Future Weapons Kevin Dockery,2007-12-04 On the battlefield, a soldier's best friends are his gun and his gear—because his life depends on them. But what will it take to fight and survive on the battlefields of tomorrow? What will those combat arenas consist of, and where will they be? And what will our nation's fighting men and women carry with them into battle? *Future Weapons* is a compendium of the weapons of war that may accompany our soldiers in the near and far future, as well as an insightful look at the soldier, sailor, and airman of today and tomorrow. All manner of military hardware is covered, as well as information about cutting-edge technology that will become standard in weapons to come, the possibility of robotic soldiers, vehicles, protective armor, and the prospects of fighting a war in both space and cyberspace.

The Beretta M9 Pistol Leroy Thompson,2011-09-20 In 1990 the Beretta M9 replaced the venerable Colt 1911 as the main pistol of choice for the US Army, and it has seen widespread use in Iraq and Afghanistan. Written by a leading pistol expert who currently trains US Special Forces in the use of this weapon, this book is an honest appraisal of the successes and failings of the 9mm Beretta. The volume traces the Beretta designs that preceded the M9, as well as its use on the battlefield, including the impact it has had on close combat training due its the larger magazine capacity. It also details the adoption of the Beretta by US law enforcement agencies and the impact this has had. This is a fascinating history of a classic pistol and an assessment of its future use.

Season of Slaughter Don Pendleton,2017-01-21 BLOOD VISION A new American nightmare has been unleashed: nearly a thousand injured and more than 500 dead at Washington's biggest airport in a show of terror that was just a sneak preview of the main event. Mack Bolan leads a strike force that includes the warriors of Stony Man in a race to root out a virulent enemy: a blood-soaked American militia group holding hands with Jihad terrorists – sharing a common bond of destruction: the U.S government. The enemy's got a field force to rival Stony Man: black ops assassins – killers without peer. The technology they've managed to steal is top secret, and gives them a clear shot at any worst-case scenario they choose. United, the Hand of Christ and the Fist of God are ready to accomplish what neither group can do alone: rewrite history.

Handbook of Handguns Jeffrey Strickland,2013-04-25 In light of the 2nd Amendment debates, shooting may become the national passtime. To act responsibly within the 2nd Amendment, means knowing how to properly bear arms. Knowing involves understanding firearm types, firearm operation, ammunition, internal ballistics, and shooting. These require training, especially shooting. Whether you own or plan to own a handgun for recreation, competition,

or self-defense, training is of the utmost importance. When you fire a projectile (bullet) from a firearm, you are responsible for where it goes. You need to understand how fast it travels, how far it can travel, and how accurate your firearm is in delivering the projectile to your intended target. Yes, bearing arms is a right, but not one to be taken lightly. Firing a handgun is a grave responsibility and must be done correctly and with a full understanding of all the components that make up shooting.

WITH A WINK AND A NOD Dallas A. Davis, 2015-12-10 "WITH A WINK AND A NOD" By Dallas Adrienne Davis Dr. Laura Willows (Protagonist), a woman in her 30's, reflects on the past as she drives into a New England town to start a new life in a new City. Her work at a government experimental lab went awry when two of her colleagues were poisoned. Although she is pro-life Laura chooses to work for an Abortion Clinic; hoping to get completely away from her life at the government lab and out of the lime light of society. Her supervisor, Dr. Charles Knight (Antagonist), blackmails her into doing the unspeakable. Laura's ex-coworker, Dr. Chauncey Sinclair (Protagonist), enters the picture in the guise of being in Dr. Knight's corner. Chauncey and Laura team up against Dr. Knight, in hopes of bringing him to his knees. Chauncey Sinclair, a secret government agent, brings his team of men into the plot to overthrow the scientists who have joined Dr. Knight in their pursuit of a "Perfect Society". Chauncey (Laura's pet name for him is Chance) and his team are members of the National Independent Covert Agency. The N.I.C.A. is a secret agency under the direction of one man in the C.I.A., code named "Chameleon". Dr. Knight has built a complex in the mountains of Wyoming with state-of-the-art equipment under an enormous dome with fruit trees, vegetable gardens and housing for several hundred people. A conflict ensues and the good guys win, with a few mishaps. The complex is redirected and turned into a youth camp for needy and orphaned children.

Omega Cult Don Pendleton, 2017-03-01 SPLINTER SECT North Korean terrorists unleash a devastating sarin-gas attack on Los Angeles: payback for US opposition to their homeland's nuclear expansion. With casualties mounting and fear of future strikes on the rise, Mack Bolan follows the trail of violence to the zealous billionaire funding the deadly campaign. Taking him out—and saving thousands from an arsenal of suitcase bombs and biochemical weapons—will mean penetrating North Korea's treacherous border. But the Executioner's bloody pilgrimage won't end until he sends this scum straight into the afterlife.

The Theatrical Firearms Handbook Kevin Inouye, 2014-05-30 The Theatrical Firearms Handbook is the essential guide to navigating the many decisions that are involved in the safe and effective use of firearm props for both the stage and screen. Point Blank Don Pendleton, 2014-12-02 After four deputy U.S. marshals and a witness, who is a former Mafia member, are murdered, Mack Bolan is sent to Italy to stop the powerful Calabria crime family from taking any more innocent lives. Original.

The Variant Virus G. A. Mohr, PhD, 2012-06-28 The book is the first on the adventures of British secret agent Simon Sinclair who works mainly for Counter Terrorism Intelligence (Operations), or CT3, in conjunction with MI5, MI6 and the CIA. The book is a 'future threat' scenario, the threat in question being technologically feasible on grand scale as far back as the mid 1980s when an accident at Vektor, one of Russia's then 50 Biological Warfare facilities, infected Ustinov with Marburg filovirus which evolved in the 15 days it took to liquefy all his organs into 'Marburg Variant U' which was then put atop SS16 rockets. In this gripping tale a recombinant or 'dual' virus is smuggled into England by CABAL, the Confederation Against British-American Logistics, an international group opposed to British and American power and influence that CABAL sees as hegemony. CABAL gives seven days notice of attacks on London. After a CABAL attack on his life Sinclair follows his attacker to Colombia where he learns the identities of four CABAL 'money men' and captures one of them, the money trail left by these financiers leading to the identity of CABAL's operational leaders. Sinclair succeeds in thwarting four CABAL bomb attacks and stops helicopters heading to London with the virus, but not without fallout which threatens an epidemic. First symptoms of smallpox appear, and then those of a new and highly virulent strain of Marburg filovirus which causes haemorrhagic fever and liquefaction of the organs. Sinclair finds a cure for the recombinant virus in Russia and spread throughout London, if not England or internationally, is avoided. Many CABAL members have been captured or killed and for good measure Sinclair captures two of the three remaining top organizers still at large. Reflecting on a very hectic three weeks during which England faced the greatest threat in its history, Sinclair realizes that there is a mole in CT3, leaving him a difficult future assignment but, at the same time, giving him an idea that might, given time, help shut down major terrorist organizations such as CABAL and Al Qaeda for good.

To Be A Hero: A Superhero Role Playing Game Vincent Venturella,

Terror Ballot Don Pendleton, 2014-03-01 CITY ON FIRE When France's presidential elections are hijacked by terrorists, violence erupts on the streets of Paris, fueling extreme antiforeigner sentiments. The chaos feeds votes to the ultraradical candidate, but intelligence indicates the attacks may be the ultimate propaganda tool. Soon, shock waves reach America, destabilizing foreign policy and U.S. interests in Europe. Mack Bolan answers the call of duty, launching a surgical strike against the powerful, skilled radicals carrying out the slaughter. Dodging the triple threat of police corruption, political extremism and the bloodlust of trained killers, Bolan razes the terrorist strongholds. As the city of light bursts into a blaze of cleansing fire, the Executioner casts his vote for the terrorists' blood—and an end to their deadly campaign.

Already distracted by her growing feelings for sexy Guardian Leader, Aaron, Cadence is unsure what to make of the situation with Jack. When her ex begins to break the rules and claim innocent lives, Aaron insists Cadence is the only one who can destroy Jack once and for all. Faced with the unfathomable, can Cadence bring Jack's terrifying reign to an end, or will her refusal create a chasm that forces her to give up her team of Vampire Hunters forever? Repercussion Life is made up of choices. Sometimes the wrong ones will get you killed.... Killing her ex-boyfriend Jack wasn't Cadence Findley's decision, but she'd done it just the same. In the aftermath, Cadence realizes she's not only lost one of her best friends, her team is in shambles, and she's faced with a reality where there is no Guardian Leader. Can Cadence overcome insurmountable odds and pull her team back together in order to avenge the death of her friend? The Clandestine Saga follows the story of Cadence Findley, Vampire Hunter extraordinaire, as she embarks on a quest to rid the world of Vampires. She is part of an elite team of Hunters and Guardians know as LIGHTS whose sole purpose is to protect humans from the creatures that lurk in the shadows.

Soft Target Don Pendleton, 2017-01-21 **TERROR TAKEDOWN** New intelligence in the form of confiscated terrorist-training films indicates a highly orchestrated chain of catastrophic violence is about to spread like wildfire across the United States. Assassinations of government officials, the mass murder of innocents at shopping malls and churches, and suicide bombings will simply lay the groundwork for the big event to come. Operating on razor-sharp instincts, Mack Bolan begins at the beginning— tracking targeted victims and taking out the enemy before havoc ensues, picking up bits of the puzzle and piecing together the grim picture. A mass hostage-taking at a large university demands every bit of steel the Executioner's got, but even the worst that unfolds is a cakewalk compared to a relentless enemy's next calculated act of devastation.

Lockdown Don Pendleton, 2017-01-21 **LETHAL CONTAINMENT** The high-level demonstration of a military experiment has gone hideously wrong. A refined nerve agent--designed to temporarily enhance strength and endurance on the battlefield--has failed. Anyone who comes in direct contact with the highly contagious agent is transformed into a human monster: a living, breathing, killing machine. The research facility is in full lockdown and Hal Brognola is trapped inside. Mack Bolan and Phoenix Force's David McCarter must enter the hot zone where contaminated researches are slaughtering each other. The threat to the population at large is enormous. If the Stony Man warriors can't gain control of the facility, Brognola and countless others will die. And while the battlefield is a new one, the Executioner's mission remains the same: protect the innocent and punish the guilty.

Cadence Findley never gave much thought to vampires until one night when a dark encounter changed her life forever. When her friend is lured into the woods by a stranger with steel-gray eyes and pale skin, Cadence instinctively knows he is dangerous, so she follows at a distance. Moments later, she finds herself all alone with his decapitated head—and her friend's body at her feet. Except she's not really alone. A mysterious man appears out of nowhere and insists she runs. The monster has friends—the blood sucking kind. And now, they are coming for her. Swept into a world full of creatures she never dreamed existed, Cadence is left with a choice. Will Cadence escape the bloodsuckers on her tail as she enters the secret world of vampires and guardians, hunters and hybrids? *So You Think Your Sister's a Vampire: The Chronicles of Cassidy Book 1* Don't trust anyone, not even yourself.... You think you know someone pretty well, until you're awoken in the middle of the night to the sound of unfamiliar voices and realize your sister's being swept away by some supernatural creatures who climb in and out of windows and leap from two-story houses like it's nothing. My parents tried to tell me everything was fine, but when Cadence finally did come back from wherever they'd taken her, I knew there was something unusual about my older sister. Now, her best friend is dead. Her ex-boyfriend is acting bizarre. And I'm afraid I might be next. My name is Cassidy Findley, and I'm pretty sure my sister is a vampire, despite her "co-worker" making every effort to brainwash me into

believing otherwise. With the help of my two best friends, we vow to get to the bottom of this before it's too late, and my sister starts to claim other victims. I love her, but I won't be turned, nor will I just sit by without doing everything I can to stop her. I can only hope that I'm not too late and that I can trust my own memories. Because I'm pretty sure my sister's friends are coming for me next. The Chronicles of Cassidy is a retelling of The Clandestine Saga specifically for young adult/teen readers told from the perspective of high schooler Cassidy Findley. Aaron: A Vampire Hunter's Tale Book 1 He will live forever, hunting the undead... When those promises fail, he takes it upon himself to do whatever it takes to protect his family from the monsters that haunt Killarney. Transforming into a Guardian gives Aaron enormous power, but it also comes with a price. Live forever, but never rest; seek out those who would destroy mankind and terminate them. Discovering the one he loves most of all has turned, Aaron is faced with the ultimate question. Can he destroy her in order to save humanity? Follow Aaron's journey through the ages as he and his team of Guardians and Hunters take on legendary creatures of the night such as Jack the Ripper and Dracula himself.
