Modelling British World War II Armoured Vehicles Tom Cole,2019-03-25 This new book will be an essential reference for modellers and wargamers who build and paint World War II British armoured fighting vehicles. It provides extensive information on different types of vehicles, describing when they were used, by whom and for what purpose. In addition, the many modifications made to vehicles during the war are included, with guidance on how to create these for models. The step-by-step building and painting guides illustrate vehicles in 1/35, 1/72 and 1/76 scale. This book features models, often with a comparison of models from different manufacturers, for the following: M3 Grant Mk1, including a North African version; Cromwell Mk IV; Royal Marine Centaur; Cavalier Observation Post; Sherman M4A1 and Crab; Crusader III AA Mk 1; Matilda; Morris and Guy Quads; Bedford QLs; Scammell Pioneer Heavy Artillery tractor conversion; Anti-tank guns, e.g. the 'Pheasant', field guns, anti-aircraft guns, etc and, finally, figures which include uniform painting guides. The author has been a keen military modeller for many years and has a particular passion for British & Commonwealth forces of WWII. It is superbly illustrated with 335 colour photographs.

Making A Bridge Too Far Simon Lewis,2024-05-07 A Bridge Too Far, released in 1977, proved to be the last epic WWII movie made in the Hollywood studio system. Its ambitious goal: to recreate the doomed Allied plan called Operation Market-Garden in September 1944. Market-Garden's goal was to surprise the Germans with a mammoth parachute drop behind their lines and bring a quick end to the war, but the plan became a disaster for the Allies, with the battle for the Arnhem bridge vicious as the “Red Devils” of British First Airborne held out against overwhelming odds. Producer Joseph E. Levine packed his cast

with the top stars of the 1970s, including Anthony Hopkins, Robert Redford, Sean Connery, James Caan, Michael Caine, Elliott Gould, Dirk Bogarde, and Laurence Olivier and shot the film on location in and around Arnhem. Making & 'A Bridge Too Far' answers all the questions WWII buffs have had about the production, as author Simon Lewis interviewed many in the cast and crew and uncovered a genuinely entertaining story about bringing WWII to life in sleepy 1976 Holland with vintage tanks and aircraft, legions of stunt men and paratroopers, all led by determined director Sir Richard Attenborough. Making & 'A Bridge Too Far' will prove a delight for armchair generals and lovers of old Hollywood. Fun facts: Dutch survivors of the war had no patience for actors dressed as German soldiers; Dirk Bogarde was a British war veteran who had participated in Market-Garden and bore the mental scars to prove it.

Fuzz to Folk Dr Ian Green, 2020-05-15 In *Fuzz to Folk* Ian Green chronicles his life so far; from Nation Service call-up to regular Army Service, to 30 years as a policeman and finally to founder of Greentrax, Scotland's leading traditional music label. Green has played a significant role in the resurgence and vitality of traditional and folk music in Scotland. His inspirational autobiography includes details of his involvement in the careers of Brian McNeill, Dick Gaughan, the McCalmans, Eric Bogle and many others. With Green's unique insight, *Fuzz to Folk* is an authority on the Scottish folk scene, and a fascinating glimpse into the life of the policeman on the street.

W. Clifford Watts Est. 1937 Gary K. Russell, 2004-09-14 The story of Wyndham Clifford Watts is one of humble beginnings and exceptional ingenuity; originally from Gwent in Wales, W Clifford Watts moved to South Cave in Yorkshire and, in 1937, bought a Model T Ford and began delivering farm produce. With one successful hauling endeavour under his belt, he decided to become a supplier of building materials, a business for which there was great demand at the time. Again, he was successful and

obtained his first contract with F Hall at Brough, who used his materials to build the Blackburn Aircraft runway. By 1939, W Clifford Watts had a number of employees under him and had joined the war effort by supplying much needed sand bags to the ARP posts around East Yorkshire. After further rapid expansion of the company, W Clifford Watts was incorporated to become a private limited company in 1944. The company would have been nothing without the mechanical support of the various vehicles and machines utilised for the work. This book includes 184 stunning pictures ranging from archival black and white photos of Fordson 7Vs, during the construction of RAF airfields in 1941, to extensive colour pages, depicting the large scale quarrying operations carried out by the company. Some of the vehicles that donned the W Clifford Watts livery were Foden S21 eight-wheelers, Dodge KT900s, MAN six-wheeler cement mixers, 1995 Scania, 1974 Leyland Bisons and DAF CF six-wheelers, to name just a few.

Bolt Action: Armies of Great Britain Warlord Games, Jake Thornton, 2013-03-20 With this latest supplement for Bolt Action, players can now build an army for Great Britain and the Commonwealth. From early campaigns in Europe to the deserts of North Africa and the jungles of the Far East, British forces faced the Axis threat. The army lists presented here have all the information needed to field such elite units as the Paras, Commandos, Chindits and SAS alongside the steadfast 'Tommy'.

Defending Bedfordshire Mike Osborne, 2021-07-11 Over the centuries, proximity to major routes - the Great North Road, the Icknield Way, and Watling Street - has made Bedfordshire strategically important. Iron Age hillforts occupied significant locations, and castles consolidated Norman control after 1066. In later medieval times, two major events occurred: in 1224, the siege of Bedford Castle marked Henry III's attempt to reimpose

royal authority after the chaos of John's reign; and the Second Battle of St Albans in 1461 was a major defeat for the Yorkists. During the wars of the twentieth century, the county's industrial base supported the armies fighting overseas. In the First World War, the county contributed significantly to the birth of the RAF as well as provided the base for the Home Defence armies. In the Second World War, its airfields despatched RAF and USAAF bombers over the continent, but the major activity was the secret war largely associated with the Bedford Triangle. After 1945, aeronautical research continued at RAF Thurleigh/Twinwood Farm and electronic intelligence-gathering was developed at Chicksands. \x27Defending Bedfordshire\x27 seeks to explain the significance of this dense concentration of military sites to be found in a relatively small county.

Companion to the British Army 1939-45 Lieutenant Colonel George Forty OBE, 2009-10-01 To encapsulate the British Army in one book is no easy task, but here, George Forty presents it as it was during the Second World War. When war was declared in 1939, the British Army was very much the 'Cinderella' of the three armed services, with a total strength of around 865,000 men. However, just four years later when the Allies invaded north-west Europe, the British Army had grown into a powerful, well-organised and well-equipped fighting force of 3 million men and women. George Forty presents a comprehensive overview of the British Army during this important time. He includes full details of mobilisation and training, higher organisation and arms of the service; divisional organisations and non-divisional units; HQs and Staff; the combat arms and the services; the individual soldier, his weapons and equipment; tactics; vehicle markings and camouflage; the Auxiliary Territorial Service and other Women's Corps. Fully illustrated with an unusual collection of photographs and line illustrations, this is an indispensable reference guide for anyone interested in this fascinating period of British history.

Dinky Toys David Busfield, 2017-04-15 Few men over forty

never owned a dinky toy when they were a child. This is the story of Britain's favourite toy cars.

Sixty Years of Airfix Models Jeremy Brook, 2015-06-30 The best-known and most important manufacturer of plastic model kits in the UK, Airfix has been at the forefront of the industry since 1955 when the first Airfix aircraft kit appeared in UK branches of Woolworth's. The kits were made to a constant scale and covered a wide variety of subjects, from aircraft to birds and from tanks to dinosaurs. In 1981 the famous London-based company closed down and only the kits survived intact. For the next twenty-five years Airfix was run by Palitoy and later Humbrol, but suffered from a lack of investment. In 2006, Hornby Hobbies Ltd, the train and Scalextric manufacturer, bought the ailing company and transformed it. Money and resources were ploughed into the range, and today Airfix releases around twenty new kits per year, designed to an incredibly high standard. The old kits of the 1950s and 1960s are gradually being replaced by new state-of-the-art tooling, all bearing that most prestigious name - Airfix. Published to coincide with the sixtieth anniversary of the first Airfix aircraft kit, *Sixty Years of Airfix Models*, tells the full story, year by year, of the company and its products. Illustrated throughout with colour photographs of kits, box art and completed models.

Churchill Crocodile Flamethrower David Fletcher, 2012-05-20 A fire-breathing monster on the battlefield, the Churchill Crocodile was one of the most awe-inspiring weapons of World War II. Tank expert David Fletcher chronicles the development of the flamethrower tank, examining the dramatic effect of these tanks in battle from use in France to the terrifying attack on the Senio River in Italy, as well as investigating the post-war use of Crocodiles to burn down and sterilise the site of Belsen concentration camp, and their mobilisation for the Korean War. Researched using the papers of Reginald Fraser the genius behind the flamethrowers and

dramatically illustrated with detailed artwork and previously unpublished photographs, this book brings to life the true terror of these tanks.

The Cyprus Emergency Nicholas van der Bijl, 2014-05-19
The British faced two serious problems the first, the Greek Cypriots desire for Enosis and second, the intense rivalry and antipathy between the Greek and Turkish communities. In 1955 the former resulted in a bitter EOKA terrorist campaign led by Colonel George Grivas. This resulted in the deaths of over 100 British servicemen. Nicosias Murder Mile was the scene of many shootings. The Governor Field Marshal Harding narrowly escaped assassination in his residence. The next phase was the Turkish Governments military intervention in 1974 to prevent what they saw as the Greek takeover. In a bloody invasion which saw widespread ethnic cleansing and displacement of communities, the Island was divided into two sectors policed by the United Nations. This exists today, as do the British Sovereign Base areas at Dhekalia and Atrokiri/Episkopi. This book describes the most troubled years of this beautiful island which is so well known to British servicemen, their families and vacationers.

Wait for the Waggon D J Sutton, 1998-01-12 The first ever published comprehensive history of the Royal Corps of Transport and its Predecessors, relating the proud part played in helping to develop the highly successful logistic system that the British Army now possesses.

Monty's Double Neil Sambrook, 2023-07-21 BRITISH OCCUPATION ZONE, GERMANY, 1945: Former county cricketer Montgomery 'Monty' Bossitor finds himself in the ruins of post-war Germany tasked with selling off British Army surplus equipment. Tempted by offers from the criminal fraternity to sell the goods as scrap, Monty makes a fortune, but supplying one gang means double-crossing another and soon he finds he has the underworld, an assassin and Scotland Yard on his tail. In the burnt-out remains of his London house is found a charred corpse.

But is it him, or Monty's double?

An History Of Road Transport ,

The Accidental Hippie Roger Fleming, 2020 The author kept a diary that he wrote using carbon paper. The carbon copies provided the letters that were sent home whenever there was an opportunity to post a letter. The diary itself, which has survived to this day, provides the basis of this book and the unexpected events that resulted in the author living in Australia. Travelers at this time found a world far different from that which we see today. Those who set out on this adventure represented all sections of society from the well off adventure seeker to the tough job seeker, traveling on a shoestring.

From the Imjin to the Hook James Jacobs, 2013-06-19 The British Army's considerable contribution to The Korean War 1950 - 1953 was largely composed of "conscripts" or national servicemen. Plucked from civilian life on a "lottery" basis and given a short basic training, some like Jim Jacobs volunteered for overseas duty and suddenly found themselves in the thick of a war as intensive and dangerous as anything the Second World War had had to offer. As a member of 170 Independent Mortar Battery RA from March 1951 to June 1952 Jim was in the frontline at the famous Battle of the Imjin River. By great luck, he evaded capture - and death - unlike so many. He returned to the UK only to volunteer again for a second tour with 120 Light Battery from March 1953 to March 1954. During this period, he was in the thick of the action at the Third Battle of the Hook during May 1953. In this gripping memoir, Jim calmly and geographically recounts his experiences and emotions from joining the Army through training, the journeys by troopship and, most importantly, on active service in the atrocious and terrifying war fighting that went on in a very foreign place.

Churchill's Army Stephen Bull, 2016-09-22 Winston Churchill, Britain's iconic war time Prime Minister, is inextricably linked with the victorious British Army of 1939 to 1945. Yet hindsight,

propaganda, and the imperative of the defeat of Hitler and Imperial Japan, have led to a tendency to oversimplify the image of Churchill the war leader, and 'his' Army. For whilst Churchill was undeniably a towering statesman, his relations with both the Army and War Office were ambiguous and altered considerably not only with the progress of the Second World War, but over decades. In this comprehensive book, Stephen Bull examines every aspect of the British Army during the Second World War, and considers in detail the strengths and weaknesses of an organisation that was tested to its limits on many fronts but made an immense contribution to the successful Allied outcome. The book explores the structure of military power from the men who ran it, the Generals to the detail of the regiments they commanded. It looks at the uniforms the soldiers wore and the badges and insignia they bore on their uniforms. The weaponry Churchill's army used is discussed in detail, from small arms including rifles, bayonets, grenades, carbines and machine guns to the massed firepower of the artillery along with the increasing sophistication of tanks and other military vehicles during the period. Finally the role of auxiliary and special forces and their contribution to the campaign is considered. The comprehensive text is enhanced by more than 200 contemporary photographs.
