Shuffle Offenses for Men's and Women's Basketball Harry L. Harkins, Jerry Krause, 1999 This book offers nine shuffle offenses. To prevent these offenses from becoming too repetitive, pattern variation plays and pressure-relieving manoeuvres are included. The pattern variation plays take the defenders' focus off the shuffle options by showing them something different-- 'a new picture'. The pressure relievers are used to initiate the offense against strong defensive pressure and denial. They also provide other alternatives to the basic shuffle options when they are being anticipated and denied. At the close of each chapter are coaching tips. Included are catch-up plays to be used when your point deficit is twice the number of minutes remaining on the game clock.

Achieving Consilience Margherita Dore,2016-04-26 At Master's level, students in Translation Studies may choose to complete their course by compiling a dissertation by commentary. Such projects involve detailed discussions of the strategies and procedures that students opt for when translating a source text of their choice (be it literary, audiovisual, or technical). However, the vast majority of these dissertations by commentary usually remain stored in university libraries. *Achieving Consilience: Translation Theories and Practice* brings to the fore the theoretical and practical potential of these dissertations by commentary. It demonstrates how theories in Translation Studies can be fruitfully, consciously and systematically applied during the translation practice, thus helping to transcend the received wisdom according to which theorists and practitioners share little common ground. Additionally, the contributors to this volume evince their ability to apply a research-driven approach to their analysis by comparing their work with official translations or other field-related texts. As such, this essay collection will contribute to a better understanding of the translator's decision-making process, and will offer future students valuable guidelines regarding the procedure normally followed in completing a dissertation by commentary.
