Algernon Blackwood

Jahr's and Possart's New Manual of the Homeopathic Materia Medica Charles J. Hempel, Arranged with reference to well authenticated observations at the sick bed, and accompanied by an alphabetical repertory, to facilitate and secure the selection of a suitable remedy in any given case.

Belle-mere Kathleen Thompson Norris,1945

Buffy Goes Dark Lynne Y. Edwards,Elizabeth L. Rambo,James B. South,2014-01-10 Buffy the Vampire Slayer earned critical acclaim for its use of metaphor to explore the conflicts of growth, power, and transgression. Its groundbreaking stylistic and thematic devices, boldness and wit earned it an intensely devoted fan base—and as it approached its zenith, attention from media watchdog groups and the Federal Communications Commission. The grim and provocative evolution of the show over its final two seasons polarized its audience, while also breaking new ground for critical and philosophical analysis. The thirteen essays in this collection, divided into the perspectives of feminist, cultural, auteur and fan studies, explore the popular series' conclusion, providing a multifaceted examination of Buffy's most controversial two seasons.

Ancient Sorceries and Other Weird Stories Algernon Blackwood,2002-08-27 By turns bizarre, unsettling, spooky, and sublime, *Ancient Sorceries and Other Weird Stories* showcases nine incomparable stories from master conjuror Algernon Blackwood. Evoking the uncanny spiritual forces of Nature, Blackwood's writings all tread the nebulous borderland between fantasy, awe, wonder, and horror. Here Blackwood displays his best and most disturbing work—including *The Willows*, which Lovecraft singled out as the single finest weird tale in literature; *The Wendigo*; *The Insanity of Jones*; and *Sand*. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Blood, Body and Soul Tamy Burnett,Amijo Comeford,2022-05-10 The ever-popular Whedonverse television shows--Buffy the Vampire Slayer, Angel, Firefly and Dollhouse--have inspired hundreds of articles and dozens of books. Curiously, the focus of much of the scholarship invokes philosophical, ethical, metaphysical and other cerebral perspectives. Yet, these shows are action-adventure shows, telling stories through physical bodies of many varied and unique forms. Characters fight and die, suffer grave injuries and traumas, and are physically transformed. Their bodies bear the brunt of their battles against evil, corruption and injustice. Through 17 insightful and captivating essays, this collection centers the physical spectacle of these televisual series. Chapters examine how both disabled and super-powered individuals navigate their differing levels of ability; how the practice of medicine and medical practitioners are represented; and how wellness is understood and depicted, both physically and mentally. Other essays focus on storylines involving specific body parts, the intersection of literal and metaphorical trauma and the processes of recovery from injury, illness and impairment. Each author offers a unique and thought-provoking analysis in an area previously under-explored or altogether missing from existing scholarship on the Whedonverse.

The Enlightenment and the Book Richard B. Sher,2008-09-15 The late eighteenth century witnessed an explosion of intellectual activity in Scotland by such luminaries as David Hume, Adam Smith, Hugh Blair, William Robertson, Adam Ferguson, James Boswell, and Robert Burns. And the books written by these seminal thinkers made a significant mark during their time in almost every field of polite literature and higher learning throughout Britain, Europe, and the Americas. In this magisterial history, Richard B. Sher breaks new ground for our understanding of the Enlightenment and the forgotten role of publishing during that period. The Enlightenment and the Book seeks to remedy the common misperception that such classics as *The Wealth of Nations* and *The Life of Samuel Johnson* were written by authors who eyed their publishers as minor functionaries in their profession. To the contrary, Sher shows how the process of bookmaking during the late eighteenth-century involved a deeply complex partnership between authors and their publishers, one in which writers saw the book industry not only as pivotal in the dissemination of their ideas, but also as crucial to their dreams of fame and monetary gain. Similarly, Sher demonstrates that publishers were involved in the project of bookmaking in order to advance human knowledge as well as to accumulate profits. The Enlightenment and the Book explores this tension between creativity and commerce that still exists in scholarly publishing today. Lavishly illustrated and elegantly conceived, it will be must reading for anyone interested in the history of the book or the production and diffusion of Enlightenment thought.

Transcending the Talented Tenth Joy James,2014-01-21 In *Transcending the Talented Tenth*, Joy James provocatively examines African American intellectual responses to racism and the role of elitism, sexism and anti-radicalism in black leadership politics throughout history. She begins with Du Bois' construction of the Talented Tenth as an elite leadership of race managers and takes us through the lives and work of radical women in the anti-lynching crusades, the civil rights and black liberation movements, as well as explores the contemporary struggles among black elites in academe.
