Bartolomeu Dias and the Discovery of the South-east Passage Linking the Atlantic to the Indian Ocean (1488) W. G. L. Randles,1988

Bartolomeu Dias Jennifer Swanson,2017-07-15 The late fifteenth century was alive with dreams of world exploration. As the first Portuguese adventurer to sail from the Atlantic Ocean to the Indian Ocean, Bartolomeu Dias was one of the most important. His voyage around the tip of Africa, past the Cape of Good Hope, paved the way for future explorers such as Vasco da Gama and Columbus. Follow along with Bartolomeu as he battles huge storms, rough seas, dwindling supplies, and even a near mutiny on a historic trip that resulted in opening seagoing trade routes for all of Europe and Asia.

Bartolomeu Dias Ernst Georg Ravenstein,William Brooks Greenlee,Pero Vaz de Caminha,2010 The biography of Bartolomeu Dias (Bartholomeu Dias, Bartholomew Diaz) (c1450-1500), the Portuguese explorer who was the first European to sail around the southern tip of Africa.His discovery, which he described to his king in the presence of Christopher Columbus, opened up the sea route around Africa to India and the rest of Asia.On his return, Bartolomeu Dias could have been considered the world's greatest discoverer. However, his discoveries did not cease there. Bartolomeu Dias was to take part in more important voyages of discovery than any other explorer.Bartolomeu Dias finally captained a ship in the fleet of Pedro Cabral, which was one of the largest fleets that had ever sailed the Atlantic. It included the discovery of Brazil as one of its achievements. It was the longest voyage in history up to that time, and one of the greatest and most influential voyages of discovery ever made.On passing the site of his discovery of the southern route around Africa Bartolomeu Dias had taken leave of it as from a beloved son whom he never expected to see again. However, Bartolomeu Dias did return to the site of his greatest discovery, which unfortunately became the site of his greatest tragedy.

Church and State Cristian Romocea, 2011-04-21 Twenty years have passed since the fall of the Iron Curtain, yet emerging democracies continue to struggle with a secular state which does not give preference to churches as major political players. This book explores the nationalist inclinations of an Eastern Orthodox Church as it interacts with a politically immature yet decisively democratic Eastern European state. Discussing the birth pangs of extreme nationalist movements of the twentieth century, it offers a creative retelling of the ideological idiosyncrasies which have characterized Marxist Communism and Nazism. Cristian Romocea provides a constant juxtaposition of the ideological movements as they interacted and affected organized religion, at times seeking to remove it, assimilate it or even imitate it. Of interest to historians, theologians and politicians, this book introduces the reader, through a case study of Romania, to relevant and contemporary challenges churches worldwide are facing in a context characterized by increased secularization of the state and radicalization of religion.

Utopia(s) - Worlds and Frontiers of the Imaginary Maria do Rosário Monteiro, Mário S. Ming Kong, Maria João Pereira Neto, 2016-11-03 The idea of Utopia springs from a natural desire of transformation, of evolution pertaining to humankind and, therefore, one can find expressions of "utopian" desire in every civilization. Having to do explicitly with human condition, Utopia accompanies closely cultural evolution, almost as a symbiotic organism. Maintaining its roots deeply attached to ancient myths, utopian expression followed, and sometimes preceded cultural transformation. Through the next almost five hundred pages (virtually one for each year since Utopia was published) researchers in the fields of Architecture and Urbanism, Arts and Humanities present the results of their studies within the different areas of expertise under the umbrella of Utopia. Past, present, and future come together in one book. They do not offer their readers any golden key. Many questions will remain unanswered, as they should. The texts presented in *Proportion Harmonies and Identities - UTOPIA(S) WORLDS AND FRONTIERS OF THE IMAGINARY* were compiled with the intent to establish a platform for the presentation, interaction and dissemination of researches. It aims also to foster the awareness and discussion on the topics of Harmony and Proportion with a focus on different utopian visions and readings relevant to the arts, sciences and humanities and their importance and benefits for the community at large.

Adam Runaway Peter Prince, 2006-08-08 It is 1721 and young Adam Hanaway, devastated by his father's sudden death, leaves England to seek his fortune in Lisbon, where his uncle is a successful merchant. But almost nothing turns out as Adam planned. The story is set against a background that combines the twin spectacles of one of the richest, most cosmopolitan cities in the world and the grim, archaic shadow of the Portuguese Inquisition.

The Early European Presence in China, Japan, the Philippines and Southeast Asia (1555-1590) Lućio de Sousa, 2010

The Fascist Faith of the Legion "Archangel Michael" in Romania, 1927–1941 Constantin Iordachi, 2022-12-30 The Fascist Faith of the Legion Archangel Michael in Romania, 1927–1941 engages critically with recent works on fascism, totalitarianism, and religion, and advances an original theoretical and methodological approach to fascism as a political faith. On this basis,

the book constructs an innovative comparative research framework for reconceptualizing the history of the Legion Archangel Michael in Romania, 1927–1941. It contends that the Legion put forward a palingenetic political faith of a theological type, called Legionarism. To provide a comprehensive analysis of the origins, main features, mechanisms of institutionalization, and demise of this self-proclaimed salvific political faith, the book documents the palingenetic foundations of the Legionary faith, the syncretism between fascist and Christian rites and rituals, and the intricate relationship between the Legion and the Orthodox Church and its dogma. The book documents three main sacrificial strategies employed by the Legion to re-evangelize the people in the new faith: (1) the appropriation of the cult of the fallen soldiers; (2) terrorist missions meant to create fascist heroes through violent sacrifice; and (3) sanctification through heroic fight for Christianity in the Spanish Civil War, in an attempt to link Legionarism with the transnational crusade against Judeo-Bolshevism. As well as providing a detailed historical and interpretive account of the Legion, the book makes a significant contribution to debates about defining fascism and its relation to religion. It also provides novel comparative perspectives for studying other attempts at constructing fascist faiths in interwar Europe, most notably in Fascist Italy and Nazi Germany but also in Central and Eastern Europe. This book will be of interest to students and scholars of fascism, Romanian studies, politics and religion, political theory, totalitarianism, youth radicalization, violence, and the emergence of terrorism.
