Building the Skyline Jason M. Barr, 2016-05-12 The Manhattan skyline is one of the great wonders of the modern world. But how and why did it form? Much has been written about the city's architecture and its general history, but little work has explored the economic forces that created the skyline. In *Building the Skyline*, Jason Barr chronicles the economic history of the Manhattan skyline. In the process, he debunks some widely held misconceptions about the city's history. Starting with Manhattan's natural and geological history, Barr moves on to how these formations influenced early land use and the development of neighborhoods, including the dense tenement neighborhoods of Five Points and the Lower East Side, and how these early decisions eventually impacted the location of skyscrapers built during the Skyscraper Revolution at the end of the 19th century. Barr then explores the economic history of skyscrapers and the skyline, investigating the reasons for their heights, frequencies, locations, and shapes. He discusses why skyscrapers emerged downtown and why they appeared three miles to the north in midtown-but not in between the two areas. Contrary to popular belief, this was not due to the depths of Manhattan's bedrock, nor the presence of Grand Central Station. Rather, midtown's emergence was a response to the economic and demographic forces that were taking place north of 14th Street after the Civil War. *Building the Skyline* also presents the first rigorous investigation of the causes of the building boom during the Roaring Twenties. Contrary to conventional wisdom, the boom was largely a rational response to the economic growth of the nation and city. The last chapter investigates the value of Manhattan Island and the relationship between skyscrapers and land prices. Finally, an Epilogue offers policy recommendations for a resilient and robust future skyline.

Tall Buildings of China Georges Binder, 2015-07-31 This breathtaking new book, compiled by tall buildings specialist, Georges Binder, showcases more than 100 of the tallest buildings in China across more than 25 cities, including those towering over the megacities of Beijing, Shanghai and emerging supercities, such as Chengdu, Guangzhou and Tianjin. Georges Binder summarises the history of the Chinese tall building landscape from the 1930s to the present day, and features the best in contemporary design, including emerging architectural trends, showcasing each project with beautiful imagery and detailed plans. The book also delves into the hard architectural statistics and buildings' features with gritty detail. These skyscrapers are a fitting symbol of China's new-found prosperity, ambition and architectural flair.

Modern Buildings Greg Moskal, 2010-01-01 Explains what symmetry is, describes the different kinds of symmetry, and gives examples of symmetry seen in the real world, including in plants, animals, and architecture.

Skyscrapers Leonard Joseph, 2001-12-15 Describes the design, construction, and operation of famous skyscrapers.

Hong Kong Architecture 1945-2015 Charlie Q. L. Xue, 2016-06-13 This book focuses on the transformation from colonial to global – the formation, mechanism, events, works and people related to urban architecture. The book reveals hardships the city encountered in the 1950s and the glamour enjoyed in the 1980s. It depicts the public and private developments, and especially the public housing which has sheltered millions of residents. The author identifies the architects practising in the formative years and the representatives of a rising generation after the 1980s. Suffering from land shortage and a dense environment, the urban development of Hong Kong has in the past 70 years met the changing demands of fluctuating economic activities and a rising population. Architecture on the island has been shaped by social demands, the economy and technology. The buildings have been forged by the government, clients, planners, architects, many contractors and end-users. The built environment nurtures our life and is visual evidence of the way the city has developed. Hong Kong is a key to East Asia in the Pacific Era. The book is a must-read for a thorough understanding the contemporary history and architecture of this oriental pearl. Endorsement: “Hong Kong sets an extreme example of hyper-density living. MTR’s Kowloon Station project offered my firm the unique opportunity to contribute to a new type of fully integrated three dimensional transport mega-structure, conceived as a well-connected place for people to live, work and play. Through Charlie Xue’s book, one can see how a compact city works and high density integrated development indicates a sustainable path for modern city making.” Sir Terry Farrell, CBE, Principal, Farrells Well researched and refreshingly well structured, Charlie Xue's latest book comprehensively shows how Hong Kong's post-war urban architecture both tracks and symbolizes the former British colony's rise to success - a must read for architecture and culture buffs alike. Peter G. Rowe, Raymond Garbe Professor of Architecture and Urban Design, Harvard University Distinguished Service Professor. “An essential addition to the growing literature on Chinese architecture, the title of the book belies the full scope of Xue’s extensive history. Covering Hong Kong’s postwar transition from defeated colony to Pacific Age power house, Xue expertly traces the evolution of the city’s ambitious and innovative programs of integrated high density urban design and infrastructure, as well as changing architectural fashions. In a time when many Western governments have all but abandoned public housing programs, Xue’s book is a timely reminder of what can be achieved.” Professor Chris Abel, author of Architecture and Identity, Architecture, technology and process and The Extended Self.”/p>

Building Bridges, Carving Niches Grace Loh, Chor Boon Goh, Teng Lang Tan, 2000 A ground breaking book chronicling the rise of the Oversea-Chinese Banking Corporation (OCBC) from its humble beginnings in the days of the Great Depression to its distinguished status among the world's top 500 banks. Recounts the unique business model that combined Chinese values with Western Management and transformed it from a dialect-

based family concern into a modern innovative institution. Study also based on private collection of Tan Sri TanChin Tuan, who was instrumental in the transformation of the traditional family bank into a modern economic institution.

Hong Kong Grant Evans, Maria Tam, 2013-10-31 Hong Kong has become a by-word for all that is modern and sparkling in Asia today. Yet tourist brochures still play with the old cliché of Hong Kong as a place where 'East meets West'. Images of so-called 'traditional' China, junks sailing Victoria Harbour or old women praying to gods in smoky temples, mingle with those portraying Hong Kong as a consumer and business paradise. This collection of essays attempts to transcend the old polarities. It looks at modern Hong Kong in all its splendour and diversity in the run-up to its re-absorption into Greater China in mid-97, through the mediums of film, food, architecture, rumours and slang. It explores the question of a distinct, modern Chinese identity in Hong Kong, and even when it explores the traditional stamping ground of the older anthropology in the New Territories it finds a dramatically changed context, in particular for women. This collection presents an intriguing insight into the process of transition from 'tradition' to 'modernity' in this Modern Chinese Metropolis.

World Film Locations: Shanghai John Berra, Wei Ju, 2014-01-01 Celebrating Shanghai's rich cinematic history, the films covered here represent a lengthy time period, from the first Golden Age of Chinese Cinema in the 1930s to the city's status as an international production hub in 2013. Given the enduring status of Shanghai as the 'Paris of the East,' *World Film Locations: Shanghai* emphasizes the city's cosmopolitan glamour through locations that are steeped in cinematic exoticism, while also probing the reality behind the image by investigating its backstreets and residential zones. To facilitate this study of Shanghai's dual identity through reference to film locations, the book includes films from both the commercial and independent sectors, with a balance between images captured by local filmmakers and the visions of Western directors who have also utilized the city for their projects. With numerous essays that reflect Shanghai's relationship to film and scene reviews of such iconic titles as *Street Angel*, *Temptress Moon*, *Kung Fu Hustle*, and *Skyfall*, *World Film Locations: Shanghai* is essential reading for all scholars of China's urban culture.

Walking Between Slums and Skyscrapers Tsung-Yi Michelle Huang, 2004-03-01 The book is concerned with the effects of globalization on living space (i.e. the space of everyday life), focusing specifically on East Asian metropolises, such as Hong Kong, Tokyo, and Shanghai. Globalization has given rise to accessible catch-phrases such as the global village and this is a small world. In each part of the book the author juxtaposes a social account of the city's urban space as it has been reshaped by the process of globalization with a private account of the urban landscape as experienced by its walkers (as represented in the films of Wong Kar-wai and Shinya Tsukamoto and the novels of Wang Anyi). Rather than rest here, the author wishes to show that for many of the inhabitants of the new global city, the shrinking world phenomenon is deeply literal: the lived space of everyday life is shrinking to make room for rezoning, construction of new infrastructures, space modification — all in the name of urban development.

Seven Structural Engineers Félix Candela, 2008 Since 1997, the Structural Engineers Association of New York has hosted a lecture series in honour of the structural engineer Felix Candela. This book presents all eight lectures in written form for the first time. The lectures cover varying topics related to structural engineering, and have been given by some of the most prominent structural engineers working and teaching today. Each essay is fully illustrated.
