Countless pieces of the Berlin Wall were scattered around the globe after the Wall fell in 1989. These pieces of Wall embody the Berliners fight for freedom. More than 240 of these sections - each weighing tonnes - can be found in over 140 countries and on every continent. They have been located for this book. Amongst those who now own sections of the Wall are Japanese businessmen, famous art collectors and all US Presidents from the last century. There are some exciting and strange, but also tragic stories behind the pieces of the Wall. The stories in this book highlight the many ways in which the Wall has been used to commemorate the Berlin Wall and the Cold War.

Wall Memorials and Heritage Sybille Frank,2016-06-17 Analysing the transformation of Berlin's former Allied border control point, Checkpoint Charlie, into a global heritage industry, this volume provides an introduction to, and a theoretically informed structuring of, the interdisciplinary international heritage debate. This crucial case study demonstrates that an unregulated global heritage industry has developed in Berlin which capitalizes on the internationally very attractive – but locally still very painful – heritage of the Berlin Wall. Frank explores the conflicts that occur when private, commercial interests in interpreting and selling history to an international audience clash with traditional, institutionalized public forms of local and national heritage-making and commemorative practices, and with the victims' perspectives. Wall Memorials and Heritage illustrates existing approaches to heritage research and develops them in dialogue with Berlin's traditions of conveying history, and the specific configuration of the heritage industry at Checkpoint Charlie. Productively integrating theory with empirical evidence, this innovative book enriches the international literature on heritage and its economic and political contexts.

The Berlin Wall, August 13, 1961–November 9, 1989 Frederick Taylor,2019-10-29 “This vivid account of the Wall and all that it meant reminds us that symbolism can be double-edged, as a potent emblem of isolation and repression became, in its destruction, an even more powerful totem of freedom.” – The Atlantic Monthly NOW WITH AN UPDATED EPILOGUE 30 YEARS AFTER THE FALL OF THE WALL On the morning of August 13, 1961, the residents of East Berlin found themselves cut off from family, friends, and jobs in the West by a tangle of barbed wire that ruthlessly split a city of four million in two. Within days the barbed-wire entanglement would undergo an extraordinary metamorphosis: it became an imposing 103-mile-long wall guarded by three hundred watchtowers. A physical manifestation of the struggle between Soviet Communism and American capitalism that stood for nearly thirty years, the Berlin Wall was the high-risk fault line between East and West on which rested the fate of all humanity. In the definitive history on the subject, Frederick Taylor weaves together official history, archival materials, and personal accounts to tell the complete story of the Wall's rise and fall.

Touching Photographs Margaret Olin,2012-05-21 Photography does more than simply represent the world. It acts in the world, connecting people to form relationships and shaping relationships to create communities. In this beautiful book, Margaret Olin explores photography's ability to “touch” us through a series of essays that shed new light on photography's role in the world. Olin investigates the publication of photographs in mass media and literature, the hanging of exhibitions, the posting of photocopied photographs of lost loved ones in public spaces, and the intense photographic activity of tourists at their destinations. She moves from intimate relationships between viewers and photographs to interactions around larger communities, analyzing how photography affects the way people handle cataclysmic events like 9/11. Along the way, she shows us James VanDerZee's Harlem funeral portraits, dusts off Roland Barthes's family album, takes us into Walker Evans and James Agee's photo-text Let Us Now Praise Famous Men, and logs onto online photo albums. With over one hundred illustrations, Touching Photographs is an insightful contribution to the theory of photography, visual studies, and art history.

The Collapse Mary Sarotte,2014-10-07 On the night of November 9, 1989, massive crowds surged toward the Berlin Wall, drawn by an announcement that caught the world by surprise: East Germans could now move freely to the West. The Wall—infamous symbol of divided Cold War Europe—seemed to be falling. But the opening of the gates that night was not planned by the East German ruling regime—nor was it the result of a bargain between either Ronald Reagan or George H.W. Bush and Soviet leader Mikhail Gorbachev. It was an accident. In The Collapse, prize-winning historian Mary Elise Sarotte reveals how a perfect storm of decisions made by daring underground revolutionaries, disgruntled Stasi officers, and dictatorial party bosses sparked an unexpected series of events culminating in the chaotic fall of the Wall. With a novelist's eye for character and detail, she brings to vivid life a story that sweeps across Budapest, Prague, Dresden, and Leipzig and up to the armed checkpoints in Berlin. We meet the revolutionaries Roland Jahn, Aram Radomski, and Siggi Schefke, risking it all to smuggle the truth across the Iron Curtain; the hapless Politburo member Günter Schabowski, mistakenly suggesting that the Wall is open to a press conference full of foreign journalists, including NBC's Tom Brokaw; and Stasi officer

Harald Jäger, holding the fort at the crucial border crossing that night. Soon, Brokaw starts broadcasting live from Berlin's Brandenburg Gate, where the crowds are exulting in the euphoria of newfound freedom—and the dictators are plotting to restore control. Drawing on new archival sources and dozens of interviews, *The Collapse* offers the definitive account of the night that brought down the Berlin Wall.

The Berlin Wall Hermann Waldenburg,1990 A fine, full color, selection of, maybe, the world's longest mural--the Western side of the late Wall. The images are powerful and wide-ranging, but chiefly political. An important document.

The Fall of the Berlin Wall Jeremy Smith,Judie Smith,2004 Imagine living in a city where you could be shot for crossing a certain boundary. For nearly thirty years, a wall divided Berlin and kept residents living in the eastern section under strict controls so severe that many people willingly risked -- or lost -- their lives attempting to escape to West Berlin. No wonder, then, that on November 9, 1989, citizens on both sides helped tear down the Wall with their bare hands when the government of East Germany collapsed. Discover the events that led to three decades of social, political, and economic oppression, and learn how circumstances evolved into freedom for thousands. Book jacket.

Checkpoint Charlie Iain MacGregor,2019-11-05 A “constantly captivating...well-researched and often moving” (The Wall Street Journal) history of Checkpoint Charlie, the famous military gate on the border of East and West Berlin where the United States confronted the USSR during the Cold War. In the early 1960s, East Germany committed a billion dollars to the creation of the Berlin Wall, an eleven-foot-high barrier that consisted of seventy-nine miles of fencing, 300 watchtowers, 250 guard dog runs, twenty bunkers, and was operated around the clock by guards who shot to kill. Over the next twenty-eight years, at least five thousand people attempt to smash through it, swim across it, tunnel under it, or fly over it. In 1989, the East German leadership buckled in the face of a civil revolt that culminated in half a million East Berliners demanding an end to the ban on free movement. The world's media flocked to capture the moment which, perhaps more than any other, signaled the end of the Cold War. Checkpoint Charlie had been the epicenter of global conflict for nearly three decades. Now, “in capturing the essence of the old Cold War [MacGregor] may just have helped us to understand a bit more about the new one” (The Times, London)—the mistrust, oppression, paranoia, and fear that gripped the world throughout this period. Checkpoint Charlie is about the nerve-wracking confrontation between the West and USSR, highlighting such important global figures as Eisenhower, Stalin, JFK, Nikita Khrushchev, Mao Zedung, Nixon, Reagan, and other politicians of the period. He also includes never-before-heard interviews with the men who built and dismantled the Wall; children who crossed it; relatives and friends who lost loved ones trying to escape over it; military policemen and soldiers who guarded the checkpoints; CIA, MI6, and Stasi operatives who oversaw operations across its borders; politicians whose ambitions shaped it; journalists who recorded its story; and many more whose living memories contributed to the full story of Checkpoint Charlie.

After the Berlin Wall Hope M. Harrison,2019-09-26 A revelatory history of the commemoration of the Berlin Wall and its significance in defining contemporary German national identity.

Tear Down this Wall Ronald Reagan,2004-01-01 This book is a unique and substantive tribute to Ronald Reagan, one of the most important figures in U.S. and world history. It includes Reagan's most trenchant speeches as President (Evil Empire, Tear down this Wall, remarks commemorating the fortieth anniversary of the Normandy Invasion, his farewell to the nation on leaving the Presidency); essential speeches delivered before holding the Office of President (Rendezvous with Destiny); all-but-impossible-to-find policy articles written by Reagan for National Review; and words of praise – old as well as new following Reagan's death – from William F. Buckley Jr., Margaret Thatcher, Robert Bork, Paul Johnson, Edwin Meese III, Tom Wolfe, and others.

Tunnel 29 Helena Merriman,2021-08-24 He escaped from one of the world's most brutal regimes.Then, he decided to tunnel back in. In the summer of 1962, a young student named Joachim Rudolph dug a tunnel under the Berlin Wall. Waiting on the other side in East Berlin were dozens of men, women, and children—all willing to risk everything to escape. From the award-winning creator of the acclaimed BBC Radio 4 podcast, Tunnel 29 is the true story of this most remarkable Cold War rescue mission. Drawing on interviews with the survivors and Stasi files, Helena Merriman brilliantly reveals the stranger-than-fiction story of the ingenious group of student-diggers, the glamorous red-haired messenger, the Stasi spy who threatened the whole enterprise, and the love story that became its surprising epilogue. Tunnel 29 was also the first made-for-TV event of its kind; it was funded by NBC, who wanted to film an escape in real time. Their documentary—which was nearly blocked from airing by the Kennedy administration, which wanted to control the media during the Cold War—revolutionized TV journalism. Ultimately, Tunnel 29 is a success story about freedom: the valiant citizens risking everything to win it back, and the larger world rooting for them to triumph.

The Berlin Wall and the Intra-German Border 1961-89 Gordon L. Rottman,2012-10-20 The border between East and West Germany was closed on 26 May 1953. On 13 August 1961 crude fences and walls were erected around West Berlin: the Berlin Wall had been created. The Wall encircled West Berlin for a distance of 155km, and its barriers and surveillance systems evolved over the years into an advanced obstacle network. The Intra-German Border ran from the Baltic Sea to the Czechoslovak border for 1,381km, and was where NATO forces faced the Warsaw Pact for the 45 years of the Cold War. This book examines the international situation that led to the establishment of the Berlin Wall and the IGB, and discusses how these barrier systems were operated, and finally fell.

He Only Feels the Black and White of It, Berlin Wall, 14-07-1973 Steffi Klenz,2016

Marc Lüders, East Side Gallery Marc Lüders, LEVY Galerie, 2008 The new series of works by Marc Luders consists of twenty-eight 'photo-pictures': works that integrate photographs taken by the artist at the East Side Gallery in Berlin near Oberbaum Bridge. The East Side Gallery is a section of the Berlin Wall that was painted by 118 artists from 21 countries in 1990, an artistic comment on the political changes of the years following the fall of the wall. Meaning is created when Luders photographs the wall and its fictitious visitors today, in front of the graffiti art that is in great need of repair, and also because the popular site is threatened by new development. In rapidly changing Berlin, the crumbling, obviously disintegrating East Side Gallery will soon no longer exist. Or at least not in reality, only as an imaginary, intermedia 'photo-picture' by Luders. English and German text.
