The Battle of the Giant, 2 Jax Ward,2022-01-11 Xand and his friends Wilder, Yama, and Zeg are back on their quest to find and defeat the Gargoyle King. Fresh off their first battle, the team must make a decision about where to go and how to get there. A book for kids who love adventure stories and fantasy novels, and for parents who are watching their kids grow up in challenging times, The Battle of the Giant is for all ages to enjoy. Jax Ward has created a universe of characters and stories, and Xand Book 2 hints that there is more to this world than meets the eye. Like any sequel, Xand Book 2 picks up with new adventures while world-building and hinting at more to come.

Origins of the Tarot Dai Leon,2012-05-29 Conventional wisdom traces Tarot cards to medieval Italy, but their roots go back much further in time and draw on a surprisingly rich variety of cultures and spiritual traditions. Combining pioneering scholarship with practical spiritual instruction, Origins of the Tarot is the first book to unveil the full range of the ancient streams of wisdom from which the Tarot emerged.The timeless principles of conscious realization and cosmological unfoldment underlying the Tarot have never been explored in a comparably extensive and detailed way: herein the teachings of a tremendous range of traditions, including Kabbalah, Western esotericism and alchemy, Buddhism, Taoism, yogic disciplines, Sufism, mystical Christianity, Gnosticism, and Neoplatonism, are masterfully incorporated and synthesized.Author Dai Léon explores a confluence of philosophical schools from East and West as they relate to the Tarot, giving each its due in the exposition of a universal procession of evolution and the soul's quest for enlightenment. In the process, the Tarot is seen as a unique exemplification of perennial teachings on the soul and its liberation, as well as a still-unfolding window into concealed currents of human history. The book's profound learning and unprecedented range of references are sure to attract close study among students both of the world's most enduring esoteric tradition and of esotericism itself.

Dark Horse Heroes Omnibus Mike Richardson,2008 In the not-too-distant past, the first nuclear weapon test changed the world forever . . . but not in the way we expected. Unleashed upon the planet was a microscopic technological virus of unknown origin that infected millions -- some to no effect, some to horrifying agonies and disfigurement, others with the gift of incredible and sometimes terrifying power. But would a world populated by supermen become a battleground for good against bad . . . or bad against worse? Is it true that with great power comes great responsibility . . . or does it truly come with great license?

Lifewave Steven Haltiwanger,David Schmidt,2019-09-12 Imagine a product that can activate your stem cells, resetting them to a younger, healthier state. This would represent a whole new level of vitality with improvements to your energy, sleep, reduction in pain, reduction in the appearance of lines and wrinkles and support of faster wound healing, just to name a few of the benefits. Introducing the LifeWave X39 patch: The first product ever that is designed to activate your body's own stem cells. How does X39 accomplish this? Using our proprietary and patented form of phototherapy, X39 elevates the peptide GHK- Cu. This is a naturally occurring peptide in your body that declines significantly with age. In fact, after the age of 60 your levels of GHK-Cu have dropped by more than 60%.

A Wicked Pack of Cards Ronald Decker,Thierry Depaulis,Michael A. E. Dummett,1996 And practitioners of magic, and the occasional French charlatan, developed uses for Tarot cards and baseless theories about them which were virtually unknown in other countries. The authors trace this phenomenon through the writings and activities of many advocates of Tarot occultism, including Court de Gebelin, Etteilla, Levi, and Papus, showing how an extraordinary variety of occult theories - from Hermetism to Rosicrucianism, from the Cabala to Freemasonry - was.

Child of a Mad God R. A. Salvatore,2018-02-06 A thrilling and dark new epic fantasy adventure begins, perfect for fans of Glen Cook and Joe Abercrombie. When Aoleyn loses her parents, she is left to fend for herself among a tribe of vicious barbarians. Bound by rigid traditions, she dreams of escaping to the world beyond her mountain home. The only hope for achieving the kind of freedom she searches for is to learn how to wield the mysterious power used by the tribe's coven known as the Song of Usgar. Thankfully, Aoleyn may be the strongest witch to have ever lived, but magic comes at price. Not only has her abilities caught the eye of the brutish warlord that leads the tribe, but the demon of the mountain hunts all who wield the Coven's power, and Aoleyn's talent has made her a beacon in the night. Child of a Mad God is the first book in bestselling author R. A. Salvatore's The Coven series.

Encyclopedia of Ancient Natural Scientists Paul T. Keyser,Georgia L. Irby-Massie,2008-11-19 The Encyclopedia of Ancient Natural Scientists is the first comprehensive English language work to provide a survey of all ancient natural science, from its beginnings through the end of Late Antiquity. A team of over 100 of the world's experts in the field have compiled this Encyclopedia, including entries which are not mentioned in any other reference work – resulting in a unique and hugely ambitious resource which will prove indispensable for anyone seeking the

details of the history of ancient science. Additional features include a Glossary, Gazetteer, and Time-Line. The Glossary explains many Greek (or Latin) terms difficult to translate, whilst the Gazetteer describes the many locales from which scientists came. The Time-Line shows the rapid rise in the practice of science in the 5th century BCE and rapid decline after Hadrian, due to the centralization of Roman power, with consequent loss of a context within which science could flourish.

Learning the Tarot Joan Bunning,1998-01-15 Learning the Tarot, Joan Bunning offers a complete course in 19 lessons that covers the basics and then gradually goes into more advanced concepts. First published in 1998, Joan Bunning’s Learning the Tarot has become a tarot classic. Written in a confident and natural style, the book communicates the basic depth and beauty of each card, shows how the cards trigger psychological projection, and enhances intuition. Learning the Tarot is a thorough (but never overwhelming) invitation to the beginner. The book focuses in detail on: the actual process of discovering meaning in the cards how to consider one card by itself, how to look for card pairs how to create the story of a reading The book includes a convenient reference section that contains two pages of information for each card, including a picture from the popular Waite-Smith deck, a description, keywords, action phrases, and suggestions for cards with similar and opposite meanings. The author first presented this course online at learntarot.com, which continues to attract over one hundred thousand visitors per month. “When I first created my website in 1995,” writes Joan Bunning, “I never dreamed how much interest in the tarot I would find. People from all over the world began writing to tell me about their experiences with the course and their adventures with the cards. This response was music to my ears! I knew from my own experience that the tarot is a wonderful tool for personal guidance and inner exploration. “My goal with this book was to give you the basics you need to begin working with the tarot on your own. I try to make this inner process understandable by breaking it up into a series of steps that are simple while still doing justice to the depth and beauty of the cards. I concentrate on the everyday, showing how the tarot makes real, practical sense in the modern world. The tarot is a living system that adapts creatively to each user. Rather than rules, I offer guidelines. While reading my book, I want you to feel that you have a teacher sitting next to you who is introducing you to this special tool, but also encouraging you to go on to discover your own unique approach to the cards.”

The Tarot Robert Place,2005-03-17 The Tarot is one of the few books that cuts through conventional misperceptions to explore the Tarot deck as it really developed in the Middle Ages and Renaissance Europe-not, as some would suggest, in the far reaches of Egyp-tian antiquity. Mining the Hermetic, alchemical, and Neoplatonic influences behind the evolution of the deck, author Robert M. Place provides a historically grounded and compelling portrait of the Tarot's true origins, without overlooking the deck's mystical dimensions. Indeed, Place uncommonly weds reliable historiography with a practical understanding of the intuitive help and divinatory guidance that the cards can bring. He presents techniques that offer new and valuable ways to read and interpret the cards. Based on a simple three-card spread, Place's approach can be used by either the seasoned practitioner or the new inquirer.
