Jannine Fitzgerald, Scott Fitzgerald

*The Green Bicycle* Haifaa Al Mansour,2015-09-22 In the vein of *Year of the Dog* and *The Higher Power of Lucky*, this Middle Eastern coming-of-age story is told with warmth, spirit, and a mischievous sense of humor Spunky eleven-year-old Wadjda lives in Riyadh, Saudi Arabia with her parents. She desperately wants a bicycle so that she can race her friend Abdullah, even though it is considered improper for girls to ride bikes. Wadjda earns money for her dream bike by selling homemade bracelets and mixtapes of banned music to her classmates. But after she's caught, she's forced to turn over a new leaf (sort of), or risk expulsion from school. Still, Wadjda keeps scheming, and with the bicycle so closely in her sights, she will stop at nothing to get what she wants. Set against the shifting social attitudes of the Middle East, *The Green Bicycle* explores gender roles, conformity, and the importance of family, all with wit and irresistible heart.

**The Purple Bicycle** Stacey David,2019-04-03 One of the first true freedoms you experience as a kid growing up is your first bike. It becomes your transportation to explore the world... or at least the local neighborhood! All the kids in my neighborhood had bikes, and we roamed like packs of unwashed hooligans with torn jeans and bloody knees. We stuffed playing cards in our spokes and chewed on black licorice sticks as we rode around looking for the next jumping contest to break out. It was magic! But to a kid, a bike is more than transportation, it becomes an extension of your personality. Everybody's bike was as unique as the person who rode them. Stingrays, 10 speeds, mountain bikes, BMX, cruisers... everybody had something a little different, and they all had their strengths and weaknesses. This is where the idea for the PURPLE BICYCLE came from. Just as a bike might wish it had the abilities of a different make or model, so might a person tend to overlook how truly unique God has created each one of us and long for someone else's gifts and talents, color, or ethnicity because they seem better than ours. It's a simple story, but one we all need to be reminded of from time to time.

**Bicycle** David V. Herlihy,2004-01-01 The nineteenth century's mechanical horse offered an exciting new world of transportation for all and ushered in an era of changes that resonates to the present day, changes cataloged and described in a fascinating history of an engineering marvel.

Italy, 1944: Florence is occupied by Nazi forces. The Italian resistance movement has not given up hope, though — and neither have thirteen-year- old Paolo and his sister, Costanza. As their mother is pressured into harboring escaping POWs, Paolo and Costanza each find a part to play in opposing the German forces. Both are desperate to fight the occupation, but what can two siblings — with only a bicycle to help them — do against a whole army? Middle-grade fans of history and adventure will be riveted by the action and the vividly evoked tension of World War II.

Bicycle has been back from her cross-country adventure with her robot-like bike, named Fortune, for just a month when it starts malfunctioning, insisting that they pedal away from their home in Washington D.C. to Harpers Ferry in West Virginia. Once there, they discover a scrapyard where bicycles are being

crushed and recycled—and it appears they are too late to save them. Bicycle and Fortune head to a convenience store so Bicycle can drown her sorrows with a chocolate bar. Much to her astonishment, she meets her long-lost family there. Bicycle learns that they have been looking for her since she disappeared as a toddler and that she is a quintuplet. She is happy to go live with them except for one thing: her family doesn't share her passion for cycling. In fact, her sisters have never even ridden a bike. Then Fortune acts up again, leading Bicycle back to the scrapyard where she discovers that there are four bicycles left and they were all made by the same inventor who created her Fortune. Four seems too coincidental to ignore--the perfect number to bring her sisters up to speed. She sets a plan in motion to rescue the bikes, a plan that if it works will help her fit into her family and still stay true to cycling self. A Junior Library Guild Gold Standard Selection
