Pass the Baton Kathryn Finch,Theresa Hoover,2020-09-20 Taking the Music Room beyond Engagement All too often the music classroom stifles students with one-size-fits-all curricula and repertoire. In *Pass the Baton*, authors Kathryn Finch and Theresa Hoover turn that paradigm on its head, offering a vision of music education that empowers students as critical thinkers who exercise voice and choice to question, discover, connect, and play like never before-in and out of the classroom. *Pass the Baton* offers readers a comprehensive guide to crafting engaging music lessons that transform students from passive consumers to vibrant creatives. Whether you're looking to rethink general music or overhaul your ensemble groups, *Pass the Baton* is chock-full of generative, actionable, and impactful tools. Finch and Hoover have drawn on deep research and years of experience in the music room to provide a guide for all music educators to create a learner-centered environment and give students the opportunity to truly own the creative process. This book is a must read for teachers who want to empower students to become self-sufficient lifelong learners. It is a guidebook for creating a vibrant classroom where student learning is the first priority. Kristin Gomez, MA, director of orchestras at Jefferson Middle School and Abingdon Elementary School As I watch my daughters grow up and be inspired by music in their lives, I read this thinking, this is the type of music education I want for my own kids. This is a great book that reminds us that music education should be in every school in the world. George Couros, educator and author of *The Innovator's Mindset* Music teachers are often required to attend professional development that does not seem to relate to our performance-driven classes. We are left to figure out the applications on our own. *Pass the Baton* makes the connections for us in a way that empowers not only music students but music teachers. Mari Schay, editor of *Activate! Magazine* and early elementary music teacher

Passing the Baton Cat M. Ariail,2020-11-30 After World War II, the United States used international sport to promote democratic values and its image of an ideal citizen. But African American women excelling in track and field upset such notions. Cat M. Ariail examines how athletes such as Alice Coachman, Mae Faggs, and Wilma Rudolph forced American sport cultures—both white and Black—to reckon with the athleticism of African American women. Marginalized still further in a low-profile sport, young Black women nonetheless bypassed barriers to represent their country. Their athletic success soon threatened postwar America's dominant ideas about race, gender, sexuality, and national identity. As Ariail shows, the wider culture defused these radical challenges by locking the athletes within roles that stressed conservative forms of femininity, blackness, and citizenship. A rare exploration of African American women athletes and national identity, *Passing the Baton* reveals young Black women as active agents in the remaking of what it means to be American.

Pro-Systems: Baton Reverse Grip System Joseph Truncale,2015-06-02 This baton manual takes a different approach on how to employ the standard straight police baton. Whether you carry the expandable type of baton or the standard rigid model, this text will provide a different perspective on how to use the baton for control and self defense. The Baton Reverse Grip System (BRGS)was not created to take the place of any other baton system. It was designated to increase an officer's options when employing the law rnforcement straight baton in arrest and control situations.

Technique and Use of the Police Baton Federal Bureau Of Investigation,2021-01-05 Published by the F.B.I. in 1967 this booklet covers the use of the traditional police baton. The purpose of this booklet is to present material on the technique and use of the baton which meets the needs of the police officer and yet is consistent with the ethical standards of modern law enforcement.The police baton, in the hands of an officer who has been trained in its use, is a very formidable weapon for defense and counterattack. Many law enforcement officers share the opinion that the baton, under most circumstances, is a more versatile weapon than the officer's revolver. It is recognized that there are a great many situations in which a police officer would be justified in using the baton, whereas he would not be justified in using his revolver. The officer who is skilled and practiced in using the baton can adequately cope with most situations where physical force is necessary.

Raising the Baton Bruce Herschensohn,2018-11-12 When Christopher Straw was a little boy in Fort Littleton, PA, he wanted to be the first man to land on the moon. That was before the advent of Astronauts. He never reached the moon but when he grew up he was heavily involved in the new industry of US space exploration. When Anna Lane was a little girl in Charleston, SC she craved to have a career as an actress who would have roles singing and dancing on Broadway and in Hollywood movies. She achieved those goals early with the addition of being in a new medium called television. When Raj Bhavnani was a little boy living on the outskirts of Sholapur, India, he wanted to appear knowledgeable in any and all things with the objective of becoming a world leader. To have such a triumph, he wanted to travel to lands beyond India. As an adult, many of his passions became realized. *Raising the Baton* is written as though the reader is in a first-row seat at a concert and the conductor has taken his standing position at the podium. He faces the orchestra; his back to the audience, and with one stroke the baton is watched by all those in attendance. The fuller and unlimited meaning for the three major figures is recorded within the book.

Behind the Baton Gerard Schwarz,Maxine Frost,2017-03-01 (Amadeus). To speak of Gerard Schwarz musician, conductor, festival organizer, gig hopper, educator, television personality, patron and proselytizer of the arts is to tell an exemplary American story. You could convey it exclusively in cliches, from his industrious emigre parents to his precocious childhood, from his ardor and diligence as a prodigy trumpeter to his meteoric rise as a conductor, from his unforeseen cross-country migration to the gradual construction of a world-class orchestra in a city formerly regarded as a cultural backwater, from the halls of New York City's High School of Performing Arts to the digital instructor's chair of the All-Star Orchestra's Khan Academy course series. You could simply recite the numbers: over 300 new works premiered, over 350 recordings in his discography, 14 GRAMMY nominations, 4 Emmy awards, six ASCAP Awards, and hundreds of other honors and laurels. You could dazzle and festoon and bewitch with talk of truth and beauty and the pursuit of ever-higher forms of artistic expression. Or you could tell it Jerry's way. *Behind the Baton* is a quintessentially Schwarzzian memoir: intrepid, forthright, risible, subtly self-assured, and entirely unpretentious. It offers an intimate inside look at a man whose immense talent is rivaled only by his humility and work ethic a man who, for nearly fifty years, has strived to leave every orchestra and musician he touched better than when he found them. Whether you're a classical music aficionado, an orchestra initiate just cutting your teeth, or an everyday reader interested in the remarkable story behind an extraordinary man, *Behind the Baton* belongs on your nightstand.

Advanced Baton Training Gary G. Albrecht,2015-10-12 This is not just a book, it is actually a four hour course designed to have you develop a better understanding, and working knowledge of the expandable baton and fixed baton techniques. It will allow you to go beyond the simple basics that you were taught at the beginning of your law enforcement career. As a course it will show you how the Expandable Baton and Fixed Baton go from a simple impact weapon, which is what officers have been taught for many years, to a high-end tactical weapon, and as a book it will give you something you will be able to go back to for a reference on the techniques that are being used. It will show blocks and strikes, strategically placed, so as to allow follow-up moves, take downs, and submissions to immobilize an attacker. This course will, also, allow you to develop muscle memory in the simple blocking and striking drills. These drills will allow you to become more familiar with your expandable baton or fixed baton and make you confident in their use. I hope to give you more tools in this baton course than in any other baton course offered anywhere.

Passing the Baton Dr N Rosechild-Sullivan, PH D,Rev. Nadine Rosechild Sullivan,2020-07-17 Before birth control, women * (people who could be impregnated, including gender non-conforming individuals and transmen) were, overwhelmingly, excluded from higher education and from the pursuit of fulfilling careers. Women* were routinely fired at marriage or pregnancy, and pressured to marry men* (persons who could impregnate, including gender non-conforming and transwomen) as their primary means of economic subsistence. The ability to control whether or not - or when - YOU have a child (either as an individual or a couple) is paramount to your ability to plan, and execute some level of control over, your life's trajectory. Thus, birth control has, and continues to, function as a precondition of the liberation of women.* Without access to reliable birth control, and the right to terminate a pregnancy in the pre-embryonic and embryonic stages (first 13 weeks or first trimester), women* as a class are not viewed by societies as self-sustaining economic units, and become, overall, the property - and liability - of men, * and marriage becomes a primarily economic arrangement - with husbands as the employers of their wives, enforcing the submission of those wives.
