**Alan D. Bennett**

Bush Planes and Bush Pilots Dan McCaffery,2003-06 In February 1932 legendary bush pilot Wilfrid May used his Bellanca Pacemaker to hunt down the notorious killer Albert Johnson, the Mad Trapper of Rat River. Russ Baker used his Junkers W34 to pluck 24 men from a Yukon mountainside after three bombers crashed in appalling weather in 1942. Jack Hunter tracked rumrunners off the New Brunswick coast in his Fairchild. *Bush Planes and Bush Pilots* is the story of sixteen extraordinary aircraft found in the collections of Canada's aviation museums. It is a celebration of some of the greatest moments in Canadian history, when daring young pilots defied incredible odds to open up some of the nation's remotest regions to the outside world. Author Dan McCaffery highlights a diverse spectrum of planes from the pioneer era to the modern day; each plane is profiled individually, accompanied by historical and contemporary visuals and colour artwork. *Bush Planes and Bush Pilots* is an attractive book that will appeal to all who are interested in aviation history and the story of Canada's development as a nation.

**Canadian Warbird Survivors** Harold A. Skaarup,2001-11-29 The purpose of this handbook is to provide aviation enthusiasts with a simple checklist on where to find the surviving retired military aircraft that are preserved in Canada. The majority of the Canadian Warbird Survivors are on display within a great number of well maintained aviation museums, many others are displayed as gate guards near or in a number of Canadian Forces Bases, and a good number are in the hands of private collectors. Many are not listed in any catalogue, but have been found by word of mouth, or personal observation. The museum staffs and volunteer organizations throughout Canada have done a particularly good job of preserving the great variety of Canadian military aircraft, illustrated here. Hopefully, as more aircraft are recovered from their crash sites in the bush and restored, traded or brought back from private owners, they too will be added to the record. The book lists the aircraft alphabetically by manufacturer, number and type. This list is also appended with a brief summary of the aircraft presently on display within the nation and a bit of its history within the Canadian Forces. Canadian Warbirds books are available through the iUniverse.com or the Amazon.com online bookstores.

Canadian Warbirds of the Second World War Harold A. Skaarup,2001 This aviation handbook is intended to provide the reader with a quick reference to identify military support aircraft flown by the Royal Canadian Air Force, the Royal Canadian Navy and the Canadian Army during the Second World War. The handbooks in this series include a general description and a photograph from the Canadian Forces Archives of at least one of the key variants or marks of each aircraft that has been in Canadian military service or used by Canadian servicemen overseas. Each aircraft is listed alphabetically by manufacturer, number and type. General details describing the aircraft's engines, service ceiling, speed, armament or weapons load are included, along with a brief description of the Canadian or allied squadron in which Canadian aircrews used the aircraft operationally. This is the fourth volume in the series. It describes the trainers, transports and utility aircraft flown by Canadians during the war. A list of museums, private aircraft collections and other locations where a number of the survivors might be found is also included. The handbook is not a definitive list of all Canadian-manufactured or operated support aircraft, but it should serve as a quick reminder for anyone with an interest in Canadian military aviation.

**Flight Check!** Scott A. Thompson,2002 Traces the history of flight inspection, instrument flight procedures, and aeronautical charting from the early days of aviation to 2002.

*Canadian Warbird & War Prize Survivors* Harold A. Skaarup,2000-10-24 The purpose of this handbook is to provide aviation enthusiasts with a handbook on where to find the surviving retired military aircraft preserved in Canada. The majority of the Canadian Warbird and War Prize Survivors are on display within a significant number of aviation museums. Many others are displayed as gate guards on or near a number of Canadian and Allied Armed Forces Bases and installations. There are also a few in the hands of private owners and collectors that have been restored to flying

status. These include a number of foreign warbird survivors that were brought back to Canada as War Prizes. The museum staffs and volunteer organizations such as the Canadian Aviation Preservation Association (CAPA) have done tremendous work in preserving military and civilian aircraft that have been a major part of Canada's aviation heritage. A few of these aircraft are illustrated in this book, along with a short description of the aircraft flown by Canadian servicemen and women. The aircraft are listed alphabetically, along with a city or museum location, the manufacturer, aircraft serial number and call sign where known. Canadian Warbird and War Prize Survivors is part of a series on aircraft used by the Canadian Forces throughout its history.

Canadian Warbirds of the Biplane Era - Trainers, Transports and Utility Aircraft Harold Skaarup, 2001-05-29 This aviation handbook provides the reader with a quick general reference to identify military support aircraft flown by Canadians during WWI and post-war with the Canadian Air Force, the Royal Canadian Air Force, the Royal Canadian Navy, and the Canadian Army during the biplane era. The handbooks in this series include a general description and a photograph from the Canadian Forces Archives of key variants or marks of each aircraft that has been in Canadian service or used by Canadian servicemen overseas. Each aircraft is listed alphabetically by manufacturer, number and type. General details describing the aircraft's engines, service ceiling, speed, armament or weapons load are included, along with a brief description of the Canadian squadrons which flew the aircraft. This is the second volume in the series. It describes the trainers, transports and utility aircraft flown by Canadian servicemen during the biplane era. A list of museums, private aircraft collections and other locations where a number of the survivors might be found is also included. The handbook is not a definitive list of all Canadian-manufactured or operated aircraft, but it should serve as a quick reminder of the major examples for anyone with an interest in Canadian military aviation.

Canadian Warplanes Harold A. Skaarup, 2009-11 This aviation handbook is designed to be used as a quick reference to the classic military heritage aircraft that have been flown by members of the Canadian Air Force, Royal Canadian Air Force, Royal Canadian Navy, Canadian Army and the present-day Canadian Forces. The interested reader will find useful information and a few technical details on most of the military aircraft that have been in service with active Canadian squadrons both at home and overseas. 100 selected photographs have been included to illustrate a few of the major examples in addition to the serial numbers assigned to Canadian service aircraft. For those who like to actually see the aircraft concerned, aviation museum locations, addresses and contact phone numbers have been included, along with a list of aircraft held in each museum's current inventory or on display as gate guardians throughout Canada and overseas. The aircraft presented in this edition are listed alphabetically by manufacturer, number and type. Although many of Canada's heritage warplanes have completely disappeared, a few have been carefully collected, restored and preserved, and some have even been restored to flying condition. This guide-book should help you to find and view Canada's Warplane survivors.

**The Bush Pilots** Time-Life Books, 1983 Describes the personalities, planes and experiences of bush pilots flying in the Canadian wilderness, the Australian outback, the jungles of New Guinea and Latin America and the frozen land of Alaska.

**Polar Winds** Danielle Metcalfe-Chenail,2014-09-10 With historical research and rare interviews, explore the highs and lows of aviation north of the 60th parallel. This journey takes readers from hot air balloons above the Klondike gold fields, to international bids for the North Pole, to high-profile crashes and search-and-rescue operations.

Captain Roy Brown, A True Story of the Great War 1914-1918 Alan D. Bennett,2014-06-05 This is a true story of young men who fought and died for their country. It puts the reader behind the stick of a Sopwith Camel from the pilot's point of view. This is volume 1 and volume 2 combined for the ebook edition. Part One of this comprehensive study covers the life of Captain Arthur Roy Brown, who is well-known as an ace fighter pilot. The basic story is told in Brown's own words, via his previously unpublished letters home and the entries in his Pilot's Flying Log Book. Part Two of the book covers Captain Brown's encounter with Manfred von Richthofen, the Red Baron, in detail. In 1995 Alan Bennett toured the site in France where Captain Brown had attacked the Red Baron on 21 April, 1918. As an experienced pilot of similar aircraft, he had grave doubts as to the truth of some parts of the story. The eventual result was a book written in conjunction with Norman Franks: THE RED BARON'S LAST FLIGHT. After plentiful information from readers, Captain Roy Brown's family, and Wop May's son, plus further research in France, a considerably different picture of the entire event and of Roy Brown's life emerged. This new book, Captain Roy Brown, tells the complete definitive story.
