, 1980).

Global Encounters Paoi Hwang 王寶瑋, 2013-01-01 Taiwan's status as an island surrounded by powerful nation states has forced upon it a history of permeable borders and an ever fluctuating cultural subjectivity. Originally inhabited by Austronesian tribal peoples, the island has over the centuries fallen under the political, economic, and cultural influences of the Spanish, Dutch, Japanese, and Chinese occupiers. Globalization has further transformed and complicated Taiwan's vistas of political reforms, cultural productions, and ethnic re-composition. Such gradual but radical transformation has, in countless ways, encouraged the nation-state identity and identification to vacillate between insularism and globalization. This collection is an example of the multitude of voices that speak for Taiwan. These selected essays, contributed by scholars from different countries (Canada, Hong Kong, Singapore, Taiwan, UK, and USA), engage with the debates on Taiwan's identity and nationhood while also attempting to step beyond the nationalistic frame. Whereas the openness to new ideas may alter our perspectives, this collection reminds us to embrace external influences without forgetting to celebrate our unbroken, unique historical legacy.

A Doll for Throwing Mary Jo Bang, 2017-08-15 The exquisite new collection by the award-winning poet Mary Jo Bang, author of *The Last Two Seconds* and *Elegy We were ridiculous*—me, with my high jinks and hat. Him, with his boredom and drink. I look back now and see buildings so thick that the life I thought I was making then is nothing but interlocking angles and above them, that blot of gray sky I sometimes saw. Underneath is the edge of what wasn't known then. When I would go. When I would come back. What I would be when. —from "One Glass Negative" *A Doll for Throwing* takes its title from the Bauhaus artist Alma Siedhoff-Buscher's *Wurfpuppe*, a flexible and durable woven doll that, if thrown, would land with grace. A ventriloquist is also said to "throw" her voice into a doll that rests on the knee. Mary Jo Bang's prose poems in this fascinating book create a speaker who had been a part of the Bauhaus school in Germany a century ago and who had also seen the school's collapse when it was shut by the Nazis in 1933. Since this speaker is not a person but only a construct, she is also equally alive in the present and gives voice to the conditions of both time periods: nostalgia, xenophobia, and political extremism. The life of the Bauhaus photographer Lucia Moholy echoes across these poems—the end of her marriage, the loss of her negatives, and her effort to continue to make work and be known for having made it.

Um. . . Michael Erard, 2008-08-12 Essential reading for talkers and listeners of all stripes: An original, entertaining, and surprising book that investigates verbal blunders: what they are, what they say about those who make them, and how and why we've come to judge them. "An enjoyable tour of linguistic mishaps." —The New York Times Book Review *Um...* is about how you really speak, and why it's normal for your everyday speech to be filled with errors—about one in every ten words. In this charming, engaging account of language in the wild, linguist and writer Michael Erard also explains why our attention to some blunders rises and falls. Where did the Freudian slip come from? Why do we prize umlessness in speaking—and should we? And how do we explain the American presidents who are famous for their verbal stumbles?

The Deal Series Collection Adam Gittlin, 2016-11-22 The Deal three-book collection propels readers along a rocket ride from the ground floor to the top of New York City skyscrapers—and back—at speeds that leave them breathless. On the way are Fabergé eggs gone missing, monstrous real estate deals, misplaced loyalty, revenge, murder—and sex and sophistication. Jonah Gray—redesigned as Ivan Janse—races through the pages of *The Deal*, *The Deal: About Face*, and *Deal Master* to escape the dual brutality of his Russian oligarch half-brother and a benefactor he thought was his friend, as well as his own demons. All the while—amid the skyscrapers of New York City and the streets of Amsterdam, he faces an ever-deepening abyss, relentlessly reaching out to annihilate him and destroy the woman he loves.
